COURSE TOPICS

Hands-On Smile Design and Case Prep: *Behind the artistic elements of smile design are basic objective principles that satisfy the requirements for beautiful smiles. Research has revealed the proportions that are preferred by dentists. Learn how to confidently determine the ideal smile for your patients prior to initiating active treatment and then we will practice Hands-on the techniques necessary for success, including:* Dental Photography is vital for today's practitioner to objectively evaluate, diagnose, and design a smile. In groups, attendees will use the principles taught to photograph and treatment plan cases, using the latest digital cameras hands-on ♦ hands-on crown cementations

Practical Endo: (Lecture) *This seminar will discuss the latest practical information regarding endodontic diagnosis, treatments, new game-changing materials and files and a plethora of new cases that attendees will discuss in an interactive format, including:* What is affecting treatment outcomes? ♦ Rational, evidence-based case selection ♦ Endo-perio interrelationship ♦ Procedural errors and their prevention ♦ Dentine replacement materials and its many applications in complex cases ♦ Restoring endodontically treated teeth with bonded core composites ♦ Diagnosis of cracked teeth & treatment options ♦ Endodontic retreatment vs. implants—when, where & how to decide

Intro to Dental Sleep Medicine (8 CE Units): *This course is intended to provide a comprehensive overview of diagnosis and treatment of sleep apnea cases for dentists interested in adding this growth area to their practices. Dr. Veis will cover all aspects diagnosis and the sleep study, deciding which appliances to use for treatment, measuring and fitting the appliances, interacting with the fabricating lab, and how to manage the billings to medical insurance, including:* Introduction to sleep stages, disorders and why there is a need for treatment? ♦ Sleep apnea signs/symptoms/clinical issues and treating sleep apnea via dental appliance protocol review ♦ Services to do and read sleep tests ♦ Overview of Appliances - pro's and con's of all of the major sleep appliances ♦ Model analysis, mixed dentition and how to take construction bites for making certain appliances ♦ Group work on an actual case and diagnosing appliance ♦ Services to fully take care of the medical billing for these services
