"A colleague introduced me to LENSIORA, and I have to say that I'll never use another intraoral camera. The name suits it perfectly. Easy!"

Orest Frangopol, DDS, Rancho Santa Margarita, CA – Eaglesoft user

"It's so easy to install! And even easier to operate. I don't have to use the mouse anymore, the camera is intuitive and it integrates seamlessly with Dentrix. Extremely pleased."

Lucian Vatafu DDS, Newington, CT – Dentrix user

"This camera has way better quality than a camera that cost me $5000! It's just crazy. I've installed an LENSIORA intraoral camera in every one of my operatories. It's just that good!"

Adrian Buca, DDS. Oakhurst, CA - OpenDental user

100% COMPATIBLE

No Mouse or foot pedal needed!
