The logo features the word "DENTIMAX" in a bold, black, sans-serif font, centered within a yellow oval. This oval is framed by a thick, yellow rope border that forms a rectangular shape with rounded corners. The rope has a detailed three-strand braid pattern and is set against a solid brown background. At the top center of the rope border, there is a small knot or loop.

Offer Expires January 31, 2016

The logo consists of a thick, dark brown background. A yellow rope with a black outline is coiled into a rectangular shape, framing a central yellow oval. The text "XCEL SEMINARS" is written in a bold, black, sans-serif font across the center of the oval. The rope has frayed ends at the top and bottom, suggesting it is a lasso or a similar tool.

XCEL SEMINARS

9th Annual Comprehensive Dental Skills Series

Knott's Berry Farm Resort Hotel

Jan. 24, 2016: Techniques and Tools Needed for Great Pediatric Dentistry & Treating Trauma Cases *Dr. Kaneta Lott is a Board Certified Pediatric Dentist who lectures nationally on Pediatric Dentistry and Dental Traumatology.*

Feb. 28: Extractions, Implant Site Development Techniques and Soft Tissue Grafting *Dr. Tim Silegy is a Diplomate of the American Board of Oral and Maxillofacial Surgery and maintains a private practice. He has published articles in the Journal of Oral and Maxillofacial Surgery, lectures internationally and was the first ever OMS to appear on ABC's hit television program Extreme Makeover.*

March 13: OSHA, Infection Control & the California Dental Practice Act *Nancy Andrews, RDH, has entertaining methods to help the dental team navigate the sea of state and federal regulations.*

April 17: Contemporary Restorative Trends: Separating Fact from Fiction *Dr. Dan Ward serves as editor of the ASDA Journal and is also is an Assistant Clinical Professor at The Ohio State University and in private practice in Columbus, Ohio.*

May 22: Current Advances in Endodontic Treatment *Dr. Matthew Chesler is an Endodontist currently practicing in the U.S. Navy. He has lectured extensively on a wide variety of Endodontic topics relevant to GPs.*

**Knott's Berry Farm Resort Hotel, 7675 Crescent Ave, Buena Park, CA
(Beach Blvd. exit of the 5, 405 & 91 Fwys)**

**ALL COURSES ARE ON SUNDAYS (8AM-4PM)
AND 7 CA CES EACH
\$139 EACH LECTURE
OR THE ENTIRE 5 COURSE SERIES
(35 CA & AGD CES) FOR ONLY \$499**

COURSE SERIES
SPONSORED BY:

COURSE TOPICS

Pedo and Treating Trauma: *This course will explore the additional skills needed to provide dental care to the pediatric patient including tried and true procedures as outlined below:* Effective use of stainless steel crowns ♦ Necessary and effective pulp therapy ♦ Benefits of bilateral and unilateral space maintainers ♦ How to successfully take an impression ♦ How to diagnose and provide treatment plans ♦ Determine appropriate X-Ray's for young patients ♦ Appropriate use of fluoride ♦ Current options for repairing anterior primary teeth ♦ Understanding of the healing process for trauma and a Step-by step evaluation approach ♦ Logical evaluation form that reviews extra and intra-oral soft tissues / facial and dental bones / periodontia and tooth structures ♦ Pre-packaged trauma supply list and a listing of the necessary radiographs, clinical tests, specialists referral list and at timetable for follow-up treatment

Oral Surgery for GPs: *Dr. Silegy's presentation focuses on topics relevant for contemporary dentistry and helping GPs know what procedures they can safely add in to their practice and when to refer out to specialists. Topics Include:* Surgical removal of the impacted 3rd molar: Maxillary and Mandibular ♦ Surgical removal of erupted molars, erupted 3rd molars and retained roots ♦ Patient assessment and planning for a continuum of treatment challenges from recession defects, extraction site management, immediate implant placement, through more complex hard and soft tissue defects ♦ Case studies and video demonstrating connective tissue grafting with closed harvest from the palate and tuberosity, as well as, management of combined bone and soft tissue defects.

OSHA, Infection Control and the CA Dental Practice Act: This course will not only entertain you and your staff but will enable attendees to meet license renewal requirements and state and federal requirements for OSHA Bloodborne Pathogen training, the California Dental Practice Act and Infection Control.

The Latest Restorative Trends: *Modern dentistry is ever changing with new materials and techniques. Long held beliefs may not always be accurate and it is difficult to decide which to implement. With our aging population it is also important to use age-appropriate restorative materials. His subjects will include:* review the development of dentin bonding agents and understand the challenges including post operative sensitivity, MMPs, aprismatic enamel and hydrolyzation ♦ Review the improvements in composites including pre-polymerized, glass ionomer, spherical, and nano fillers and new resin polymers ♦ Updated pulp capping protocols ♦ New products that improve patient- new tooth whitening systems, anesthesia buffering, sonically activated composite systems & resin infiltrated micro-invasive techniques ♦ Crown & bridge materials to simplify treatment ♦ Innovative smile design to predictably produce esthetic smile outcomes

Current Scientific Treatments in Endo: *This course is designed for the dental clinician who desires to stay at the forefront of the latest scientific advancements, endodontic techniques and schools of thought. Discussion will include:* NiTi metallurgy and irrigation technologies that are cutting edge and changing endodontics ♦ The Science & Physics of Instrumentation: Advances in metallurgy and file engineering that address cyclic fatigue and file separation. ♦ Efficiency with Fewer Files: Design enhancements that deliver consistent canal shapes in less time and with fewer instruments ♦ Energized Irrigation Protocols: New technologies and techniques for removing bacteria and the smear layer ♦ Obturation: State of the art, centrally condensed gutta-percha technologies vs. single-cone techniques.
