PRACTICAL, PREDICTABLE AND BEAUTIFUL DIRECT ANTERIOR AND POSTERIOR COMPOSITE RESTORATIONS INCLUDING FULL MOUTH COMPOSITE REHABILITATION

Three Day Course • Live Patient Demonstration & Workshop • 21 CE Hours

WORKSHOP OBJECTIVES:

- Learn and perform predictable techniques for class II & III composite restoration
- Learn why and how supra-gingival restorations are better and easier.
- Place highly esthetic anterior class IV & full composite veneers
- Identify and put in to practice: principle of form, texture and color necessary to perform beautiful composite restorations
- Recognize when and how to use opaquers, modifiers and tints
- Describe and perform a simple and effective finishing and polishing technique
- Learn how and when to use different matrix systems
- Perform a full mouth rehabilitation with direct composite after learning the principles and rationale.

SCHEDULE

January 14 - 16, 2016 @ The LA Institute

The logo consists of a dark brown background. A thick, yellow rope with a black outline is coiled into a rectangular shape with rounded corners, framing the central text. At the top center of the rope, there is a knot. In the center of the rope frame is a horizontal yellow oval with a white outline. Inside this oval, the words "XCEL SEMINARS" are written in a bold, black, sans-serif font.

XCEL SEMINARS

9th Annual Comprehensive Dental Skills Series

Knott's Berry Farm Resort Hotel

Nov 22, 2015: Implants in the Esthetic Zone: How to Avoid Disaster AND Make Beautiful Restorations *Dr. Mike Smilanich is nationally renowned educator on advanced reconstructive techniques and aesthetic implant rehabilitation.*

Jan. 24, 2016: Techniques and Tools Needed for Great Pediatric Dentistry & Treating Trauma Cases *Dr. Kaneta Lott is a Board Certified Pediatric Dentist who lectures nationally on Pediatric Dentistry and Dental Traumatology.*

Feb. 28: Extractions, Implant Site Development Techniques and Soft Tissue Grafting *Dr. Tim Silegy is a Diplomate of the American Board of Oral and Maxillofacial Surgery and maintains a private practice. He has published articles in the Journal of Oral and Maxillofacial Surgery, lectures internationally and was the first ever OMS to appear on ABC's hit television program Extreme Makeover.*

March 13: OSHA, Infection Control & the California Dental Practice Act *Nancy Andrews, RDH, has entertaining methods to help the dental team navigate the sea of state and federal regulations.*

April 17: Contemporary Restorative Trends: Separating Fact from Fiction *Dr. Dan Ward serves as editor of the ASDA Journal and is also is an Assistant Clinical Professor at The Ohio State University and in private practice in Columbus, Ohio.*

May 22: Current Advances in Endodontic Treatment *Dr. Matthew Chesler is an Endodontist currently practicing in the U.S. Navy. He has lectured extensively on a wide variety of Endodontic topics relevant to GPs.*

FOR ONLY \$499**

**BONUS
HANDS-ON
COURSE:
ONLY
\$229**

Dec. 20, 2015: Hands-on Intro to Extraction Sockets: From Tooth Removal to Regeneration
Dr. Kyle Stanley, is a clinical instructor at USC and has lectured internationally on dental esthetics in combination with extractions surgery and dental implants.

COURSE SERIES
SPONSORED BY:

COURSE TOPICS

Implants in the Esthetic Zone: *Dr. Smilanich will cover many implant and related topic to help GPs navigate implant cases in the esthetic zone, including:* Tooth Loss In The Anterior Maxilla ♦ Options for Replacement ♦ Implants; Heaven or Hell? ♦ Treatment Planning for Success ♦ Stages of Placement; Single Stage, Two Stage, Pros and Cons ♦ Immediate Restore; When Do We Immediate Load? ♦ Success Through Experience ♦ Impressioning, Cementation and More!

Hands-on Intro to Extraction Sockets (this course requires and additional fee) *Participants will learn how to properly evaluate and communicate patient options for tooth removal. In addition, they will learn surgical techniques with proper instrumentation, the conditions for guided bone regeneration, and material choice in the preservation and augmentation of an extraction socket site. Topics include:* Smile & Implant Provisionals and Abutment Design ♦ Management of Socket Grafts ♦ Hands-on Socket Grafting with and without a buccal plate ♦ Guided Surgery Planning and Immediate Implant Placement ♦ Basics of Guided Bone Regeneration (Horizontal Ridge Augmentation) ♦ Hands-on Guided Bone Regeneration for the deficient ridge

Pedo and Treating Trauma: *This course will explore the additional skills needed to providedental care to the pediatric patient including tried and true procedures as outlined below:* Effective use of stainless steel crowns ♦ Necessary and effective pulp therapy ♦ Benefits of bilateral and unilateral space maintainers ♦ How to successfully take an impression ♦ How to diagnose and provide treatment plans ♦ Determine appropriate X-Ray's for young patients ♦ Appropriate use of fluoride ♦ Current options for repairing anterior primary teeth ♦ Understanding of the healing process for trauma and a Step-by step evaluation approach ♦ Logical evaluation form that reviews extra and intra-oral soft tissues / facial and dental bones / periodontia and tooth structures ♦ Pre-packaged trauma supply list and a listing of the necessary radiographs, clinical tests, specialists referral list and at timetable for follow-up treatment

Oral Surgery for GPs: *Dr. Silegy's presentation focuses on topics relevant for contemporary dentistry and helping GPs know what procedures they can safely add in to their practice and when to refer out to specialists. Topics Include:* Surgical removal of the impacted 3rd molar: Maxillary and Mandibular ♦ Surgical removal of erupted molars, erupted 3rd molars and retained roots ♦ Patient assessment and planning for a continuum of treatment challenges from recession defects, extraction site management, immediate implant placement, through more complex hard and soft tissue defects ♦ Case studies and video demonstrating connective tissue grafting with closed harvest from the palate and tuberosity, as well as, management of combined bone and soft tissue defects.

OSHA, Infection Control and the CA Dental Practice Act: This course will not only entertain you and your staff but will enable attendees to meet license renewal requirements and state and federal requirements for OSHA Bloodborne Pathogen training, the California Dental Practice Act and Infection Control.

The Latest Restorative Trends: *Modern dentistry is ever changing with new materials and techniques. Long held beliefs may not always be accurate and it is difficult to decide which to implement. With our aging population it is also important to use age-appropriate restorative materials. His subjects will include:* review the development of dentin bonding agents and understand the challenges including post operative sensitivity, MMPs, aprismatic enamel and hydrolyzation ♦ Review the improvements in composites including pre-polymerized, glass ionomer, spherical, and nano fillers and new resin polymers ♦ Updated pulp capping protocols ♦ New products that improve patient- new tooth whitening systems, anesthesia buffering, sonically activated composite systems & resin infiltrated micro-invasive techniques ♦ Crown & bridge materials to simplify treatment ♦ Innovative smile design to predictably produce esthetic smile outcomes

Current Scientific Treatments in Endo: *This course is designed for the dental clinician who desires to stay at the forefront of the latest scientific advancements, endodontic techniques and schools of thought. Discussion will include:* NiTi metallurgy and irrigation technologies that are cutting edge and changing endodontics ♦ The Science & Physics of Instrumentation: Advances in metallurgy and file engineering that address cyclic fatigue and file separation. ♦ Efficiency with Fewer Files: Design enhancements that deliver consistent canal shapes in less time and with fewer instruments ♦ Energized Irrigation Protocols: New technologies and techniques for removing bacteria and the smear layer ♦ Obturation: State of the art, centrally condensed gutta-percha technologies vs. single-cone techniques.
