## COURSE TOPICS

**Restorative Success with Esthetic Composites and World Class Crown & Bridge:** *Improve your direct and indirect restorations with these gems, including:* Step-by-step techniques to create lifelike and morphologically precise direct composite restorations ♦ The use of composite tints to create characterized restorations that rival those produced in the laboratory ♦ A review of indirect restorative materials and options in dental ceramics ♦ A review of prep design and tissue management for perfect impressions ♦ Provisionalization for full coverage and veneers ♦ No prep veneers: A realistic option? ♦ Prosthetic tooth repositioning and "orthodontic" tooth preparation ♦ Minor tooth movement with Essix appliances ♦ Computerized shade matching ♦ Digital impression making ♦ Cementation protocols for provisional cementation ♦ Cementation protocols for total etch and conventional cements: Which materials for which cement ♦ Occlusal adjustment during the cementation process

**OSHA, Infection Control and the CA Dental Practice Act:** *This course will not only entertain you and your staff but will enable attendees to meet license renewal requirements and state and federal requirements for OSHA Bloodborne Pathogen training, and infection Control with Noel Kelsch. The California Dental Practice Act segment with Pat Wood will include:* basic requirements of the Dental Board, how to avoid Dental Board problems AND Present actual case studies of dentists subjected to Board discipline **PLUS a Bonus Course-The New Economics of Dentistry:** Whether you own dental practice or are an associate, this bonus segment is for you! Subjects include- Current trends in associate positions ♦ corporate vs. private practices ♦ Lease issues affecting practice ownership ♦ compensation structures ♦ proper vs. improper models ♦ reviews the differences between employee vs. independent contractor

**Updates in Pediatric Dentistry:** The course will cover modern concepts of caries management, minimally invasive dentistry, preventive care, diagnostic aids and addressing apprehensive children, all shown in different clinical cases. There is a substantial number of complicating factors that must be considered with apprehensive patients, such as, parenting, societal changes, and stage of development. The coping methods to allow for successful treatment will be presented including sedation, nitrous oxide analgesia, and treatment under general anesthesia. The course will present new concepts in restorative care, adhesion and current research into new dental materials and current technology. Pulpal therapy has undergone a number of changes with many practitioners' sadly out of date, so current methods, research and animal studies will also update the attendee to new, promising procedures in pulpal therapy.

**Prosthodontic Gems:** Treatment planning, designing and executing complex restorative and esthetic cases, especially those involving implants, dentures & fixed prosthodontics are daunting. This course will guide you step-by-step how to have success creating dentures, restoring implants and complex restorative cases, showing you many practical clinical "gems" via numerous successful and failed cases, to improve your removable and fixed prosthodontic skills.

**Hands-on Intro to Oral Surgery and Ridge Preservation (this Hands-on course on pig's jaws is not included in the 6 course series and is additional fee):** *This comprehensive program will show hands-on surgical extractions and socket grafting. Topics Include:* Gain a greater appreciation for diagnosis and assessment of tooth root anatomy and alveolar shape and form ♦ Understanding the socket anatomy based treatment algorithm ♦ Understand how to treatment plan in the best way to reach the desired outcome ♦ Learn the principles of minimally traumatic tooth extraction ♦ Gain an understanding of the biology of ridge resorption after extraction of a tooth ♦ Learn about the biofunctionality of biomaterials and its influence on extraction socket healing ♦ (HANDS-ON) Practice important techniques for minimally invasive tooth extraction plus preparing and placing biomaterials to achieve optimal ridge preservation

**Biomimetic Dentistry:** Dentistry is undergoing a paradigm shift in restoring teeth, moving away from full crowns to multi-component restorations where the clinician uses adhesive dentistry to replicate the biomechanics of the intact tooth. This movement has been termed "Biomimetic Dentistry." Dr. Cohen reviews the fundamentals of this shift and shows step-by-step, from start-to-finish how to create biomimetic treatment plans and securely bonded, fail safe restorations that avoid the downsides of full cut-down crowns.

**Revolutionary Endo:** *This seminar covers the latest research and techniques, based on Biomimetic principals of maximizing tooth structure, for having endodontic success in your practice. Dr. Salehrabi will present numerous cases to show attendees the following:* Appropriate case selection ♦ Executing accurate diagnosis methods to find the right tooth and treat it correctly ♦ Maximizing improvements in file technologies to improve outcomes and preserve tooth structure ♦ Using cutting-edge materials to mimic natural dentine and provide a range of effective treatment option in addition to standard therapies and restorations after performing root canals to maximize success

EDUCATION  
CENTER

Esthetic Professionals Dental Education Center offers ***Comprehensive Programs*** (4 or more days) that provide the dentist the most complete hands-on and clinical educational programs offered anywhere. Our ***Multi-Day Programs*** (2-3 days) provide a wide scope of information that can be put into practice immediately and confidently. Our ***One-Day Programs*** are more limited in scope. They offer an opportunity to take a specific topic that is also offered as part of our Comprehensive Programs. The topics include a broad spectrum of esthetic related topics ranging from diagnosis, esthetic communications, restorative procedures and materials.

Esthetic Professionals is now proud to announce that it has become a national distribution center for Amann Girbach, Carestream Dental, and Panadent to name a few. As leaders and users of some of the finest technology in the world, Esthetic Professionals has decided to distribute some of our favorite and most indispensable products.

# Carestream

## SERVICES

### ***Fixed Prosthodontics:***

From a simple inlay, crown or veneer to full mouth reconstructions on adjustable articulators, we can do it! Minimally invasive bridge specialist.

***Implant Services:*** Full range of cemented and screw retained restorations. Custom milled titanium abutments and porcelain fused to titanium screw retained restorations provide a cost effective alternative. Ceramometal custom abutments offer an esthetic and durable alternative.

***CAD/CAM:*** Design & Milling Center

***Provisionals:*** Custom milled PMMA

***Same Day Restorations.***

***Consultation Services:*** Let EP help you plan those difficult cases or make the appropriate material selection.

## MATERIALS

All ceramic and composite options available.

Looking for an inexpensive non-nickle alternative?

Inquire about  
Chrome/Cobalt CAD/CAM  
as an alternative.

Esthetic Professionals, located in Tarzana, California was created in 1997 by Dr. Bruce and Vicky Crispin with a singular mission to help make every dentist a better dentist. As a result, *Esthetic Professionals Dental Education Center* and *EP Dental Laboratory* were created to both educate and bridge the gap between private practice and the laboratory. At Esthetic Professionals, Dr. Crispin shares his over 40 years of prosthodontic experience along with the many experts that provide a wide range of courses.

As a leader in both dental education and the dental laboratory business, Esthetic Professionals has exposure to a broad range of materials and technologies. As a result, the *Esthetic Professionals Distribution Center* was established in 2015 to promote and distribute technologies and materials that have a proven track record at Esthetic Professionals. Our mission is to promote and distribute only what we are truly passionate about to help make the decision processes easier for the consumer.

Let Esthetic Professionals be your partner in success.
