Sal Gaytan, Director of  
The Pinhole Academy

- ✓ **33 month study (IJPRD October 2012)**
- ✓ **43 consecutive patients (16 men, 27 women)**
- ✓ **121 teeth treated**

Visit PinholeAcademy.com to view the 33 month study on The Pinhole® Surgical Technique as published in the International Journal of Periodontics & Restorative Dentistry\*.

**\*Conclusion on page 530:** "PST may be deemed a **predictable, effective, minimally invasive, and time and cost effective** alternative to FCTG techniques for obtaining optimal patient based outcomes".

***Over 1,700+ doctors trained world-wide in PST!***

***\*The Scalpel-free, Suture-free, Graft-free method is the only method taught at the PST® Seminar.***

## **Top 10 Benefits of the Pinhole procedure for patients:**

1. Can correct gum recession in as little as 1 treatment session. Long term results are documented in the International Journal of Periodontology & Restorative Dentistry. (October 2012)
2. Minimal discomfort and swelling in most cases because the method is scalpel-free, suture free and graft free.
3. Typically, only 1-2 pinholes are made in the gums per quadrant of treatment.
4. The pinholes heal in 24 hours in most cases.
5. Only 2 over-the-counter pain pills required after treatment on average per the study in the International Journal of Periodontology & Restorative Dentistry. (October 2012)
6. Can prevent tooth loss and the need for other costly procedures such as implants or dentures.
7. Treatment sessions can be completed in as little as 1-2 hours in many cases.
8. Can enhance a more youthful and attractive appearance.
9. It is not unusual for patients to describe feeling happier due to being able to smile proudly without the shame or guilt associated with an ugly smile.
10. Most patients are back to work and normal light activities within 24-48 hours.

## COURSE TOPICS

**OSHA, Infection Control and the CA Dental Practice Act:** *This course will not only entertain you and your staff but will enable attendees to meet license renewal requirements and state and federal requirements for OSHA Bloodborne Pathogen training, and infection Control with Noel Kelsch. The California Dental Practice Act segment with Pat Wood will include:* basic requirements of the Dental Board, how to avoid Dental Board problems AND Present actual case studies of dentists subjected to Board discipline **PLUS a Bonus Course-The New Economics of Dentistry:** Whether you own dental practice or are an associate, this bonus segment is for you! Subjects include- Current trends in associate positions ♦ corporate vs. private practices ♦ Lease issues affecting practice ownership ♦ compensation structures ♦ proper vs. improper models ♦ reviews the differences between employee vs. independent contractor

**Updates in Pediatric Dentistry:** The course will cover modern concepts of caries management, minimally invasive dentistry, preventive care, diagnostic aids and addressing apprehensive children, all shown in different clinical cases. There is a substantial number of complicating factors that must be considered with apprehensive patients, such as, parenting, societal changes, and stage of development. The coping methods to allow for successful treatment will be presented including sedation, nitrous oxide analgesia, and treatment under general anesthesia. The course will present new concepts in restorative care, adhesion and current research into new dental materials and current technology. Pulpal therapy has undergone a number of changes with many practitioners' sadly out of date, so current methods, research and animal studies will also update the attendee to new, promising procedures in pulpal therapy.

**Prosthodontic Gems:** Treatment planning, designing and executing complex restorative and esthetic cases, especially those involving implants, dentures & fixed prosthodontics are daunting. This course will guide you step-by-step how to have success creating dentures, restoring implants and complex restorative cases, showing you many practical clinical "gems" via numerous successful and failed cases, to improve your removable and fixed prosthodontic skills.

**Hands-on Intro to Oral Surgery and Ridge Preservation (this Hands-on course on pig's jaws is not included in the 6 course series and is additional fee):** *This comprehensive program will show hands-on surgical extractions and socket grafting.*

**Topics Include:** Gain a greater appreciation for diagnosis and assessment of tooth root anatomy and alveolar shape and form ♦ Understanding the socket anatomy based treatment algorithm ♦ Understand how to treatment plan in the best way to reach the desired outcome ♦ Learn the principles of minimally traumatic tooth extraction ♦ Gain an understanding of the biology of ridge resorption after extraction of a tooth ♦ Learn about the biofunctionality of biomaterials and its influence on extraction socket healing ♦ (HANDS-ON) Practice important techniques for minimally invasive tooth extraction plus preparing and placing biomaterials to achieve optimal ridge preservation

**Biomimetic Dentistry:** Dentistry is undergoing a paradigm shift in restoring teeth, moving away from full crowns to multi-component restorations where the clinician uses adhesive dentistry to replicate the biomechanics of the intact tooth. This movement has been termed "Biomimetic Dentistry." Dr. Cohen reviews the fundamentals of this shift and shows step-by-step, from start-to-finish how to create biomimetic treatment plans and securely bonded, fail safe restorations that avoid the downsides of full cut-down crowns.

**Revolutionary Endo:** *This seminar covers the latest research and techniques, based on Biomimetic principals of maximizing tooth structure, for having endodontic success in your practice. Dr. Salehrabi will present numerous cases to show attendees the following:* Appropriate case selection ♦ Executing accurate diagnosis methods to find the right tooth and treat it correctly ♦ Maximizing improvements in file technologies to improve outcomes and preserve tooth structure ♦ Using cutting-edge materials to mimic natural dentine and provide a range of effective treatment option in addition to standard therapies and restorations after performing root canals to maximize success
