

The logo features the text "XCEL SEMINARS" in a bold, black, sans-serif font, centered within a yellow oval. This oval is surrounded by a thick, yellow rope that forms a rectangular border with rounded corners. The rope has a detailed braided texture and is set against a solid brown background.

# **XCEL SEMINARS**

# 11th Annual Comprehensive Dental Skills Series

Knott's Berry Farm Resort Hotel

**March 12, 2017: OSHA, Infection Control & the California Dental Practice Act PLUS New Economics of Dentistry!** *Noel Brandon-Kelsch, RDH, uses her unique humor and cutting edge information to present tough subject matter in an interesting way. She is the infection control columnist for RDH magazine, a syndicated newspaper columnist and has been featured on Disney Radio & ESPN. Pat Wood, Partner at Wood & Delgado is an expert on the Dental Practice Act and Dental Transitions.*

**April 7 (in LA) or April 9 (in OC): Hands-on Oral Surgery & Setting the Stage for Optimal Ridge Preservation** *Dr. Ron Wang has received extensive training in oral and periodontal surgery, implants and fixed prosthetics.*

**April 30: Providing Optimal Care Using Tooth Structure- A Lecture on Minimally Invasive Advanced Adhesion Dentistry** *Dr. Richard Young is an Associate Professor at Loma Linda University. He lectures on advanced minimally invasive, tooth preserving or "Biomimetic" dentistry.*

**May 21: Esthetic Pediatric Dentistry & Treating Trauma** *Dr. Mark Cannon is Pedodontic Diplomate and Professor at Northwestern University who has worked on the cutting edge of learning and teaching the newest and best dental care for children*

**June 25: Revolutionary Endo-Using Biomimetic Principles to Preserve & Save More Teeth** *Dr. Robert Salehrabi is back by popular demand for this brand new topic! He maintains a private practice, is an Associate Professor of Clinical Endodontics at USC and a recommended speaker of the American Association of Endodontists.*

**Friday, April 7: at Courtyard Los Angeles/Sherman Oaks, 15433 Ventura Blvd, Sherman Oaks, CA 91403**  
**All Other Courses: Knott's Berry Farm Resort Hotel, 7675 Crescent Ave, Buena Park, CA**  
(Beach Blvd. exit of the 5, 405 & 91 Fwys)

**ALL COURSES ARE ON SUNDAYS (8AM-4PM) AND 7 CA CEs EACH**  
**\$149 EACH LECTURE, \$349 FOR THE 4/7 OR 4/9**  
**HANDS-ON ORAL SURGERY COURSE OR**  
**THE ENTIRE 5 COURSE SERIES**  
**(35 CA & AGD CEs) FOR ONLY \$599!**

## COURSE TOPICS

**OSHA, Infection Control and the CA Dental Practice Act:** *This course will not only entertain you and your staff but will enable attendees to meet license renewal requirements and state and federal requirements for OSHA Bloodborne Pathogen training, and infection Control with Noel Kelsch. The California Dental Practice Act segment with Pat Wood will include:* basic requirements of the Dental Board, how to avoid Dental Board problems AND Present actual case studies of dentists subjected to Board discipline **PLUS he will present a Bonus Course - New Economics of Dentistry:** *Whether you own or plan to own a dental practice, this bonus segment is for you! Subjects include* ♦ current trends in associate positions ♦ corporate vs. private practices ♦ Lease issues affecting practice ownership ♦ dissecting the Associate Position ♦ compensation structures ♦ proper vs. improper models ♦ reviews the differences between employee vs. independent contractor

**Hands-on Intro to Oral Surgery and Ridge Preservation (this course on pig's jaws is included in the course series):** *This comprehensive program will show hands-on surgical extractions and socket grafting. Topics Include:* Gain a greater appreciation for diagnosis and assessment of tooth root anatomy and alveolar shape and form ♦ Understanding the socket anatomy based treatment algorithm ♦ Understand how to treatment plan in the best way to reach the desired outcome ♦ Learn the principles of minimally traumatic tooth extraction ♦ Gain an understanding of the biology of ridge resorption after extraction of a tooth ♦ Learn about the biofunctionality of biomaterials and its influence on extraction socket healing ♦ (HANDS-ON) Practice important techniques for minimally invasive tooth extraction plus preparing and placing biomaterials to achieve optimal ridge preservation

**Minimally Invasive, Biomimetic Dentistry:** *In the last 25 years, materials & techniques have improved dramatically yet they are not being used in most dental practices. This course teaches, via step-by-step with clinical images & videos, how to simply perform advanced adhesion techniques (which are backed by published science) on a daily basis, while eliminating post-op pain & increasing restoration longevity. Topics include:* IDS (Immediate Dentin Sealing)- "THE most important advancement in adhesion dentistry" that increases direct restorations dentin bond strengths by 80% and quadruples indirect restorations dentin bond strengths ♦ Creating low stress, high bond strength composites-Hint: it's all in how you place it ♦ Repairing anterior pediatric trauma ♦ Preserve & repair geriatric dentition ♦ New, simple and durable technique for desensitizing - How to identify, treat & bond dentin cracks

**Esthetic Pediatric Dentistry & Treating Trauma:** This presentation will discuss all aspects of Esthetic Pediatric Dentistry for the demanding patient and parent! Specifically; anterior and posterior composites, esthetic crowns (zirconium and IPS e.max), tissue regeneration, laser therapy, preventive and interceptive orthodontics, esthetic space maintainers, and, of course, behavior management. Dr. Cannon will also provide a comprehensive review of preventive dentistry, using the latest in probiotic therapy and the latest in microbiome research.

**Revolutionary Endo:** *This seminar covers the latest research and techniques, based on Biomimetic principals of maximizing tooth structure, for having endodontic success in your practice. Dr. Salehrabi will show numerous cases to teach the following:* Appropriate case selection ♦ Executing wholistic diagnosis methods to find the right tooth and treat it correctly ♦ Maximizing improvements in file technologies to improve outcomes and preserve tooth structure ♦ Using cutting-edge materials to biomimetically mimic natural dentine and provide a range of effective treatment option in addition to standard root canals and restorations after performing root canals to maximize success.

TUITION	5 COURSES	EACH INDIVIDUAL COURSE
More than 14 days before an event	Dentist: \$599 , Staff: \$349	Lectures - Dentist: \$149, Staff: \$119 4/7 or 4/9 Hands-on Intro to Oral Surgery: \$349
