

The logo features the text "XCEL SEMINARS" in a bold, black, sans-serif font, centered within a yellow oval. This oval is framed by a thick, yellow rope with a black outline, which is coiled into a rectangular shape with rounded corners. The rope has frayed ends at the top. The entire design is set against a solid brown background.

XCEL SEMINARS

COURSE TOPICS

OSHA, Infection Control and the CA Dental Practice Act: *This course will not only entertain you and your staff but will enable attendees to meet license renewal requirements and state and federal requirements for OSHA Bloodborne Pathogen training, and infection Control with Dr. Carpenter. The California Dental Practice Act segment will include:* Basic requirements of the Dental Board, how to avoid Dental Board problems AND Present actual case studies of dentists subjected to Board discipline. **PLUS a Bonus Course-The New Economics of Dentistry:** *Whether you own dental practice or are an associate, this bonus segment is for you! Subjects include* - Current trends in associate positions ♦ corporate vs. private practices ♦ Lease issues affecting practice ownership ♦ dissecting the Associate Position ♦ compensation structures ♦ proper vs. improper models ♦ reviews the differences between employee vs. independent contractor

Hands-on Intro to Oral Surgery and Ridge Preservation (this course on surgical models is included in the course series): *This comprehensive program will show hands-on surgical extractions and socket grafting. Topics Include:* Gain a greater appreciation for diagnosis and assessment of tooth root anatomy and alveolar shape and form ♦ Understanding the socket anatomy based treatment algorithm ♦ Understand how to treatment plan in the best way to reach the desired outcome ♦ Learn the principles of minimally traumatic tooth extraction ♦ Gain an understanding of the biology of ridge resorption after extraction of a tooth ♦ Learn about the biofunctionality of biomaterials and its influence on extraction socket healing ♦ **(HANDS-ON)** Practice important techniques for minimally invasive tooth extraction plus preparing and placing biomaterials to achieve optimal ridge preservation

Comprehensive Review of Pediatric Dentistry: *This class is meant to make seeing children easier and more enjoyable for your staff. Topics include:* Pediatric oral pathology its treatment and prevention ♦ Prevention and factors contributing to caries ♦ Eruption problems and proper treatment Latest indications and the steps for a pulpotomy vs Indirect Pulp Cap ♦ Dental trauma and its treatment follow up protocol ♦ Slot Preps and latest types of accepted dental materials in primary and permanent teeth ♦ The final topic will review and discuss the contemporary concepts in the biology, management, treatment, and prevention of traumatic injuries

Digital Dentistry: Treatment planning, designing and executing complex restorative and esthetic cases, especially those involving implants and fixed prosthodontics are daunting. Digital dental workflows have made this process more efficient and rewarding. We will discuss the rise in success that dentists and laboratories are experiencing with digital methods. This course will guide you step-by-step how to have success creating and restoring single units, implants and complex restorative cases digitally, showing you many practical clinical "gems" via numerous successful and failed cases, to improve your removable and fixed prosthodontic skills. This course will also briefly touch upon digital dentures.
