COURSE TOPICS

Biomimetic Dentistry: Dentistry is undergoing a paradigm shift in restoring teeth, moving away from full crowns to multi-component restorations where the clinician uses adhesive dentistry to replicate the biomechanics of the intact tooth. This movement has been termed "Biomimetic Dentistry." Dr. Cohen reviews the fundamentals of this shift and shows step-by-step, from start-to-finish how to create biomimetic treatment plans and securely bonded, fail safe restorations that avoid the downsides of full cut-down crowns.

Implementing a Successful Sleep Apnea Program in your Practice (8AM-5PM and 8CE Units): This seminar will outline the devastating effects of sleep apnea and how dentists are part of the solution. Learn screening, testing, and treatment techniques to maximize the value of services you provide to your patients. We will also walk through some of the challenges faced when implementing a sleep program into your practice and discuss the intricacies of medical billing and keeping your team engaged.

OSHA, Infection Control and the CA Dental Practice Act: This course will not only entertain you and your staff but will enable attendees to meet license renewal requirements and state and federal requirements for OSHA Bloodborne Pathogen training, and infection Control with Noel Kelsch. The California Dental Practice Act segment will include: Basic requirements of the Dental Board, how to avoid Dental Board problems AND Present actual case studies of dentists subjected to Board discipline. **PLUS a Bonus Course-How to Grow, Manage and Protect Your Practice:** Whether you own dental practice or are an associate, this bonus segment is for you!

Comprehensive Review of Pediatric Dentistry: *This class is meant to make seeing children easier and more enjoyable for your staff. Topics include:* Pediatric oral pathology its treatment and prevention ♦ Prevention and factors contributing to caries ♦ Eruption problems and proper treatment Latest indications and the steps for a pulpotomy vs Indirect Pulp Cap ♦ Dental trauma and its treatment follow up protocol ♦ Slot Preps and latest types of accepted dental materials in primary and permanent teeth ♦ The final topic will review and discuss the contemporary concepts in the biology, management, treatment, and prevention of traumatic injuries
