

The logo features the text "XCEL SEMINARS" in a bold, black, sans-serif font, centered within a yellow oval. This oval is surrounded by a thick, yellow rope that forms a rectangular border with rounded corners. The rope has a detailed braided texture and is set against a solid brown background.

XCEL SEMINARS

14th Annual Comprehensive Dental Skills Series

Knott's Berry Farm Resort Hotel

Oct. 21, 2018: **OSHA, Infection Control & the California Dental Practice Act PLUS How to Grow Manage & Protect your Practice** . *Pat Wood, Partner at Wood & Delgado is an expert on the Dental Practice Act and Dental Transitions. Carrie Ibbetson, RDH, uses her unique humor and cutting edge information to present tough subject matter in an interesting way.*

Nov. 4: **Hands-on Oral Surgery & Setting the Stage for Optimal Ridge Preservation**
Dr. Ron Wang has received extensive training in oral and periodontal surgery, implants and fixed prosthetics.

Dec. 2: **Revolutionary Endo-Using Biomimetic Principles to Preserve & Save More Teeth**
Dr. Robert Salehrabi is back by popular demand for this brand new topic! He maintains a private practice, is an Associate Professor of Clinical Endodontics at USC and a recommended speaker of the American Association of Endodontists.

Dec. 16: **Digital Dentistry for Impressioning, Workflow and Treatment Planning Implant Cases** *Dr. Chad Duplantis is a renowned author and lecturer about "high-tech" dentistry.*

Jan. 20, 2019: **Clinical Treatment Planning and Problem Solving – When It Doesn't Go By the Book** *Dr. Bob Lowe has authored numerous articles, contributions to textbooks and is consistently named a "Top 100 Clinician in Dentistry."*

Feb. 24: **Clarifying the Confusion: Ceramics, Cementing & Bonding** *Dr. Troy Schmedding is one of only hundreds of dentists, world wide accredited from the American Academy of Cosmetic Dentistry. He also maintains Diplomate status with the American Board of Cosmetic and Esthetic Dentistry and is a sought after restorative lecturer.*

Knott's Berry Farm Resort Hotel, 7675 Crescent Ave, Buena Park, CA
(Beach Blvd. exit of the 5, 405 & 91 Fwys)

ALL COURSES ARE ON SUNDAYS (8AM-4PM) AND 7 CA CEs EACH
\$149 PER LECTURE, \$399 FOR THE HANDS-ON
ORAL SURGERY OR THE ENTIRE 6 COURSE SERIES
(42 CA & AGD CES) FOR ONLY \$649!

COURSE TOPICS

OSHA, Infection Control and the CA Dental Practice Act: This course will not only entertain you and your staff but will enable attendees to meet license renewal requirements and state and federal requirements for OSHA Bloodborne Pathogen training, and infection Control with Carrie Ibbetson. The California Dental Practice Act segment will include: Basic requirements of the Dental Board, how to avoid Dental Board problems AND Present actual case studies of dentists subjected to Board discipline. PLUS a Bonus Course-How to Grow, Manage and Protect Your Practice: Whether you own dental practice or are an associate, this bonus segment is for you!

Hands-on Intro to Oral Surgery and Ridge Preservation (this course on surgical models is included in the course series): *This comprehensive program will show hands-on surgical extractions and socket grafting. Topics Include:* Gain a greater appreciation for diagnosis and assessment of tooth root anatomy and alveolar shape and form ♦ Understanding the socket anatomy based treatment algorithm ♦ Understand how to treatment plan in the best way to reach the desired outcome ♦ Learn the principles of minimally traumatic tooth extraction ♦ Gain an understanding of the biology of ridge resorption after extraction of a tooth ♦ Learn about the biofunctionality of biomaterials and its influence on extraction socket healing ♦ (HANDS-ON) Practice important techniques for minimally invasive tooth extraction plus preparing and placing biomaterials to achieve optimal ridge preservation

Revolutionary Endo: *This seminar covers the latest research and techniques, based on Biomimetic principals of maximizing tooth structure, for having endodontic success in your practice. Dr. Salehrabi will show numerous cases to teach the following:* Appropriate case selection ♦ Executing wholistic diagnosis methods to find the right tooth and treat it correctly ♦ Maximizing improvements in file technologies to improve outcomes and preserve tooth structure ♦ Using cutting-edge materials to biomimetically mimic natural dentine, providing a range of effective treatment options in addition to standard root canals and restorations after performing root canals.

Digital Dentistry: Treatment planning, designing and executing complex restorative and esthetic cases, especially those involving implants and fixed prosthodontics are daunting. Digital dental workflows have made this process more efficient and rewarding. We will discuss the rise in success that dentists and laboratories are experiencing with digital methods. This course will guide you step-by-step how to have success creating and restoring single units, implants and complex restorative cases digitally, showing you many practical clinical "gems" via numerous successful and failed cases, to improve your removable and fixed prosthodontic skills. This course will also briefly touch upon digital dentures.

Clinical Treatment Planning and Problem Solving: *Dr. Lowe will discuss creative ways to handle situations "that don't necessarily follow the textbook", to save time AND money, let alone avert a clinical failure! Topics include:* Treatment options for complex cases: Do you have a "Plan B"? Can you think "outside the box" for solutions to not only be a "textbook" treatment planner? ♦ Materials options for restorative dentistry: Choosing the best materials based on clinical circumstances (being the doctor!) ♦ Multidisciplinary Treatment Planning: The Periodontal Restorative Connection and the Importance of a "Solid Foundation." ♦ No Prep Veneers: Manufacturer "hype" or realistic clinical option? How new dental materials can make this a more realistic approach for some cases. ♦ Instant Orthodontics: Viable treatment option or "quick fix cop out" revisited - prosthetic tooth repositioning for aesthetics and function limitations and long-term results ♦ Creative Treatment Planning and Execution.... It's all in the details and it's all about the options! Case reviews that "don't necessarily fit" classic treatment protocols ♦ Can orthognathic surgery and orthodontics be done with only crown and bridge??

Clarifying the Confusion in Adhesion Dentistry: *This course will present advanced adhesion techniques and materials supported by important key research that minimize the removal of healthy tissue and maximize bond strengths, including:* Immediate dentin sealing: the most important advancement in adhesion dentistry and why it dramatically increases dentin bond strengths for direct and indirect restorations ♦ A minimally invasive approach to tooth preparation ♦ How to elevate deep margins with direct composite ♦ How adhesive materials react to and interact with natural tooth structure ♦ Temporization of minimally prepared teeth ♦ How to treat cracks in dentin

TUITION	6 COURSE SERIES	EACH INDIVIDUAL COURSE
More than 14 days before an event	Dentist: \$649, Staff: \$299 Includes Hands-on Oral Surgery	Lecture Dentist: \$149, Staff: \$129 \$399 for Hands-on Oral Surgery course
Less than 14 days before an event	Dentist: \$669, Staff: \$319 Includes Hands-on Oral Surgery	Lecture Dentist: \$169, Staff: \$149 \$419 for Hands-on Oral Surgery course

Fees include continental breakfast, CE credits and free hotel parking. Registration is at 7:30am, courses are 8am-3:30pm. It is an extra \$20 fee for all onsite and walk-in registrations.
