COURSE TOPICS

Hands-on Minimally Invasive Bioceramic Dentistry (included in the series): This course will explore the characteristics of biomimetic, minimally invasive treatment options and how they can be incorporated into daily practice. Clinical cases where deep caries or pulp exposures could be predictably treated without the need for endodontic treatment will be presented. Attendees will learn how to repair teeth and lessen sensitivity, use bioactive materials to strengthen teeth and reduce restorative failure and how to protect and prolong pulp vitality. A hands-on segment is included, giving you a chance to work with innovative products backed by scientific research with, excellent outcomes.

Advances in Caries Removal: *Dentistry is shifting the caries treatment paradigm by treating them as a disease. This presentation will help you use new tools such as the ADA Caries Classification System, silver diamine fluoride (SDF), partial caries removal, and glass ionomer cement (GIC) to managing caries, including:* Developing evidence-based treatment options based on individual risk factors ♦ Using the ADA CCS to determine nonsurgical and surgical approaches ♦ Demonstrate how to use SDF and GIC to treat caries

Intro to Dental Sleep Medicine (8 CE Units): *This course is intended to provide a comprehensive overview of diagnosis and treatment of sleep apnea cases for dentists interested in adding this growth area to their practices. Dr. Veis will cover all aspects diagnosis and the sleep study, deciding which appliances to use for treatment, measuring and fitting the appliances, interacting with the fabricating lab, and how to manage the billings to medical insurance, including:* Introduction to sleep stages, disorders and why there is a need for treatment? ♦ Sleep apnea signs/symptoms/clinical issues and treating sleep apnea via dental appliance protocol review ♦ Services to do and read sleep tests ♦ Overview of Appliances - pro's and con's of all of the major sleep appliances ♦ Model analysis, mixed dentition and how to take construction bites for making certain appliances ♦ Group work on an actual case and diagnosing appliance ♦ Services to fully take care of the medical billing for these services
