The logo features the text "XCEL SEMINARS" in a bold, black, sans-serif font, centered within a yellow oval. This oval is surrounded by a thick, yellow rope that forms a rectangular border with rounded corners. The rope has a detailed braided texture and is set against a solid brown background.

XCEL SEMINARS

16th Annual Comprehensive Dental Skills Series

Four Points Sheraton San Jose

April 28, 2019: Dental Pharmacology (including Opioids & Addiction training, mandated by a number of state dental boards) *Dr. Patrick Quaranta is back by popular demand for a new subject (even if you have taken his previous courses you do NOT want to miss this one)! He is a former professor of Oral Medicine at UMDNJ-New Jersey Dental School.*

June 2: Morphology and Occlusion: The Integral Link to Successful Restorative Dentistry *Dr. Bob Lowe has authored numerous articles, contributions to textbooks and is consistently named a "Top 100 Clinician in Dentistry."*

June 30: The Indirect Restorative Solution: A Strategic Guideline from Preparation to Final Seat, *Dr. Sam Simos was a clinical instructor at the Las Vegas Institute and lectures extensively on cosmetic dentistry.*

Aug. 18: Trends in Minimally Invasive Pediatric Dentistry *Dr. Jeanette MacLean is a Diplomate of the American Board of Pediatric Dentistry, a recommended speaker of the American Academy of Pediatric Dentistry's Speakers Bureau, internationally recommended as an expert and advocate for silver diamine fluoride (SDF) and minimally invasive dentistry.*

Sep. 15: Simplified Dentures & Mini-Implants. *Dr. Raymond Choi was an Associate Professor at USC, a Fellow of the ICOI, an Associate Fellow of the AAID. He founded the Global Mini Implant Institute in 2007 so he could help other dentists offer these revolutionary treatments.*

Oct. 6: OSHA, Infection Control & the California Dental Practice Act PLUS Using Cutting Edge CAMBRA Protocols to Build Your Practice! *Carrie Ibbetson, RDH, uses her unique humor and cutting edge information to present tough subject matter in an interesting way.*

Four Points Sheraton San Jose 1471 N 4th St, San Jose, CA 95112 (408) 452-0200
(Minutes from 680 & 101 Fwys)

ALL COURSES ARE ON SUNDAYS & 7 CA & AGD CEs EACH

**\$175 FOR EACH LECTURE OR
THE ENTIRE 6 COURSE SERIES
(42 CA & AGD CEs) FOR ONLY \$549**

**BONUS
HANDS-ON
COURSE:
ONLY
\$299**

July 21: Hands-on Oral Surgery & Setting the Stage for Optimal Ridge Preservation
Dr. Ron Wang has received extensive training in oral and periodontal surgery, implants and fixed prosthetics.

COURSE SERIES
SPONSORED BY:

COURSE TOPICS

Dental Pharmacology, Opioids & Addiction: *Covering Use, overuse and underuse of drugs in dentistry, "off label" use of drugs and opioids, including:* Antifungal medications ♦ Antiviral drugs ♦ The full team of narcotic analgesics (opioids) and anxiolytic drugs relevant to dentistry, including, in detail, the pharmacology of these drugs including mechanism of action and analgesic ceiling effect, Side effects, and contraindications ♦ Delineating the DEA scheduling and prescribing of controlled substances and legal prescribing rules ♦ Completely and thoroughly address the abuse potential of these drugs and the implications in this regard for our patients & staff members.

Morphology and Occlusion: *Every restoration placed has the potential to alter the occlusal relationship of the patients' dentition. Thus, understanding, visualizing, and reproducing proper dentate morphology following occlusal concepts regardless of the material used is the key to long-lasting dental restoration. In this lecture, Dr. Lowe will review in detail morphology and occlusion techniques and principles to produce "world class" restorations, including:* Reproducing nature's functional and aesthetic contours – A basis of occlusal understanding. ♦ The importance of "linguovision" in understanding occlusion. ♦ The "ABC" Porkorny Construct of Occlusal Contact: What do those "little dots" mean? ♦ Occlusal Adjustment or "Spheroiding": Maintaining morphologic shape and form when performing occlusal adjustment. ♦ The Art and Science of Provisionalization: A biologic and occlusal prototype for definitive reconstruction. ♦ Tissue Management During Master Impressions: "Tissue Mirrors Technique!" ♦ Definitive cementation protocols for conventional, bioactive, and resin cements: Occlusal adjustment during the cementation process. ♦ Combined Therapy and "Perio-by-the-Numbers: The perioprosthesis connection to restorative dentistry. ♦ Creative Treatment Options: Abstracting Reality! Solutions to aesthetic and functional dental problems you probably have not considered.

OSHA, Infection Control and the CA Dental Practice Act: *This course will not only entertain you and your staff but will enable attendees to meet license renewal requirements and state and federal requirements for OSHA Bloodborne Pathogen training, and infection Control with Carrie Ibbetson. The California Dental Practice Act segment will include:* Basic requirements of the Dental Board, how to avoid Dental Board problems AND Present actual case studies of dentists subjected to Board discipline. **PLUS a Bonus Course-Using Cutting Edge CAMBRA Protocols to Build Your Practice!**

Hands-on Intro to Oral Surgery and Ridge Preservation (this course on surgical models is NOT included in the course series): *This comprehensive program will show hands-on surgical extractions and socket grafting. Topics Include:* Gain a greater appreciation for diagnosis and assessment of tooth root anatomy and alveolar shape and form ♦ Understanding the socket anatomy based treatment algorithm ♦ Understand how to treatment plan in the best way to reach the desired outcome ♦ Learn the principles of minimally traumatic tooth extraction ♦ Gain an understanding of the biology of ridge resorption after extraction of a tooth ♦ Learn about the biofunctionality of biomaterials and its influence on extraction socket healing ♦ (HANDS-ON) Practice important techniques for minimally invasive tooth extraction plus preparing and placing biomaterials to achieve optimal ridge preservation

Minimally Invasive Pedo: Learn how to restore cavities in a quick, effective, and painless way using Glass Ionomer Cement, stainless steel crowns, and SDF, known as Silver Modified Atraumatic Restorative Treatment (SMART) and the Hall Technique. Find out how offering minimally-invasive options like SDF, SMART, and Hall crowns can attract new patients, improve patient satisfaction, and increase internal marketing and word of mouth referrals to your practice. As an advocate for minimally invasive dentistry, she teaches three simple and painless options to manage enamel defects. MI Paste, ICON Resin Infiltration, and etch/bleach seal can improve or even completely reverse the appearance of congenital enamel defects and white spot lesions while preserving tooth structure and repairing the patient's natural enamel.

Simplified Dentures and Mini Dental Implants: *As the demand for implant overdentures grows, it is more important than ever that general dentists become proficient in complete denture concepts and techniques. Dentists who can offer high quality implants and denture services in less time, in less traumatic fashion and at a reasonable cost will be better positioned to grow their practice. Topics include:* Predictable and time-tested mini implant protocols for complete denture stabilization ♦ Case selection and case planning ♦ Simplified and practical denture concepts and techniques, easily incorporated into any practice ♦ New workflow that combines traditional procedures with digital tools for faster, better and more affordable denture fabrication

TUITION	6 COURSE SERIES	EACH INDIVIDUAL COURSE
