Over 140 5-star Avvo[®] reviews!

I asked for a full review of a potential buy in with another Oral Surgeon. Robert was so in depth with his review, he ended up finding potential loopholes that put me at risk and also an extensive look at the surgeons history which was not known to me. Needless to say what seemed like a great opportunity, could have turned into a potential nightmare for myself had it not been for his excellent advice. Not only was Robert's fees very reasonable, but saved me potentially years of heartache and countless dollars in the long term. For dental practice concerns Mr. Olson knows the business inside and out.

Cecilia Chen came very highly recommended for her legal services. Immediately, it was clear that she was deserving of the referral. She quickly laid out what was required for my practice transition and clearly communicated her reasonable fees. She was a wonderful advocate in dealing with the other party, going above and beyond to look out for my best interest. She was always quick to respond and my transaction was completed in a timely manner. I have already referred Cecilia to a colleague and will continue to do so in the future.

"A definite must take class for any dentist to further your career. You will learn a lot."

-Kevin Chou DDS, general dentist, Bakersfield.

Dear Dr. Periklis Proussaefs, Thank you for the wonderful course. I was doing conscious sedation for many years and took several renewal courses. Yours was indubitably the best. Very informative. Extremely to the point. Clear and very captivating. I learned a lot this Sunday and started work on Monday refreshed, energetic, and eager to use all my new knowledge. I strongly recommend this course to doctors who are willing to introduce sedation to their practice or the ones who need renewal. Thank you.

Anna Durkin DDS, general dentist, San Marcos, CA

"An oral sedation course that is practical. The difference between this course and any other course I have seen is the instructor is a true clinician that performs dentistry and surgery every day. His course is very practical, safe, and predictable way of performing oral sedation. Thank you Dr. Proussaefs, I finally feel comfortable performing oral sedation as a general dentist."

“

I just purchased a dental office and had the good fortune of having Sean as my legal counsel. He is extremely knowledgeable and patient, which was important as I was a first time buyer. Sean went out of his way to help me out. He was always responsive and returned my calls and emails quickly. He spent considerable time counseling me and negotiating on my behalf. Sean is anyone's best choice as legal counsel in practice sales transitions. I would not hesitate working with him in the future or recommending him to my friends and colleagues.

I believe Dr. Maddox is the best lawyer! I've been working with him for more than 10 years. He is very reliable, quick and honest. I believe that he is the best in his profession because he has extensive knowledge regarding both the law and dental aspects of the transactions, which means he can understand the reality of what you are going through. He always looks out for the best interest of his clients. He will defend and protect you like no other.

Hendrick Gonzalez, DDS - 9/25/18

I have used Lee's advice over the last 30 years, starting with reviewing my multiple office leases, associate agreements and finally with establishing a successful partnership agreement. Lee's advice is always fair and I respect his view of creating a "win-win" formula. I have and will continue to recommend his professional advice to all my dental colleagues!

ASK THE BROKER

How do you determine the listing price of my practice?

The single-most important factor in determining the practice sales price is the collection total of the previous calendar year. Lenders and Buyers like to see stability without large variances from year to year. It should be obvious that steady, slight increases in revenues are always better than even the slightest of decreases. Poor performance of one of three years should not affect pricing, unless it is the last calendar year that shows a significant drop. Therefore, try to maintain a stable practice, make sure you finish strong and make all your December deposits for that last year you will be filing!

Practices are priced based heavily on gross receipts. Let's work through some scenarios and options. If you plan to practice 2-3 more years, it is not worth investing extra money in the practice. In this case, I would just advise finishing strong, especially to reflect your last tax return which will be filed. If you plan to practice approximately 5 years, spending large amounts of money for new technology may not necessarily return the investment unless it helps to increase your production. However, this being said, purchasing new equipment may increase your enjoyment of practicing dentistry and therefore be a worthwhile investment.

With 8–10 years remaining to practice, modernizing the practice with the latest and greatest is generally a great idea. Leasehold improvements typically last 5-8 years, so making the investment at this time to spruce up the office will enhance the desirability of the sale. It may also give you greater satisfaction of working in a first-rate environment for the entire duration of the leasehold improvements. **Most importantly, since practice values are based on gross receipts, keep up the good work!**

With factors affecting the current practice market such as a large number of "Baby Boomers" choosing to retire coupled with a lower percentages of Millennials wanting to own dental practices, it is important to make decisions now that will help your practice stand out from the rest when you decide to sell! Call or email us today for a free copy of Dr Giroux's book ***"Top Ten Issues for Dentists Contemplating Retirement in Ten Years or Less"***.

*"I have worked with Fazel from the very beginning of my first dental practice search when I literally knew NOTHING on how and where to start. He not only guided me on my journey, he taught me EVERYTHING I needed to know to evaluate office statistics, financials, and steps involved in practice acquisition. **Having Fazel on my team was honestly the best decision I made in my professional career.** His genuine and humble nature and expertise in the dental field is sometimes difficult to find in today's dental industry. Fortunately, with him by my side, we were able to find a great practice with tremendous potential to grow. I look forward to continue our journey together to strive for practice and professional success."* Dr. K. DDS

*"Working with Fazel has been a great experience for me-- he's simplified the process of practice acquisition and made the whole procedure much less daunting! **Buying a practice is a huge investment,** it pays to have someone like Fazel on your side!- Dr. C. DMD"*

*I started looking to buy a practice just before getting to know Fazel and I was very confused, didn't know where to start and what to look for. Fazel told me it's going to take 2-3 months to find a practice that is suitable for me. We talked and he got the idea of a suitable practice for me. I travelled to Southern California to meet with him. After having the informative sessions with Fazel, I was very confident and knew exactly what to do. I had an action plan in hand and a good support to rely on. I started looking just at the broker's descriptions and I was crystal clear to go and see the office or not even bother to see it. In 2 months, I chose three offices, I talked to Fazel, picked 2 out of 3, visited the 2 and bought one. I am not saying that I didn't get lucky to find the place that I liked but I am saying to have him by my side, was like having a full time support. He is very caring, very knowledgeable, and very attentive and really more than an advisor, he is a good friend. Buying a practice, especially for the first time is challenging, with Fazel and his knowledge, the whole process is much easier. I definitely recommend his service for buying a practice. **You don't want to make a decision for life without knowing what you are getting into.**" -Dr. L., DDS*

INDEPENDENCE, OBJECTIVITY, INTEGRITY

**Dear Keith,
I am looking to buy a practice, what key issues should I be aware of before purchasing? Dr. P.C.**

Wow, that is a big step and congrats to you on taking that step. First, I would say make sure you hire a good lawyer to assist you on your contracts. All kidding aside, make sure you have a team of professionals to assist you in this endeavor. There are a number of legal, business and accounting issues that will no doubt come up and you need to make sure you have professional advisors to assist you. On the practical side there are two areas you want to pay attention to – (1) how do you deal with existing employees; (2) how do you protect yourself from a seller's breach of the sale agreement. While patient base, equipment and revenue stream are an important component of the sale, so is continuity. That means where possible retaining existing staff. This can be done by hiring the existing employees on terms similar to the employment terms in place with the selling dentist. If you do this, make sure that you have well defined written policies, especially if new employees will

be hired on different terms. Also make sure the remedy clauses are well defined and articulated in the contract. The tendency is to use generic language from form contracts, but that generic language may not adequately address your concern or remedy and thereby become useless to you. Don't let your contract work against you, make sure you get good legal help so that they can advise on how to make the contract work for you. A little attention on the front end can save you a lot of heartache later. Good luck on your upcoming purchase!

Thinking on selling your practice? Call "PPS of The Great West" today.
This shall be the best decision you make regarding this important change in your life!

Today's Changing Private Practice Marketplace

We are witnessing profound changes in our California dental marketplace. Where we are today is the result of trends occurring for quite some time. Today's marriages / partnerships consist of two wage earners. Delta is phasing out Premier providers. Dental Service Organizations are carving out a larger slice of the dental pie. There are more females entering the marketplace than there are males. Many of today's dentists do not feel the need or desire to go into private practice.

It is important to understand that your profession is unique from any other field of physical medicine as it is built upon long-lasting and trusting relationships. Patients' needs must be fulfilled. They need to feel connected with their dentist. They need to know their best interests are their dentist's main concern. They need to know they have their dentist's focused attention while in the chair. They need to feel relaxed and comfortable in their dental environment. They need to know their dentist is technically competent. They need to believe their dentist truly cares. They expect good customer service. And they want to feel connected to their dentist's practice. These patients travel considerable distances to see their dentist when they move away. This patient centric does not score well in DSO offices.

Dentists who have taken their practices out-of-network and witness some patients drift away, later witness many of these

patients asking to be re-admitted after discovering that "other" practice is not serving their needs.

California is full of discerning consumers who understand they are making long-term investments in their mouths and are willing to pay for quality and long-lasting procedures. But they demand the right patient centric!

Couple this with dentists who do want to own their practices as they have absolutely no interest in being someone's hired-hands. Dentists who have no intention on being boxed into repetitive clinical roles. Dentists who do not want their clinical judgment and ethics compromised. And dentists who fiercely aspire to practice under their own terms.

The future of Private Practice in California is extremely exciting. Realizing that there shall be fewer private practices as we move forward, there are tremendous opportunities for our Next Generation of Private Practitioners. Those who choose private practice shall realize a far higher level of satisfaction as they shall be incentivized to expand their clinical skills. Compare this to dentists who choose a corporate setting. They are supervised and expected to continually perform the same repetitive procedures. Such dentists are a hired set of hands on an assembly line who can be easily replaced!
