This oval is surrounded by a thick, yellow rope border that forms a rectangular shape with rounded corners. The rope has a detailed braided texture and is set against a solid brown background.

XCEL SEMINARS

16th Annual Comprehensive Dental Skills Series

Sheraton San Jose Hotel

Aug. 18, 2019: Trends in Minimally Invasive Pediatric Dentistry *Dr. Jeanette MacLean is a Diplomate of the American Board of Pediatric Dentistry, a recommended speaker of the American Academy of Pediatric Dentistry's Speakers Bureau, internationally recommended as an expert and advocate for silver diamine fluoride (SDF) and minimally invasive dentistry.*

Sep. 15: Simplified Dentures & Mini-Implants. *Dr. Raymond Choi was an Associate Professor at USC, a Fellow of the ICOI, an Associate Fellow of the AAID. He founded the Global Mini Implant Institute in 2007 so he could help other dentists offer these revolutionary treatments.*

Oct. 6: OSHA, Infection Control & the California Dental Practice Act PLUS Using Cutting Edge CAMBRA Protocols to Build Your Practice! *Carrie Ibbetson, RDH, uses her unique humor and cutting edge information to present tough subject matter in an interesting way.*

Oct. 13: Hands-on Pedito: Pulp Therapy, Pedito Restorations & Cutting Edge Anesthesia *Dr. Lance Kisby has practiced & taught for 35 years, started two pedito residency programs and edited the Journal of Pediatric Dentistry.*

Sheraton San Jose Hotel 1801 Barber Lane, Milpitas, CA (408) 943-0600
(Minutes from 880, 237, 680 & 101 Fwys)

COURSE TOPICS

Minimally Invasive Pedo: Learn how to restore cavities in a quick, effective, and painless way using Glass Ionomer Cement, stainless steel crowns, and SDF, known as Silver Modified Atraumatic Restorative Treatment (SMART) and the Hall Technique. Find out how offering minimally-invasive options like SDF, SMART, and Hall crowns can attract new patients, improve patient satisfaction, and increase internal marketing and word of mouth referrals to your practice. As an advocate for minimally invasive dentistry, she teaches three simple and painless options to manage enamel defects. MI Paste, ICON Resin Infiltration, and etch/bleach seal can improve or even completely reverse the appearance of congenital enamel defects and white spot lesions while preserving tooth structure and repairing the patient's natural enamel.

Special 4CE Biomimetics Travel'n'Learn Course in Las Vegas (This course is not included in the series): This course will explore the characteristics of the biomimetic, minimally invasive treatment options and how they can be incorporated into daily practice. Clinical cases where deep caries or pulp exposures could be predictably treated without the need for endodontic treatment will be presented. Attendees will learn how to repair teeth and lessen sensitivity, use bioactive materials to strengthen teeth and reduce restorative failure and how to protect and prolong pulp vitality. A hands-on demonstration is included, giving you a chance to work with innovative products backed by scientific research with excellent outcomes

Simplified Dentures and Mini Dental Implants: *As the demand for implant overdentures grows, it is more important than ever that general dentists become proficient in complete denture concepts and techniques. Dentists who can offer high quality implants and denture services in less time, in less traumatic fashion and at a reasonable cost will be better positioned to grow their practice.* **Topics include:** Predictable and time-tested mini implant protocols for complete denture stabilization ♦ Case selection and case planning ♦ Simplified and practical denture concepts and techniques, easily incorporated into any practice ♦ New workflow that combines traditional procedures with digital tools for faster, better and more affordable denture fabrication

OSHA, Infection Control and the CA Dental Practice Act: *This course will not only entertain you and your staff but will enable attendees to meet license renewal requirements and state and federal requirements for OSHA Bloodborne Pathogen training, and infection Control with Carrie Ibbetson.* **The California Dental Practice Act segment will include:** Basic requirements of the Dental Board, how to avoid Dental Board problems AND Present actual case studies of dentists subjected to Board discipline. **PLUS a Bonus Course-Using Cutting Edge CAMBRA Protocols to Build Your Practice!**

Hands-on Pedo (this course IS INCLUDED in the series): This course will cover the common pulp therapy issues in primary teeth, current concepts in materials, minimally invasive dentistry (MID) and anesthesia break-throughs, in Pediatric Dentistry. The topic of pulp therapy will include Biodentine pulpotomies, indirect pulp caps with GIC and the restorative component will discuss new composites and their application in pulp therapy as well as in the slot prep and SDF used as part of the SMART technique. Learn how to minimize a child's disruptive behavior and your stress during anesthesia administration. **Attendees will Perform Hands-on:** Class I Biodentine pulpotomy restored with GIC ♦ Class II slot prep restored with GIC using a Matrix system ♦ Proper technique and placement of Silver Diamine Fluoride ♦ On a proprietary typodont, anesthetize a single tooth with efficacy, safety, and comfort, but without producing collateral numbness and possible injury to a child's lips or tongue
