

The logo is set against a solid brown background. It features a thick, yellow rope with a black outline, coiled into a rectangular shape with rounded corners. At the top center of the rope, there is a small knot. In the center of the rope's frame is a horizontal yellow oval with a thin white border. Inside this oval, the words "BINA DENTAL INSTITUTE" are written in a bold, black, sans-serif, all-caps font.

BINA DENTAL INSTITUTE

Simple Solutions to Restorative Implant Dentistry

Presented by Shahin Issac Bina, DDS, FAGD, FICOI

Lecture and Hands-On workshop

Hosted by **Bina Dental Institute**

Sunday, November 3, 2019 • 7 CE Credit Hours

COURSE DESCRIPTION

This **hands-on workshop** will simplify the seemingly complicated implant restoration process and enable you to make sense of the myriad of dental implant systems currently on the market. This **beginner to intermediate** course addresses common areas of confusion and covers necessary steps for cost-effective dental restoration, improving dental impression-taking and emphasizes time-saving techniques that make implant dentistry easier to perform. You will leave this workshop confident in your abilities to select components and deliver a variety of dental implants successfully and consistently.

LEARNING OBJECTIVES

- You will learn different impression taking techniques such as Open-tray and Closed-tray techniques and when to use each technique
- Understand the difference between abutments and proper abutment selection such as UCLA, Custom, Angeled abutments and more
- Increase proficiency in impression taking
- Have a hands-on opportunity to use the components for impression taking

Shahin Issac Bina, DDS, FAGD, FICOI

Dr. Bina graduated from Stony Brook School of Dentistry in 1994 and finished a General Practice Residency at **The NY Hospital Medical Center of Queens**. He then joined the faculty at the NYU School of Dentistry in the department of **Comprehensive Care and Applied Practice Administration** where he served as a clinical instructor.

While he earned his Fellowship with the Academy of General Dentistry, Dr. Bina maintained a private practice in Great Neck, NY. He then moved to California and provided in-house dental implant services for over 30 offices before he opened his office, and **Bina Dental Institute** in Encino, CA. He enjoys teaching dentists the art of implant placement and restoration. Dr. Bina has observed first-hand the restorative obstacles and frustrations general dentists face in restoring dental implant and as a result has designed a hands-on course to help them build the confidence and knowledge to overcome those obstacles. He is a graduate of the **Misch International Implant Institute, Fellow of the International Congress of Oral Implantologists, and a Fellow of the Academy of General Dentistry.**

SCHEDULE

Sunday, November 3, 2019
Registration 8:30am-9:00am
Lecture 9:00am-4:00pm

Provider ID# 219038

Bina Dental Institute in conjunction with **BioHorizons** presents:
Simple Solutions to Restorative Implant Dentistry

A Hands on workshop

Synopsis:

As an independent general dentist, I have been providing implant placement and restorations for over 30 offices in SoCal for the past 15 years as well as taking referrals and patients in my private practice. I have taught many GPs how to restore implants. I have noticed that many general dentists don't have enough confidence or knowledge in this field and they avoid offering this service to their patients. Restoring dental implants is very simple, and is very productive if done right.

In this course, I will cover many different techniques for taking impressions. I cover when, how and why to use them, while you work on provided models and experience it first hand. My goal is to make implant restoration simple and help you avoid costly mistakes so you can **offer your patients better treatment options** and **increase your productivity** at the same time. After this extremely educating course you will be able to incorporate implant restorations into your practice and be able to make it a part of your daily treatment planning and **boost your practice production enormously!**

The logo features the text "XCEL SEMINARS" in a bold, black, sans-serif font, centered within a yellow oval. This oval is framed by a thick, yellow rope with a black outline, which is coiled into a rectangular shape with rounded corners. The rope has frayed ends at the top. The entire design is set against a solid brown background.

XCEL SEMINARS

16th Annual Comprehensive Dental Skills Series

Knott's Berry Farm Resort Hotel

Nov. 3, 2019: CA Dental Practice Act, Infection Control & CAMBRA PLUS a BONUS COURSE: Becoming the "Go To" Dentist in your Community with these Seven Critical Steps! *Carrie Ibbetson, RDH, lectures nationwide using her unique humor and cutting edge information to present tough subject matter in an interesting way. Jim Richardson, the CEO of Click-thru Consulting, LLC, understands the frustrations of dental practice owners. He is the Amazon best-selling author of "Word of Mouse Marketing for Dentists" and he works to help dentists refine their messages and drive new patients to their practices.*

Nov. 17: Hands-on On Practical & Simple Orthodontics and Treating Trauma *Dr. Lance Kisby FASDC, FAGD, FAAPD, MAGD, has practiced & taught for 35 years, started two pedo residency programs and edited the Journal of Pediatric Dentistry.*

Dec. 15: Morphology and Occlusion: The Integral Link to Successful Restorative Dentistry *Dr. Bob Lowe has authored numerous articles, contributions to textbooks and is consistently named a "Top 100 Clinician in Dentistry."*

Jan 26, 2020: Updates in Pediatric Dentistry: Treating Tiny Tots to Teens *Dr. Lance Kisby has practiced & taught for 35 years, started two pedo residency programs and edited the Journal of Pediatric Dentistry.*

Feb. 23: Oral Medicine for Dentists *Dr. Patrick Quaranta is back by popular demand for a new subject (even if you have taken his previous courses you do NOT want to miss this one)! He is a former professor of Oral Medicine at UMDNJ-New Jersey Dental School.*

March 29: Comprehensive Treatment Planning and Care: Preventive and Restorative Dentistry Working in Concert *Dr. Pamela M. Maragliano-Muniz whose experience as a dental hygienist, clinical professor and prosthodontist, help her to give this informative and unique course, that addresses the whole continuum of care GPs provide to their patients.*

Knott's Berry Farm Resort Hotel, 7675 Crescent Ave, Buena Park, CA
(Beach Blvd. exit of the 5, 405 & 91 Fwys)

ALL COURSES ARE ON SUNDAYS 7 CA & AGD CES EACH DAY
\$149 FOR EACH LECTURE,
\$399 FOR THE HANDS-ON MINOR ORTHO,
OR THE ENTIRE 6 COURSE SERIES
(42 CA & AGD CES) FOR ONLY \$649

COURSE TOPICS

OSHA, Infection Control and the CA Dental Practice Act: *This course will not only entertain you and your staff but will enable attendees to meet license renewal requirements and state and federal requirements for OSHA Bloodborne Pathogen training, and infection control with Carrie Ibbetson. The California Dental Practice Act segment will include: Basic requirements of the Dental Board, how to avoid Dental Board problems AND Present actual case studies of dentists subjected to Board discipline. PLUS In our bonus one-hour interactive workshop, we'll take each audience member through an interactive, personal exercise that will teach them how to create their unique compelling message. They will:* Discover their marketing problems ♦ Follow a proven, seven-step process to record their unique message script ♦ Leave with more confidence about their compelling reason a new patient should choose them.

Hands-on Interceptive Ortho, including Treating Trauma: *This course addresses many common orthodontic problems with techniques that can be done in the office, including:* How to do an orthodontic exam and using that information ♦ Primary vs permanent teeth ideal occlusion ♦ The preferred sequence of eruption of primary and permanent teeth ♦ Diagnosis and managing ankylosis of primary teeth and congenitally missing permanent teeth ♦ Diagnosing and early treatment of space management, anterior and posterior cross-bites, and thumb/tongue habits ♦ Indications and contraindications for simple appliances such as maxillary expansion appliances, correcting single tooth maxillary lingual cross-bites, habit breaking appliances, and space maintainers ♦ When to refer to the orthodontist ♦ The role of enlarged tonsils and airway issues in malocclusion ♦ Diagnosing and treating common eruption problems from multiple panorex ♦ The **Hands-on portion will include:** An interactive session of diagnosing and interpreting eruption problems from multiple panorex ♦ Placing bands and taking impressions for a space maintainer on a typodont and writing a prescription for each of the common interceptive appliances ♦ Quickly and easily treating a trauma with bioceramic pulp restorations.

Morphology and Occlusion: *Every restoration placed has the potential to alter the occlusal relationship of the patients' dentition. Thus, understanding, visualizing, and reproducing proper dentate morphology following occlusal concepts regardless of the material used is the key to long-lasting dental restoration. In this lecture, Dr. Lowe will review in detail techniques to create dental restorations that show how the principles of morphology and occlusion can be maintained using today's modern dental materials to produce "world class" dental restorations, including:* The Principles of Morphology in Direct and Indirect Dental Restorations – Reproducing nature's functional and aesthetic contours – A basis of occlusal understanding. ♦ The importance of "linguovision" in understanding occlusion. ♦ The "ABC" Porkorny Construct of Occlusal Contact: What do those "little dots" mean? ♦ Occlusal Adjustment or "Spheroiding": Maintaining morphologic shape and form when performing occlusal adjustment. ♦ The Art and Science of Provisionalization: A biologic and occlusal prototype for definitive reconstruction. ♦ Tissue Management During Master Impressions: "Tissue Mirrors Technique!" ♦ Definitive cementation protocols for conventional, bioactive, and resin cements: Occlusal adjustment during the cementation process. ♦ Combined Therapy and "Perio-by-the-Numbers" The perioprosthesis connection to restorative dentistry. ♦ Creative Treatment Options: Abstracting Reality! Solutions to aesthetic and functional dental problems you probably have not considered.

Updates in Pediatric Dentistry: *This course features a comprehensive update in Pediatric Dentistry, including:* New psychological insights and research on Behavior Guidance, the dental implications for the increase in Autism, preterm births ♦ ADHD caries formation and prevention as well as how to perform a CAMBRA caries risk assessment ♦ How using Xylitol, Fluoride Varnish, MI Paste, Chlorhexidine, and sealants are effective preventive measures ♦ Indirect Pulp Caps and MTA/Biodentine pulpotomies. ♦ New designs in tooth preparation & when to use GIC, RMGI's, and a new flowable composite for Class I to Class V preps ♦ Diagnosis and treatment of simple and complex traumatic injuries in addition to a simple method for splinting.

Oral Medicine for GPs: *This course gives dentists the tools to diagnose abnormal and pathological conditions within the mouth. Using clinical pictures and x-ray imaging and by teaching diagnostic process and differential diagnosis (DiffDx), the course addresses systemic health conditions manifesting as oral changes and also possible treatment of oral conditions, including:* What a lesion looks like, the general concepts of diagnostics and value of patient histories ♦ Appropriate communication with other doctors ♦ Review common lesions including, candidiasis, frictional hyperkeratosis, lichen planus, autoimmune diseases manifested in the mouth, aphthous ulcers, hemangiomas, hematomas and ecchymosis, HSV 1, HPV and other viral lesions, oral cancers and radiographic lesions.

Comprehensive Treatment Planning and Care: *This course will cover strategies to help you patients from prevention of dental caries to restorative strategies that offer long-term results. Clinical results and the profit potential of a caries management program alongside comprehensive restorative treatment planning and implementation will be covered. Cases will be discussed in depth and attendees will be able to participate in the evaluation of patients for caries risk, risk management, documentation and restorative treatment.*

TUITION	6 COURSE SERIES	EACH INDIVIDUAL COURSE
More than 14 days before an event	Dentist: \$649, Staff: \$299	Lecture Dentist: \$149, Staff: \$129 \$399 for Hands-on Oral Surgery course
