*"Working with Justin, I saved over \$500,000 in  
interest expenses off of my original loan!" -Dr. R*

*Wood and Delgado is the most experienced law firm in providing legal advice to dentists regarding their business transactions. But, we are more than just a law firm. We also provide business counsel and general advisory services that go beyond the four corners of a contract to keep our clients safe and successful. With the addition of Justin Morgan to our team, he brings deep knowledge of the banking and financing industry and uses this knowledge to assist our clients in making the best financial decisions.*

*Given that interest rates are at all-time lows, Wood and Delgado has been working with and advising its clients to review their financial arrangements to ensure they are paying the lowest interest rates possible. Please feel free to contact our firm for a free consultation regarding refinancing practice or commercial real estate debt.*

## WE DON'T PLAY THAT WAY

Most dental publications sell their mailing lists (of dental subscribers) and even sell email addresses (or provide spamming services) using data you entered when registering on their site. This is why you get so many promotional emails.

We don't do that here at The Dental Trader. Your personal contact information is private, we do not share or sell it to anyone. Companies ask to buy this from us all the time but we know you get enough junk mail & spam already so we just say no. It's also why every page of the **dentaltrader.com** website is 100% secure (https) and why we do not capture or phish for any data you provide. We respect your right to privacy.

*Thank you for reading and advertising.*

# ***“The best book I ever read on dental prosperity!”***

Los Angeles Dentist, Dr. L. Chen

*Dentistry is a business and this book is the business side of dentistry. Whether you are just out of dental school, buying your first practice, or selling your dental practice and heading into retirement...this book will be beneficial:*

- Associate arrangement—What to expect on your first job
- When and where to buy a practice
- How to value a dental practice
- Due diligence—What are you really buying? Look deeper!
- Overhead Analysis—Poor overhead control reduces your take home pay!
- Tax consequences of buying or selling a practice. “Asset allocation” two words that can make or break the deal.
- Practice brokers...the good, the bad and the ugly!
- Includes overhead analysis templates and retirement in come planners.

*“The info about due diligence when buying a practice on Pg. 33, prevented me from making a monumental error that would have cost me hundreds of thousands!”*

Dr. Claire Bishop, DMD

*“The chapter on overhead control completely changed the way I operate and my overhead has dropped from 70% down to 50% while simplifying my life.”*

Gregory Jones, DDS

*“I’ve been practicing for decades and wish this book had come out sooner. Dr. Kempler addresses so many aspects of dentistry that directly impact profitability... lessons I learned the hard way during my career. This book is a must read!”*

Dr. Dean Patterson

*“One chapter just saved me 1000s of dollars in taxes for 2017!!! Thank you Phil!”*

**Sean helped me with the purchase of my first dental practice.**

He was very informative and helpful during the process. I believe my acquisition was a little more complex than average but he was thorough and helpful throughout. I would definitely recommend Sean. He's a good guy and fun to work with.

*Cecilia Chen came very highly recommended for her legal services. Immediately, it was clear that she was deserving of the referral. She quickly laid out what was required for my practice transition and clearly communicated her reasonable fees. She was a wonderful advocate in dealing with the other party, going above and beyond to look out for my best interest. She was always quick to respond and my transaction was completed in a timely manner. I have already referred Cecilia to a colleague and will continue to do so in the future.*

## ASK THE BROKER

### **How do you determine the listing price of my practice?**

The single-most important factor in determining the practice sales price is the collection total of the previous calendar year. Lenders and Buyers like to see stability without large variances from year to year. It should be obvious that steady, slight increases in revenues are always better than even the slightest of decreases. Poor performance of one of three years should not affect pricing, unless it is the last calendar year that shows a significant drop. Therefore, try to maintain a stable practice, make sure you finish strong and make all your December deposits for that last year you will be filing!

#### **Practices are priced based heavily on gross receipts.**

Let's work through some scenarios and options. If you plan to practice 2-3 more years, it is not worth investing extra money in the practice. In this case, I would just advise finishing strong, especially to reflect your last tax return which will be filed. If you plan to practice approximately 5 years, spending large amounts of money for new technology may not necessarily return the investment unless it helps to increase your production. However, this being said, purchasing new equipment may increase your enjoyment of practicing dentistry and therefore be a worthwhile investment.

With 8-10 years remaining to practice, modernizing the practice with the latest and greatest is generally a great idea. Leasehold improvements typically last 5-8 years, so making the investment at this time to spruce up the office will enhance the desirability of the sale. It may also give you greater satisfaction of working in a first-rate environment for the entire duration of the leasehold improvements. **Most importantly, since practice values are based on gross receipts, keep up the good work!**

With factors affecting the current practice market such as a large number of "Baby Boomers" choosing to retire coupled with a lower percentages of Millennials wanting to own dental practices, it is important to make decisions now that will help your practice stand out from the rest when you decide to sell! Call or email us today for a free copy of Dr Giroux's book "Top Ten Issues for Dentists Contemplating Retirement in Ten Years or Less".

"A definite must take class for any dentist to further your career. You will learn a lot."

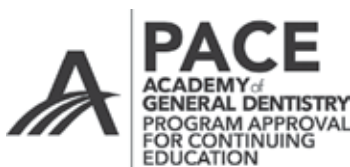

- Kevin Chou DDS, general dentist, Bakersfield.

Dear Dr. Periklis Proussaefs, Thank you for the wonderful course. I was doing conscious sedation for many years and took several renewal courses. Yours was indubitably the best. Very informative. Extremely to the point. Clear and very captivating. I learned a lot this Sunday and started work on Monday refreshed, energetic, and eager to use all my new knowledge. I strongly recommend this course to doctors who are willing to introduce sedation to their practice or the ones who need renewal. Thank you.

Anna Durkin DDS, general dentist, San Marcos, CA

"An oral sedation course that is practical. The difference between this course and any other course I have seen is the instructor is a true clinician that performs dentistry and surgery every day. His course is very practical, safe, and predictable way of performing oral sedation. Thank you Dr. Proussaefs, I finally feel comfortable performing oral sedation as a general dentist."

### Today's Changing Private Practice Marketplace

We are witnessing profound changes in our California dental marketplace. Where we are today is the result of trends occurring for quite some time. Today's marriages / partnerships consist of two wage earners. Delta is phasing out Premier providers. Dental Service Organizations are carving out a larger slice of the dental pie. There are more females entering the marketplace than there are males. Many of today's dentists do not feel the need or desire to go into private practice.

It is important to understand that your profession is unique from any other field of physical medicine as it is built upon long-lasting and trusting relationships. Patients' needs must be fulfilled. They need to feel connected with their dentist. They need to know their best interests are their dentist's main concern. They need to know they have their dentist's focused attention while in the chair. They need to feel relaxed and comfortable in their dental environment. They need to know their dentist is technically competent. They need to believe their dentist truly cares. They expect good customer service. And they want to feel connected to their dentist's practice. These patients travel considerable distances to see their dentist when they move away. This patient centric does not score well in DSO offices.

Dentists who have taken their practices out-of-network and witness some patients drift away, later witness many of these

patients asking to be re-admitted after discovering that “other” practice is not serving their needs.

California is full of discerning consumers who understand they are making long-term investments in their mouths and are willing to pay for quality and long-lasting procedures. But they demand the right patient centric!

Couple this with dentists who do want to own their practices as they have absolutely no interest in being someone's hired hands. Dentists who have no intention on being boxed into repetitive clinical roles. Dentists who do not want their clinical judgment and ethics compromised. And dentists who fiercely aspire to practice under their own terms.

The future of Private Practice in California is extremely exciting. Realizing that there shall be fewer private practices as we move forward, there are tremendous opportunities for our Next Generation of Private Practitioners. Those who choose private practice shall realize a far higher level of satisfaction as they shall be incentivized to expand their clinical skills. Compare this to dentists who choose a corporate setting. They are supervised and expected to continually perform the same repetitive procedures. Such dentists are a hired set of hands on an assembly line who can be easily replaced!

## **Professional Practice Sales Celebrates Fifty-Four Years Selling California Dental Practices**

**How is this possible?**

**PPS is not a Fortune 500 Company.**

**PPS is not owned by Dentists.**

**PPS is certainly not the largest brokerage.**

**Very simple.**

It is about having the time and attention  
to properly devote to each engagement.

When you place your practice "For Sale",  
you will feel vulnerable. To assist you during this  
anxious period, you need to feel secure knowing  
that the requisite care and attention is being  
implemented so you can make the proper decisions.

***And you expect to be properly protected!***

It is PPS' focus, our attention to details,  
properly preparing our Client for this unique  
journey, preparing the best practice presentation,  
assembling a complete "tool box" before going to  
market, implementing the necessary risk  
management application to properly protect our  
Client and expertly papering the transaction  
which separates PPS from others.

We clearly understand that our reputation  
hinges on each engagement.

***PPS does not wish to be the biggest.  
We simply strive to be the best!***
