

The logo features the text "XCEL SEMINARS" in a bold, black, sans-serif font, centered within a yellow oval. This oval is framed by a thick, yellow rope with a black outline, which is coiled into a rectangular shape with rounded corners. The rope has frayed ends at the top. The entire design is set against a solid brown background.

XCEL SEMINARS

17th Annual Comprehensive Dental Skills Series

Sheraton San Jose Hotel

Jan 26, 2020: CA Dental Practice Act & Infection Control PLUS a BONUS COURSE: Becoming the "Go To" Dentist in your Community with these Seven Critical Steps!

Carrie Ibbetson, RDH, lectures nationwide using her unique humor and cutting edge information to present tough subject matter in an interesting way. Jim Richardson, the CEO of Click-thru Consulting, LLC, understands the frustrations of dental practice owners. He is the Amazon best-selling author of "Word of Mouse Marketing for Dentists" and he works to help dentists refine their messages and drive new patients to their practices.

Feb. 16: New Materials and Techniques to Grow your Esthetic Practice

Dr. Marc Geissberger splits his time equally between his practice and educating dentists. He is a noted lecturer and author who chaired the Department of Integrated Reconstructive Dental Sciences at the University of the Pacific, School of Dentistry for 15 years and has maintained a faculty appointment continuously since 1991.

March 22: Morphology and Occlusion: The Integral Link to Successful Restorative Dentistry

Dr. Bob Lowe has authored numerous articles, contributions to textbooks and is consistently named a "Top 100 Clinician in Dentistry."

April 26: Practical and Simple Interceptive Orthodontic Treatment & Treating Trauma, A Hands-on Course

Dr. Lance Kisby FASDC, FAGD, FAAPD, MAGD, has practiced & taught for 35 years, started two pedo residency programs and edited the Journal of Pediatric Dentistry.

May 3: Prosthodontics for GPs

Dr. Peter Auster uses the latest technology, materials, and techniques to create a free moving, collaborative day for his audience. He was featured on the cover of Dentistry Today Magazine and recently completed two terms on the board of directors of the American Academy of Cosmetic Dentistry and chair of their leadership committee.

COURSE TOPICS

OSHA, Infection Control and the CA Dental Practice Act: This course will not only entertain you and your staff but will enable attendees to meet license renewal requirements and state and federal requirements for OSHA Bloodborne Pathogen training, and infection Control with Carrie Ibbetson. The California Dental Practice Act segment will include: Basic requirements of the Dental Board, how to avoid Dental Board problems AND Present actual case studies of dentists subjected to Board discipline. **PLUS In our bonus one-hour interactive workshop,** we'll take each audience member through an interactive, personal exercise that will teach them how to create their unique compelling message. They will: Discover their marketing problems ♦ Follow a proven, seven-step process to record their unique message script ♦ Leave with more confidence about their compelling reason a new patient should choose them

New Materials and Techniques to Grow your Esthetic Practice: *New materials, technology and techniques are developing at such a rapid pace that practitioners can become overwhelmed. Add to this the increased expectations of esthetic patients and the clinical performance of materials and the entire experience can be challenging. This program will describe changes that have occurred over the last several years in the esthetic area and discuss patient factors that can significantly impact clinical success. New developments in technology and techniques will be outlined and demonstrated. Strategies and future trends that can keep you on the "cutting edge" will be presented. Additionally, my top ten list of things to have or do in order to be competitive in the esthetic arena will be shared. During this program practitioners will:* Gain a working knowledge of the new advances in materials in the esthetic area. ♦ Understand the trends and developments that lie ahead and develop strategies to adapt to these changes. ♦ Gain better insight into what motivates the esthetic patient and how to deal with difficult clinical situations.

Morphology and Occlusion: *Every restoration placed has the potential to alter the occlusal relationship of the patients' dentition. Thus, understanding, visualizing, and reproducing proper dentate morphology following occlusal concepts regardless of the material used is the key to long-lasting dental restoration. In this lecture, Dr. Lowe will review in detail techniques to create dental restorations that show how the principles of morphology and occlusion can be maintained using today's modern dental materials to produce "world class" dental restorations, including:* The Principles of Morphology in Direct and Indirect Dental Restorations – Reproducing nature's functional and aesthetic contours – A basis of occlusal understanding. The importance of "linguovision" in understanding occlusion. ♦ The "ABC" Porkorny Construct of Occlusal Contact: What do those "little dots" mean? ♦ Occlusal Adjustment or "Spheroiding": Maintaining morphologic shape and form when performing occlusal adjustment. ♦ The Art and Science of Provisionalization: A biologic and occlusal prototype for definitive reconstruction. ♦ Tissue Management During Master Impressions: "Tissue Mirrors Technique!" ♦ Definitive cementation protocols for conventional, bioactive, and resin cements: Occlusal adjustment during the cementation process. ♦ Combined Therapy and "Perio-by-the-Numbers: The perioprosthetic connection to restorative dentistry. ♦ Creative Treatment Options: Abstracting Reality! Solutions to aesthetic and functional dental problems you probably have not considered.

Hands-on Interceptive Ortho, including Treating Trauma: *This course addresses many common orthodontic problems with techniques that can be done in the office, including:* How to do an orthodontic exam and using that information ♦ Primary vs permanent teeth ideal occlusion ♦ The preferred sequence of eruption of primary and permanent teeth ♦ Diagnosing and managing ankylosis of primary teeth and congenitally missing permanent teeth ♦ Diagnosing and early treatment of space management, anterior and posterior cross-bites, and thumb/tongue habits ♦ Indications and contraindications for simple appliances such as maxillary expansion appliances, correcting single tooth maxillary lingual cross-bites, habit breaking appliances, and space maintainers ♦ When to refer to the orthodontist ♦ The role of enlarged tonsils and airway issues in malocclusion ♦ Diagnosing and treating common eruption problems from multiple panorex The Hands-on portion will include: An interactive session of diagnosing and interpreting eruption problems from multiple panorex ♦ Placing bands and taking impressions for a space maintainer on a typodont and writing a prescription for each of the common interceptive appliances ♦ Quickly and easily treating a trauma with bioceramic pulp restorations.

Prosthodontics for GPs: *As a former "drill and fill" dentist, Dr. Auster shares the pathway to effectively treating all the difficult cases thrown your way. Included in this fun and stimulating seminar:* Learning a systematic way to simplify and treat ANY case ♦ Multiple ways to phase treatment for any budget ♦ Using depogrammers as a therapeutic AND diagnostic tool ♦ Appropriate uses for the many new indirect materials available today ♦ Choosing the correct cement for every restoration ♦ Which zirconia should I use for each situation?
