The logo features the text "XCEL SEMINARS" in a bold, black, sans-serif font, centered within a yellow oval. This oval is surrounded by a thick, yellow rope border that forms a rectangular shape with rounded corners. The rope has a detailed braided texture and is set against a solid brown background.

XCEL SEMINARS

17th Annual Comprehensive Dental Skills Series

Sheraton San Jose Hotel

May 3, 2020: Prosthodontics for GPs *Dr. Peter Auster uses the latest technology, materials, and techniques to create a free moving, collaborative day for his audience. He was featured on the cover of Dentistry Today Magazine and recently completed two terms on the board of directors of the American Academy of Cosmetic Dentistry and chair of their leadership committee.*

June 7: Comprehensive Introduction to Dental Sleep Apnea (8AM-5PM and 8 CE Units) *Dr. Rob Veis has been practicing for almost 30 years, was a professor at USC for 12 years and lectures nationally on restorative dentistry and appliance therapy.*

June 28: Morphology and Occlusion: The Integral Link to Successful Restorative Dentistry *Dr. Bob Lowe has authored numerous articles, contributions to textbooks and is consistently named a "Top 100 Clinician in Dentistry."*

Sheraton San Jose Hotel 1801 Barber Lane, Milpitas, CA (408) 943-0600
(Minutes from 880, 237, 680 & 101 Fwys)

COURSE TOPICS

Prosthodontics for GPs: *As a former "drill and fill" dentist, Dr. Auster shares the pathway to effectively treating all the difficult cases thrown your way. Included in this fun and stimulating seminar:* Learning a systematic way to simplify and treat ANY case ♦ Multiple ways to phase treatment for any budget ♦ Using deprogrammers as a therapeutic AND diagnostic tool ♦ Appropriate uses for the many new indirect materials available today ♦ Choosing the correct cement for every restoration ♦ Which zirconia should I use for each situation?

Intro to Dental Sleep Medicine (8 CE Units): *This course is intended to provide a comprehensive overview of diagnosis and treatment of sleep apnea cases for dentists interested in adding this growth area to their practices. Dr. Veis will cover all aspects diagnosis and the sleep study, deciding which appliances to use for treatment, measuring and fitting the appliances, interacting with the fabricating lab, and how to manage the billings to medical insurance, including:* Provide an understanding of the scope of the problem and why we need to be at the front lines in its recognition and treatment. ♦ Talk the talk and walk the walk... definitions and terms needed to understand the problem and communicate with your peers. ♦ Learn how to screen every patient in your practice regardless of their age. ♦ The Who, What, When, Where and How of getting a Diagnosis ♦ Overview of treatment possibilities ♦ How to do a thorough exam and why it's critical to choosing the best treatment option ♦ Achieve an understanding of sleep appliances ♦ Working in a team approach and staying within the scope of your practice act ♦ Integrating sleep into your practice...a medical model in a dental practice ♦ Getting paid...services to take care of the medical billing

Morphology and Occlusion: *Every restoration placed has the potential to alter the occlusal relationship of the patients' dentition. Thus, understanding, visualizing, and reproducing proper dentate morphology following occlusal concepts regardless of the material used is the key to long-lasting dental restoration. In this lecture, Dr. Lowe will review in detail techniques to create dental restorations that show how the principles of morphology and occlusion can be maintained using today's modern dental materials to produce "world class" dental restorations, including:* The Principles of Morphology in Direct and Indirect Dental Restorations – Reproducing nature's functional and aesthetic contours – A basis of occlusal understanding. The importance of "linguovision" in understanding occlusion. ♦ The "ABC" Porkorny Construct of Occlusal Contact: What do those "little dots" mean? ♦ Occlusal Adjustment or "Spheroiding": Maintaining morphologic shape and form when performing occlusal adjustment. ♦ The Art and Science of Provisionalization: A biologic and occlusal prototype for definitive reconstruction. ♦ Tissue Management During Master Impressions: "Tissue Mirrors Technique!" ♦ Definitive cementation protocols for conventional, bioactive, and resin cements: Occlusal adjustment during the cementation process. ♦ Combined Therapy and "Perio-by-the-Numbers: The perioprosthesis connection to restorative dentistry. ♦ Creative Treatment Options: Abstracting Reality! Solutions to aesthetic and functional dental problems you probably have not considered.
