

PINHOLE SURGICAL TECHNIQUE

DID YOU KNOW...

Only 681 out of 28,000+ California Dentists
are reaping the rewards of being
Pinhole® Certified to help patients
treat gum recession

Pinhole® Procedure Advantages

- 1) **1-2** hour typical surgical time
- 2) Only requires using special instruments through small pinholes in the gums
- 3) Only requires collagen to stabilize the flap
- 4) **No cutting** with scalpels or sutures required
- 5) **No palatal grafting** required
- 6) Instantly pleasing results
- 7) Typically, minor swelling and discomfort after surgery
- 8) Patients can eat soft foods 24-48 hours after procedure
- 9) Patients typically **back to work 24-48 hours** after procedure
- 10) **95.1% patient satisfaction** with Pinhole® (IJPRD 2012)
- 11) **Higher case acceptance** with Pinhole® because it's minimally invasive
- 12) The fee for Pinhole® could be similar to grafting in your area but requires less time without sutures and an entire arch or mouth can be treated in 1 visit
- 13) **Higher hourly revenue stream possible with Pinhole®**
- 14) Pinhole® can be combined with crowns/veneers for super high revenue

Dr. John Chao,
Inventor of Pinhole®
Surgical Technique

Sal Gaytan, Director
