Got a complicated mess?

Chester will clean it up.

"I can't say enough good things about Chester. He really helped me go through a challenging transition in order for me to chase my dreams of living in Hawaii. I had a great associate who did not have a lot of years of experience and was interested in purchasing my practice. Because this was his first transition, he had advisors that were not dental specialists. As you could imagine, that made things difficult. Chester helped me navigate the frustrations and challenges of dealing with their team and was super responsive in all his communications to both me and the other party. He noticed a few discrepancies and cleared them up swiftly. He also helped accomplish this in a very short period of time!" Tony K.

ASK THE BROKER

How do you determine the listing price of my practice?

COVID?

The single-most important factor in determining the practice sales price is the collection total of the previous calendar year. This is true even now with COVID. I believe that the 2019 return will be primarily used for practice evaluations until perhaps July of 2021. Lenders and Buyers like to see stability without large variances from year to year. It should be obvious that steady, slight increases in revenues are always better than even the slightest of decreases. Poor performance of one of three years should not affect pricing, unless it is the last calendar year that shows a significant drop. Therefore, try to maintain a stable practice, make sure you finish strong and make all your December deposits for that last year you will be filing!

Practices are priced based heavily on gross receipts.

Let's work through some scenarios and options. If you plan to practice 2-3 more years, it is not worth investing extra money in the practice. In this case, I would just advise finishing strong, especially to reflect your last tax return which will be filed. If you plan to practice approximately 5 years, spending large amounts of money for new technology may not necessarily return the investment unless it helps to increase your production. However, this being said, purchasing new equipment may increase your enjoyment of practicing dentistry and therefore be a worthwhile investment.

With 8-10 years remaining to practice, modernizing the practice with the latest and greatest is generally a great idea. Leasehold improvements typically last 5-8 years, so making the investment at this time to spruce up the office will enhance the desirability of the sale. It may also give you greater satisfaction of working in a first-rate environment for the entire duration of the leasehold improvements. **Most importantly, since practice values are based on gross receipts, keep up the good work!**

With factors affecting the current practice market such as a large number of "Baby Boomers" choosing to retire coupled with a lower percentages of Millennials wanting to own dental practices, it is important to make decisions now that will help your practice stand out from the rest when you decide to sell! Call or email us today for a free copy of Dr Giroux's book "Top Ten Issues for Dentists Contemplating Retirement in Ten Years or Less".

WANT TO BE A PRACTICE OWNER?

In the past, first time buyers had no problems making a decision. If a practice was located near where they wished to live and the economics penciled out, Offer submitted and practice acquired.

Many of today's want-to-be owners are so concerned about making a bad purchase decision, they simply cannot make a decision. Such buyers kick tires year-after-year while walking away from great opportunities. In contrast, dentists who own a practice, are quick to make Offers on another practice to expand their network. What is the difference?

Growing practice owners have confidence in their abilities and are not concerned about risk. They know which procedures they wish to deliver and they know they can hire dentists to infill the other areas. In contrast, many first time buyers lack confidence and are unable to take that leap of faith.

To assist you in becoming a practice owner, engage the best dental accountant you can find as your Advocate. Find someone who has been in the trenches a long time. Align with

an established dental accounting firm as within that firm they have witnessed hundreds of transactions. They have superstar clients who have created successful Centers of Excellence. They have a collective data base that shall be a huge asset in your search in acquiring a practice. They understand "best practice" applications.

As your Advocate gets to know your designs on a to-be acquired practice, they can quickly ascertain if an opportunity is a good fit, if it is properly priced and if it warrants serious attention. They also understand what that practice can do if properly tweaked. They further know all of the players in this industry; the brokerages, the agents, lenders, consultants, attorneys, escrow agents, etc. And they are looking after your best interests as your fiduciary.

Consumers deserve optimum oral healthcare. For this to happen, the profession needs you to transition from wanting to buy a practice to being a practice owner. Thousands have done this. Why not you?
