NOW as a LIVE WEBINAR Series w/LIVE CE Units

Aug. 28, 2022: A Comprehensive Review of Pediatric Dentistry for GPs & Staff

Dr. Lance Kisby FASDC, FAGD, FAAPD, MAGD, has practiced & taught for 35 years, started two pedo residency programs and edited the Journal of Pediatric Dentistry.

Sep. 18th: OSHA, Infection Control & the CA Dental Practice Act

Leslie Canham, RDH, lectures nationwide using her unique humor and cutting edge information to present tough subject matter in an interesting way.

Oct. 30: Beating up on Periodontal Disease- From Diagnosis & Treatment Planning to Long-Term Care

Dr. James Kohner is a Periodontist, and a leader in the periodontal world of dental health, with over 35 years in the private practice and more than 20 years teaching. Dr. Kohner provides evidence-based treatment options to help you improve the perio care of your patients.

Nov. 20: Dental Pharmacology- What Dentists Should Know (including Opioids, Cannabis & Addiction Training, mandated in many states)

Dr. Patrick Quaranta is back by popular demand for a new subject! He is a former professor of Oral Medicine at UMDNJ-New Jersey Dental School.

Dec. 11: Establish your Foundation; Surgical Extractions with Simultaneous Bone Grafting

Dr. Sam Shamardi is a Diplomate of the American Board of Periodontology and Implant Surgery and practices full-time in Boston while teaching part-time at the Harvard Division of Periodontics and lecturing nationally and internationally.

Jan. 15, 2023: Endo Reimagined - The very latest in Endodontic Techniques to help you save more teeth!

Dr. Robert Salehrabi is an associate professor of clinical endodontics at USC and author of articles in the Journal of Endodontics and other peer-reviewed journals. He received the International Endodontic Federation Research Award and was also awarded the "Outstanding Teaching Award" by USC.

ALL LIVE WEBINARS ARE ON SUNDAYS, 8 AM - 3 PM PACIFIC TIME AND 7 LIVE CE UNITS - TUNE IN AND ENJOY OUR COURSES FROM ANYWHERE!

\$149 FOR EACH LECTURE, OR THE ENTIRE 6 COURSE WEBINAR SERIES, 42 CA APPROVED LIVE CES, FOR ONLY \$549 (THAT IS LESS THAN THE COST OF FOUR COURSES)!!

COURSE TOPICS

Comprehensive Pedo Update: *Do you and your staff get agitated and start sweating when you see a pediatric patient on your schedule? Wouldn't it be wonderful to not be so stressed out?* **Attendees will learn:** The newest behavior management techniques ♦ Diagnosis & treatment of common pediatric dental pathology ♦ Common eruption problems, how to treat them, as well as simple steps to making space maintainers & interceptive appliances ♦ New tricalcium silicates & biosilicates for pulp therapy ♦ slot preps & the latest restorative materials & techniques ♦ Treatment and prevention of traumatic injuries.

OSHA, Infection Control and the CA Dental Practice Act: This course will not only entertain you and your staff but will enable attendees to meet license renewal requirements and state and federal requirements for OSHA Bloodborne Pathogen training, and Infection Control with Leslie Conhar. The California Dental Practice Act segment will include: Basic requirements of the Dental Board, how to avoid Dental Board problems AND Present actual case studies of dentists subjected to Board discipline.

Beating Up Perio Disease: *This webinar is NOT the basic dental school approach to Periodontal Disease. It will focus on different ways to diagnose, treat, and manage periodontal disease, including managing bacteria instead of just pockets. PLUS - attendees will learn about practical methods for patient self-care at home that might actually lead to more compliance! Also, by better understanding diagnosing, treating, and maintaining Periodontal Disease, clinicians can set a more predictable foundation for their restorative results as well.* **Objectives include:** Periodontal disease diagnostic factors ♦ Rationale both for and AGAINST plaque control ♦ Long term maintenance care – a foundational concept ♦ Occlusion and it's role ♦ Teeth vs. Implants – which is best? ♦ Furcations – to treat or not to treat? Can they really be maintained? (Spoiler: YES!) ♦ What is the role of Diamine Fluoride in adult maintenance care? ♦ Minimally invasive antimicrobial methods for treatment ♦ Simplified - yet effective - self-care for patients at home

Dental Pharmacology: *Dentists oversee the treatment and management of acute and chronic pain and relieving anxiety in connection with dental treatment. Increased awareness of the addiction potential of opioids has resulted in many new laws and guidelines for the prescribing of these medications. Although dentists are not usually involved in the prescribing or dispensing of cannabis products, as health care professionals we should have a working knowledge of these substances. Information presented will include:* The latest biomedical ramifications of addiction/substance, including the disease model of addiction, biopsychosocial predispositions, and genetic susceptibilities ♦ The concepts of tachyphylaxis (drug tolerance), psychological dependence, physical dependence and the drugs used in the short-term treatment of substance abuse detox-withdrawal syndromes ♦ Opioid use and misuse ♦ New guidelines and laws regarding the prescribing of opioids as well as the DEA scheduling of drugs ♦ The nature of cannabinoids, natural and synthetic ♦ CBD and the OTC CBD oil craze ♦ An understanding of CBD labeled products ♦ The dangers of super-high potency marijuana preparations ♦ Cannabinoid drugs and common side effects as well as adverse effects

Surgical Extractions & Simultaneous Bone Grafting: *Understanding the transformation an extraction site undergoes upon removal of a tooth is essential for advancing your restorative outcomes. This course will provide a foundation in understanding how to surgically remove teeth atraumatically to minimize bone loss while learning the vital role biomaterials play in your future implant and/or prosthetic therapy.* **Objectives Include:** Establish an atraumatic technique for surgical extractions ♦ Understand how to counter the significant functional and esthetic challenges tooth removal creates ♦ Know when to utilize specific bone and membrane materials to maximize results

Reimagined Endo: *Minimally invasive, restorative driven, endodontic treatment, has revolutionized the way we save teeth, with long-term successful outcomes. This unique course will help you wade through the latest materials and techniques and highlight what advanced endodontic treatment looks like today. Info will be presented via numerous case studies and interactive discussions of treatment protocols. Actual disciplinary cases of dental boards and endo-related malpractice cases will be presented to help dentists avoid similar issues.* **Learning Objectives Include:** Describe the importance and details of endodontic diagnosis and case selection ♦ List cases that should be referred vs. cases that could be addressed in a GP setting ♦ Procedural errors and their prevention ♦ Diagnosis of cracked teeth and treatment options ♦ Endodontic retreatment vs. implants—when, where and how to decide, Dentin replacement materials and their applications in complex cases ♦ Restoring endodontically treated teeth with bonded core composites

TUITION	6 COURSE SERIES	EACH INDIVIDUAL COURSE
More than 14 days before an event	Dentist: \$549, Staff: \$399	Lecture Dentist: \$149, Staff: \$129
Less than 14 days before an event	Dentist: \$569, Staff: \$419	Lecture Dentist: \$169, Staff: \$149

Courses are 8AM-3PM Pacific Standard time and each course is 7 Live CE Units.

ABOUT US

Esthetic Professionals Dental Education Center strives to provide unparalleled hands-on and clinical education in dentistry.

MENTORSHIP PROGRAMS

Lecture | Demonstration | Hands-on | Clinic | Webinars

COMPREHENSIVE ESTHETIC & RESTORATIVE

START DATE OCTOBER 6

130CE

For over 30 years, this comprehensive program has provided dentists the broad spectrum of information and experience necessary to provide predictable esthetic restorative dentistry in their practices.

[We recommend taking this mentorship first.](#)

ADVANCED ESTHETIC RESTORATIVE & OCCLUSION

START DATE SEPTEMBER 23

140CE

TREAT AN ADVANCED PROSTHODONTIC PATIENT

The primary goal of this mentorship program is to show every dentist how to be successful in diagnosing, staging, and completing the comprehensive restorative cases that every practice contains. Isn't it time you stop neglecting lucrative complex cases? Gain the knowledge necessary to easily plan, treat, and stage cases the average patient can afford.

[Residents should have a solid understanding of all esthetic restorative procedures as a prerequisite.](#)

MASTERING INDIRECT ESTHETIC RESTORATIONS

START DATE OCTOBER 6

106CE

The purpose of the "Mastering Indirect Restorative Mentorship" is to provide a comprehensive curriculum that focuses exclusively on indirect restorative procedures, diagnosis, materials, occlusion, and techniques. All indirect esthetic restorative procedures will be presented in detail for the beginner as well as advanced clinicians. Additional topics will include periodontal procedures that enhance restorative dentistry, implant provisionals, and solving difficult esthetic restorative challenges.

Bruce J. Crispin, DDS, MS, AAACD (Program Director)

2020 AACD EVY Award winner - Excellence in Cosmetic Dentistry Education
