I believe Dr. Maddox is the best lawyer! I've been working with him for more than 10 years. He is very reliable, quick and honest. I believe that he is the best in his profession because he has extensive knowledge regarding both the law and dental aspects of the transactions, which means he can understand the reality of what you are going through. He always looks out for the best interest of his clients. He will defend and protect you like no other.

Hendrick Gonzalez, DDS - 9/25/18

I have used Lee's advice over the last 30 years, starting with reviewing my multiple office leases, associate agreements and finally with establishing a successful partnership agreement. Lee's advice is always fair and I respect his view of creating a "win-win" formula. I have and will continue to recommend his professional advice to all my dental colleagues!

Ari Rosenblatt, DDS, DMD

Dr. Maddox is a consummate professional. From our first discussion, I had the feeling that he was prepared for anything. He mentioned that every transaction is unique and will have its own twists and turns. He emphasized that the sales contract will address most if not all of these unpredictable events. Our sale went sideways at the 11th hour. Lee talked me off the ledge and was able to restructure the deal (at no additional cost) and eventually closed. I would recommend Dr. Maddox's services to anyone in the position of buying or selling a practice.

These Are The Best of Times For Private Practice

Historically, the path to generate a livelihood after dental school was to hang out one's shingle, acquire a practice or find an association. This changed with the advent and growth of Dental Service Organizations. There are now options available that your peers never had. *Strangely, the DSO industry has many believing that the best of times for Private Practice is ending. Not so at all! This is the "Best of Times" for those who wish to excel.* The number of Private Practices is declining rapidly. Couple this with consumers who seek superior customer care and trusted relationships as they maintain their oral health. They will never go to a DSO.

The opportunity to own and operate an Oral Healthcare Center of Excellence has never been greater if you are inclined to muscle-up.
