I believe Dr. Maddox is the best lawyer! I've been working with him for more than 10 years. He is very reliable, quick and honest. I believe that he is the best in his profession because he has extensive knowledge regarding both the law and dental aspects of the transactions, which means he can understand the reality of what you are going through. He always looks out for the best interest of his clients. He will defend and protect you like no other.

Hendrick Gonzalez, DDS - 9/25/18

I have used Lee's advice over the last 30 years, starting with reviewing my multiple office leases, associate agreements and finally with establishing a successful partnership agreement. Lee's advice is always fair and I respect his view of creating a "win-win" formula. I have and will continue to recommend his professional advice to all my dental colleagues!

Ari Rosenblatt, DDS, DMD

Dr. Maddox is a consummate professional. From our first discussion, I had the feeling that he was prepared for anything. He mentioned that every transaction is unique and will have its own twists and turns. He emphasized that the sales contract will address most if not all of these unpredictable events. Our sale went sideways at the 11th hour. Lee talked me off the ledge and was able to restructure the deal (at no additional cost) and eventually closed. I would recommend Dr. Maddox's services to anyone in the position of buying or selling a practice.

These Are The Best of Times For Private Practice

Historically, the path to generate a livelihood after dental school was to hang out one's shingle, acquire a practice or find an association. This changed with the advent and growth of Dental Service Organizations. There are now options available that your peers never had. *Strangely, the DSO industry has many believing that the best of times for Private Practice is ending. Not so at all! This is the "Best of Times" for those who wish to excel.* The number of Private Practices is declining rapidly. Couple this with consumers who seek superior customer care and trusted relationships as they maintain their oral health. They will never go to a DSO.

The opportunity to own and operate an Oral Healthcare Center of Excellence has never been greater if you are inclined to muscle-up.

Professional Practice Sales Celebrates Fifty-Seven Years Selling California Dental Practices

TODAY'S MARKETPLACE

There are more practices "For Sale"
now than at any previous time!

There are fewer Buyers in the Marketplace.

It is a Buyers' Market, not a Sellers' Market
unless you own a highly targeted practice with DSOs
knocking on your door, or a busy out-of-network
practice located in a highly coveted zip code.

OBSERVATION

The asking prices on many
"For Sale" practices are inflated.

SUMMARY

A glut of "For Sale" practices, fewer Buyers and inflated
asking prices. Logic and common sense are lacking.

THE PPS WAY

PPS is selective in our engagements. A proper analysis is
performed in order to truly understand each practice and to
determine the appropriate price based upon those variables
associated with that practice. When we finally have the price
discussion, this becomes a fact-based discussion. Having
properly educated Clients with attainable expectations
makes for a great partnership in these sale endeavors.

Further, a complete Toolbox is assembled before a
practice is marketed. PPS subscribes to the tenet that the
heavy lifting needs to be done on the front end. This takes
considerable time. But it is the best investment any
Seller can make before their practice goes to Market.
