

The logo features the text "XCEL SEMINARS" in a bold, black, serif font, centered within a light yellow oval. This oval is framed by a thick, yellow rope with a black outline, which is knotted at the top and bottom. The entire design is set against a solid brown background.

XCEL SEMINARS

21st Annual Comprehensive Dental Skills Series

Fulfill
NEW CA
MANDATORY
OPIOID
REQUIREMENT
w/Feb. 5
Webinar!

NOW as a LIVE WEBINAR Series w/LIVE CE Units

Feb. 5, 2023: Comprehensive Pain Management – Including Updates in Local Anesthesia & Responsibilities & Requirements of Prescribing Schedule II Opioid Drugs (now MANDATORY for ALL CA license renewals & can only be given by pre-approved CE providers)

Dr. Patrick Quaranta is back by popular demand for a new subject! He is a former professor of Oral Medicine at UMDNJ-New Jersey Dental School.

Feb. 26: Fixed & Removable Prosthodontics- Including Building Your Practice with Dentures

Dr. Ian Shuman is past CE Editorial Director for The Dental Academy of Continuing Education, a Pierre Fauchard Academy Fellow & named a Dentistry Today magazine Top Clinician in Continuing Education.

March 26: OSHA, Infection Control & the CA Dental Practice Act (including the NEW CA MANDATORY Ethics segment, which can only be given by CA Board pre-approved CE providers)

Leslie Canham, RDA, lectures nationwide using her unique humor and cutting edge information to present tough subject matter in an interesting way.

April 30: Establish your Foundation; Surgical Extractions with Simultaneous Bone Grafting

Dr. Sam Shamardi is a Diplomate of the American Board of Periodontology and Implant Surgery and practices full-time in Boston while teaching part-time at the Harvard Division of Periodontics and lecturing nationally and internationally.

May 21: Updates in Pediatric Dentistry: Including Practical Restorative Pearls & Treating Patients with Special Healthcare Needs

Dr. Lance Kisby FASDC, FAGD, FAAPD, MAGD, has practiced & taught for 35 years, started two pedo residency programs and edited the Journal of Pediatric Dentistry.

June 25: Introduction to Advanced Adhesion Dentistry

Dr. Troy Schmedding lectures internationally, is a Diplomate with the American Board of Cosmetic & Esthetic Dentistry & one of less than 500 dentists worldwide to achieve accreditation status in the American Academy of Cosmetic Dentistry.

ALL LIVE WEBINARS ARE ON SUNDAYS, 8 AM - 3 PM PACIFIC TIME AND 7 LIVE CE UNITS - TUNE IN AND ENJOY OUR COURSES FROM ANYWHERE!

\$149 FOR EACH LECTURE, OR THE ENTIRE 6 COURSE WEBINAR SERIES, 42 CA APPROVED LIVE CES, FOR ONLY \$549 (THAT IS LESS THAN THE COST OF FOUR COURSES)!!

**\$199
FOR BONUS
CBCT
WEBINAR!**

July 16: Conebeam CT Imaging in Dentistry Including CT-Guided Dental Implant Surgery

Dr. Jay Reznick is a Diplomate of the American Board of Oral and Maxillofacial Surgery & was the first specialist in the U.S. to integrate CBCT and CAD/CAM in his practice. He has published extensively & taught dentists about basic and advanced implant dentistry, surgery, and 3D digital technology for the last 2 decades.

COURSE TOPICS

Comprehensive Pain Management and Prescribing Opioids: *More than ever, dental patients are expecting a pain free and comfortable treatment & post-op experience. This program will provide participants with a review of the relevant anatomical structures and neurophysiology involved in obtaining local anesthesia and pain control in dentistry. It also includes three hours of content specifically related to Addition Training & the Responsibilities & Requirements of Prescribing Schedule II Opioid Drugs, including:* Best Practices for Pain Management in Dentistry ♦ The latest local anesthetic preparations and products as well as a "head to head" comparison of the currently available local anesthetic agents ♦ Indications for and safety of vasoconstrictors in local anesthetic agents ♦ Anatomical Considerations & Local Anesthetic Dosages ♦ Dental Office Procedures for Managing Vulnerable or Substance Use Disorder Patients ♦ Regulatory Requirements for Prescribers and Dispensers-New guidelines and laws regarding the prescribing of opioids as well as the DEA scheduling of drugs

Fixed and Removable Prosthodontics: *This course will give your office the very latest in restorative techniques for your patients, including:* Identify current trends in the denture market ♦ Reasons for an ill-fitting denture ♦ Discuss the options available for interim denture comfort ♦ All the steps involved in denture fabrication ♦ Understand the H&H impression technique ♦ Creating a fixed provisional chair side ♦ The newest composite resin options

OSHA, Infection Control and the CA Dental Practice Act: *This course will not only entertain you and your staff but will enable attendees to meet license renewal requirements and state and federal requirements for OSHA Bloodborne Pathogen training, and Infection Control. The California Dental Practice Act segment will include:* Basic requirements of the Dental Board (including, the new CA state mandated ethics content), how to avoid Dental Board problems AND present actual case studies of dentists subjected to Board discipline.

Surgical Extractions & Simultaneous Bone Grafting: *Understanding the transformation an extraction site undergoes upon removal of a tooth is essential for advancing your restorative outcomes. This course will provide a foundation in understanding how to surgically remove teeth atraumatically to minimize bone loss while learning the vital role biomaterials play in your future implant and/or prosthetic therapy. Objectives Include:* Establish an atraumatic technique for surgical extractions ♦ Understand how to counter the significant functional and esthetic challenges tooth removal creates ♦ Know when to utilize specific bone and membrane materials to maximize results

Pediatric Restorative Pearls & Special Patient Care: The restorative segment will discuss caries formation and their diagnosis, how to do Slot preps for minimally invasive dentistry and also how to treat many caries with SDF and vital pulp therapy techniques. Participants will also learn the indications and the steps to do a Hall Technique crown. Special patient care topics include treating behavioral and psychological issues, neurological disorders, blood and endocrine disorders, pre-term births and cleft lip and cleft palate. Content will also include the relationship between your patients' medications and their increased risk for dental related issues and when and how to modify behavior management techniques to the patient's specific medical issues.

Advanced Adhesion Dentistry: *This course presents advanced adhesion techniques & materials supported by research that minimize healthy tissue removal & maximize bond strengths. These techniques can be used daily & solve virtually every problem with direct composite & indirect restorations. We will also review restorative trends that can negatively affect patient satisfaction & outcomes. Topics include:* Immediate dentin sealing- the most important restorative dentistry improvement & why it dramatically increases dentin bond strengths for all restorations ♦ A minimally invasive approach to tooth prep ♦ Elevating deep margins with direct composite ♦ Temporization of minimally prepared teeth ♦ Treating cracks in dentin

3-D Radiographic Imaging in Dentistry Including CT-Guided Dental Implant Surgery (NOT Included in the Series): *Cone Beam technology has brought the power of 3D imaging into the dental office. This course will provide a comprehensive introduction to CT Scans, Cone Beam Volumetric Imaging & its dental applications, imaging systems in the US Market, and CT radiographic anatomy. CT-Guided dental implant planning and surgical techniques also provide a less invasive surgical procedure, awareness of anatomical challenges ahead of time, increased precision of implant placement, reduced surgical time, and enhanced patient recovery. Course Objectives include:* Be able to better interpret 3-D radiographic images of the oral and maxillofacial region ♦ Know the applications for which CBCT is indicated ♦ Be able to manipulate 3-D dental images on a PC computer ♦ Understand how 3D technology is used to improve the accuracy and consistency of dental implant placement ♦ Be able to discuss the work flow from diagnostic study models to surgery ♦ Become familiar with 3D implant planning software ♦ Understand why 3D CT-guided surgery is the future of implantology

| TUITION | 6 COURSE SERIES | EACH INDIVIDUAL COURSE |
|-----------------------------------|---|--|
| More than 14 days before an event | Dentist: \$549, Staff: \$399 \$199 to add CBCT Webinar to the Series | Lecture Dentist: \$149, Staff: \$129 \$299 for CBCT Webinar |
| Less than 14 days before an event | Dentist: \$569, Staff: \$419 \$219 to add CBCT Webinar to the Series | Lecture Dentist: \$169, Staff: \$149 \$319 for CBCT Webinar |

Courses are 8AM-3PM Pacific Standard time and each course is 7 Live CE Units.
