**\$299** FOR THE 7/17 CBCT COURSE OR THE ENTIRE  
3 COURSE WEBINAR SERIES, 21 CA APPROVED  
LIVE CES, FOR ONLY **\$399**

## COURSE TOPICS

**Pediatric Restorative Pearls & Special Patient Care:** The restorative segment will discuss caries formation and their diagnosis, how to do Slot preps for minimally invasive dentistry and also how to treat many caries with SDF and vital pulp therapy techniques. Participants will also learn the indications and the steps to do a Hall Technique crown. Special patient care topics include treating behavioral and psychological issues, neurological disorders, blood and endocrine disorders, pre-term births and cleft lip and cleft palate. Content will also include the relationship between your patients' medications and their increased risk for dental related issues and when and how to modify behavior management techniques to the patient's specific medical issues.

**Advanced Adhesion Dentistry:** *This course presents advanced adhesion techniques & materials supported by research that minimize healthy tissue removal & maximize bond strengths. These techniques can be used daily & solve virtually every problem with direct composite & indirect restorations. We will also review restorative trends that can negatively affect patient satisfaction & outcomes.*

**Topics include:** Immediate dentin sealing- the most important restorative dentistry improvement & why it dramatically increases dentin bond strengths for all restorations ♦ A minimally invasive approach to tooth prep ♦ Elevating deep margins with direct composite ♦ Temporization of minimally prepared teeth ♦ Treating cracks in dentin

**3-D Radiographic Imaging in Dentistry Including CT-Guided Dental Implant Surgery (Included in the Series):** *Cone Beam technology has brought the power of 3D imaging into the dental office. This course will provide a comprehensive introduction to CT Scans, Cone Beam Volumetric Imaging & its dental applications, imaging systems in the US Market, and CT radiographic anatomy. CT-Guided dental implant planning and surgical techniques also provide a less invasive surgical procedure, awareness of anatomical challenges ahead of time, increased precision of implant placement, reduced surgical time, and enhanced patient recovery.*

**Course Objectives include:** Be able to better interpret 3-D radiographic images of the oral and maxillofacial region ♦ Know the applications for which CBCT is indicated ♦ Be able to manipulate 3-D dental images on a PC computer ♦ Understand how 3D technology is used to improve the accuracy and consistency of dental implant placement ♦ Be able to discuss the work flow from diagnostic study models to surgery ♦ Become familiar with 3D implant planning software ♦ Understand why 3D CT-guided surgery is the future of implantology

TUITION	3 COURSE SERIES	EACH INDIVIDUAL COURSE
More than 14 days before an event	Dentist: \$399, Staff: \$299	May - June Lectures Dentist: \$149, Staff: \$129 \$299 for CBCT Webinar
Less than 14 days before an event	Dentist: \$419, Staff: \$319	May - June Lectures Dentist: \$169, Staff: \$149 \$319 for CBCT Webinar

### Daniel Portal

Daniel Portal is founder and director of Portal Digital Dentistry a company that has trained hundreds of dental professionals around the world.

As former Senior Trainer for EXOCAD North America, he was responsible for educating EXOCAD resellers,

labs, and dentists in the western hemisphere. In this role, he traveled extensively to teach lectures and demonstrations at trade shows in Germany, Canada, Argentina, Colombia, Brazil, Spain, Mexico and many other countries.

Daniel has 12 years of experience using most CAD/CAM systems. He gained this experience from working in different labs around the country, including: Arrowhead in Utah, ZahnTechnique in Florida, Irwin Dental in Louisiana among others. Now, as the first EXOCAD-certified trainer in the Americas, Daniel continues to train doctors and technicians on how to implement the software into their digital workflows.

# Adult Oral Sedation Certification COURSE

## "Adding oral sedation to my skill set transformed my practice."

This course changed everything, I am now treating phobic patients who have neglected their teeth for years and the new patient referrals keep coming."

— John Magnis DDS, Oxnard, CA

- Expand your practice/patient base by offering oral sedation for adults
- Preserve fearful adult patients and related productivity
- Perform dental work in fewer appointments
- Perform longer treatment sessions comfortably
- Will teach you SAFE guidelines for oral sedation for adults
- LIVE patient demonstration
- **California Dental Board approved course**
- **Course meets ADA guidelines; qualifies for most States for Oral (minimal) sedation permit\***

\*Check with your individual state for requirements for issuing an oral (minimal) sedation permit

### Periklis Proussaefs DDS, MS

is a prosthodontist and Associate Professor at Loma Linda University. Dr. Proussaefs has received formal training in all forms of sedation since 1997. He has been providing dental care under I.V. (moderate) or oral (minimal) sedation. His seminars focus on patient safety, airway management, monitoring,

and handling emergencies. The course involves lecturing, hands-on training on a manikin, and real patient experience.

"Dear Dr. Periklis Proussaefs, Thank you for the wonderful course. I was doing conscious sedation for many years and took several renewal courses. Yours was indubitably the best. Very informative. Extremely to the point. Clear and very captivating. I learned a lot this Sunday and started work on Monday refreshed, energetic, and eager to use all my new knowledge. I strongly recommend this course to doctors who are willing to introduce sedation to their practice or the ones who need renewal. Thank you."

—Anna Durkin DDS, general dentist, San Marcos, CA

"A definite must take class for any dentist to further your career. You will learn a lot." —Kevin Chou DDS, general dentist, Bakersfield.

Continuing Education Recognition Program

# DONAHUE HORROW

# EXPERIENCE MATTERS.

---

## DENTISTS: DISABILITY CLAIM UNFAIRLY DENIED?

Dental professionals are constantly using their hands and arms in awkward postures, static positions and repetitive motions. The difficult positions lead, understandably, to musculoskeletal injuries and chronic pain in the shoulders, back and hands. And, like any individual, dentists are subject to injuries and diseases outside the workplace that can prevent them from working altogether.

When a disability insurance claim is unfairly denied, it can cause financial devastation. At Donahue & Horrow LLP, our attorneys strive to ensure that our clients are awarded all of their benefits. Our firm is staffed with highly experienced attorneys who provide skilled legal advocacy. We know how to help all dental professionals. We understand the stress and frustration of a denied claim. We know how to get claims paid.

We know the clock starts ticking as soon as the denial is received. We take action immediately. We collect all information needed to overturn the denial. We understand how important it is for dentists to secure their disability insurance benefits. We fight aggressively on behalf of our clients so they can get what they rightfully deserve.

"I found this law firm to be professional, courteous, and very knowledgeable in disability law. The attorneys made clear all my rights under the law, what to expect during the process, and explained my options available. The firm was quick to answer my calls, and prompt in completing all the required paperwork. Michael Horrow did what my previous attorneys could not and got me my disability payments guaranteed for life. I would recommend Donahue & Horrow without hesitation." -J.G.

## MICHAEL B. HORROW

Michael B. Horrow is a highly regarded attorney with a focus on insurance claim disputes, specifically disability insurance benefits. He is a recognized leader in this field and has been invited to speak at various national conventions to share his knowledge and experience on fighting disability insurance companies. With a proven track record of success, he is dedicated to helping individuals and businesses navigate the complexities of insurance law.

## NICHOLE D. PODGURSKI

Nichole D. Podgurski is an experienced attorney who specializes in insurance law, with a particular emphasis on insurance coverage disputes. She is dedicated to helping her clients obtain the coverage they deserve, and has a strong track record of success in negotiating with insurance companies. With a deep understanding of insurance law and a passion for helping people, she is a trusted advocate for individuals and businesses alike.

**Donahue & Horrow LLP  
secures \$1M settlement for  
periodontal surgeon after  
bad faith actions by  
insurance company.**

Despite efforts to rebuild strength in his hand, our client was unable to return to work. Donahue & Horrow LLP filed a lawsuit seeking benefits and damages for bad faith, and during depositions, a testimony supported the insurance company was acting in bad faith. A mediation resulted in a settlement that provided a substantial sum to our client that allowed him to move forward without worrying about lost income or ongoing paperwork for benefits.

Our client suffered a fall that caused pain and numbness in his hands and wrists, making it unsafe to continue practicing. He filed a disability benefits claim, but the insurance company refused to pay. Donahue & Horrow LLP filed a lawsuit for breach of contract and insurance bad faith, leading to a confidential settlement that provided financial security for our client who could no longer work as a dentist.
