Units!

NOW as a LIVE WEBINAR Series w/LIVE CE Units

June 25, 2023: Introduction to Advanced Adhesion Dentistry

Dr. Troy Schmedding lectures internationally, is a Diplomate with the American Board of Cosmetic & Esthetic Dentistry & one of less than 500 dentists worldwide to achieve accreditation status in the American Academy of Cosmetic Dentistry.

July 16: Cone Beam CT Imaging in Dentistry Including CT-Guided Dental Implant Surgery

Dr. Jay Reznick is a Diplomate of the American Board of Oral and Maxillofacial Surgery & was the first specialist in the U.S. to integrate CBCT and CAD/CAM in his practice. He has published extensively & taught dentists about basic and advanced implant dentistry, surgery, and 3D digital technology for the last 2 decades.

July 30: Dental Pharmacology and the Responsibilities & Requirements of Prescribing Opioids (this class meets CA Opioid renewal requirements & is now an 8AM-4PM, 8CE class because of the new federal DEA opioid requirement)

Dr. Patrick Quaranta is a renowned expert, lecturing extensively in pain management, pharmacology and oral medicine. He is a former professor of Oral Medicine at UMDNJ-New Jersey Dental School.

22 CA APPROVED LIVE CEs, FOR ONLY \$399!**

COURSE TOPICS

Advanced Adhesion Dentistry: *This course presents advanced adhesion techniques & materials supported by research that minimize healthy tissue removal & maximize bond strengths. These techniques can be used daily & solve virtually every problem with direct composite & indirect restorations. We will also review restorative trends that can negatively affect patient satisfaction & outcomes.*

Topics include: Immediate dentin sealing- the most important restorative dentistry improvement & why it dramatically increases dentin bond strengths for all restorations ♦ A minimally invasive approach to tooth prep ♦ Elevating deep margins with direct composite ♦ Temporization of minimally prepared teeth ♦ Treating cracks in dentin

3-D Radiographic Imaging in Dentistry Including CT-Guided Dental Implant Surgery (Included in the Series): *Cone Beam technology has brought the power of 3D imaging into the dental office. This course will provide a comprehensive introduction to CT Scans, Cone Beam Volumetric Imaging & its dental applications, imaging systems in the US Market, and CT radiographic anatomy. CT-Guided dental implant planning and surgical techniques also provide a less invasive surgical procedure, awareness of anatomical challenges ahead of time, increased precision of implant placement, reduced surgical time, and enhanced patient recovery. Course Objectives include:* Be able to better interpret 3-D radiographic images of the oral and maxillofacial region ♦ Know the applications for which CBCT is indicated ♦ Be able to manipulate 3-D dental images on a PC computer ♦ Understand how 3D technology is used to improve the accuracy and consistency of dental implant placement ♦ Be able to discuss the work flow from diagnostic study models to surgery ♦ Become familiar with 3D implant planning software ♦ Understand why 3D CT-guided surgery is the future of implantology

Dental Pharmacology and Prescribing Opioids (8am - 4pm and 8CEs): *Dentists oversee the treatment and management of acute and chronic pain and relieve anxiety in connection with dental treatment. Increased awareness of the addiction potential of opioids has resulted in many new laws and guidelines for the prescribing of these medications. Although dentists are not usually involved in the prescribing or dispensing of cannabis products, as healthcare professionals we should also have a working knowledge of these substances. Information presented will include:* Practices for Pain Management in Dentistry ♦ Dental Office Procedures for Managing Vulnerable or Substance Use Disorder Patients ♦ Regulatory Requirements for Prescribers and Dispensers-New guidelines and laws regarding the prescribing of opioids as well as the DEA scheduling of drugs ♦ The latest biomedical ramifications of addiction/substance ♦ The concepts of tachyphylaxis (drug tolerance), psychological dependence, physical dependence and the drugs used in the short-term treatment of substance abuse detox-withdrawal syndromes ♦ The nature of cannabinoids, natural and synthetic ♦ CBD and the OTC CBD oil craze ♦ An understanding of CBD labeled products ♦ The dangers of super-high potency marijuana preparations ♦ Cannabinoid drugs and common side effects as well as adverse effects

TUITION	3 COURSE SERIES	EACH INDIVIDUAL COURSE
More than 14 days before an event	Dentist: \$399, Staff: \$299	June 25 & July 30 Lectures Dentist: \$149, Staff: \$129 \$299 for July 16 CBCT Webinar
Less than 14 days before an event	Dentist: \$419, Staff: \$319	June 25 & July 30 Lectures Dentist: \$169, Staff: \$149 \$319 for July 16 CBCT Webinar

Courses are 8AM-3PM Pacific Standard time and each course is 7 Live CE Units.

EXOCAD Design in-person Workshops: From Beginners to Advanced Level

Introduction to EXOCAD Design

- Basic single crown and bridge
- Facial or custom cut-back
- Implant crowns / bridges
- Custom abutments ~ implant bridges
- Inlays ~ onlays ~ veneers
- Digital denture design
- Introduction to **Digital Smile** creator
- By covering the basics, participants can advance to the next level

"Introduction to EXOCAD Design"

June 9 – 10, 2023 ▪ **\$1,865**

Advanced EXOCAD Design for All-on-X

- In-depth all-on-X design principles
- Design full arch zirconia prosthesis on Titanium bar
- Direct to MUA design
- Design on Ti-bases
- Thimble design
- Merge data with photogrammetry to design a fixed prosthesis
- Implement Digital Smile Creator on full arch implant restorations

"Advanced EXOCAD design for All-on-X"

August 18 – 19, 2023 ▪ **\$1,865**

**BOTH Workshops —
Comprehensive Package: \$3,500**

EACH WORKSHOP

**16 CE Hour

Daniel Portal

Daniel Portal is founder and director of Portal Digital Dentistry a company that has trained hundreds of dental professionals around the world.

As former Senior Trainer for EXOCAD North America, he was responsible for educating EXOCAD resellers,

labs, and dentists in the western hemisphere. In this role, he traveled extensively to teach lectures and demonstrations at trade shows in Germany, Canada, Argentina, Colombia, Brazil, Spain, Mexico and many other countries.

Daniel has 12 years of experience using most CAD/CAM systems. He gained this experience from working in different labs around the country, including: Arrowhead in Utah, ZahnTechnique in Florida, Irwin Dental in Louisiana among others. Now, as the first EXOCAD-certified trainer in the Americas, Daniel continues to train doctors and technicians on how to implement the software into their digital workflows.

Adult Oral Sedation Certification COURSE

"Adding oral sedation to my skill set transformed my practice."

This course changed everything, I am now treating phobic patients who have neglected their teeth for years and the new patient referrals keep coming."

— John Magnis DDS, Oxnard, CA

- Expand your practice/patient base by offering oral sedation for adults
- Preserve fearful adult patients and related productivity
- Perform dental work in fewer appointments
- Perform longer treatment sessions comfortably
- Will teach you SAFE guidelines for oral sedation for adults
- LIVE patient demonstration
- **California Dental Board approved course**
- **Course meets ADA guidelines; qualifies for most States for Oral (minimal) sedation permit***

*Check with your individual state for requirements for issuing an oral (minimal) sedation permit

Periklis Proussaefs DDS, MS

is a prosthodontist and Associate Professor at Loma Linda University. Dr. Proussaefs has received formal training in all forms of sedation since 1997. He has been providing dental care under I.V. (moderate) or oral (minimal) sedation. His seminars focus on patient safety, airway management, monitoring,

and handling emergencies. The course involves lecturing, hands-on training on a manikin, and real patient experience.

"Dear Dr. Periklis Proussaefs, Thank you for the wonderful course. I was doing conscious sedation for many years and took several renewal courses. Yours was indubitably the best. Very informative. Extremely to the point. Clear and very captivating. I learned a lot this Sunday and started work on Monday refreshed, energetic, and eager to use all my new knowledge. I strongly recommend this course to doctors who are willing to introduce sedation to their practice or the ones who need renewal. Thank you."

—Anna Durkin DDS, general dentist, San Marcos, CA

"A definite must take class for any dentist to further your career. You will learn a lot." —Kevin Chou DDS, general dentist, Bakersfield.

SEDATION CERTIFICATION
