## COURSE TOPICS

**Pediatric Dentistry for the Modern GP Practice:** *Dr. Johnson will cover a number of procedures & techniques in his case-based program. He also teaches how to use social media to leverage your services into a better practice. Topics include:* Properly diagnose the pulpal & periapical status of primary teeth with deep caries lesions ♦ When & how to use the Hall technique-where dental decay is sealed within a tooth using a either a pre-fab crown or a restorative material ♦ Indications and usages of stainless steel crowns ♦ The Who, What, Where, When, Why's of SDF and GI treatments on both primary and permanent teeth ♦ Understand and define the three aspects of an inbound marketing campaign and implementing marketing strategies to engage with current and potential patients.

**Phenomenal Restorations - Managing Edentulous Sites in the Esthetic Zone:** *This course will present options for the successful restoration of anterior edentulous sites, discussing step-by-step methods to fabricate resin bonded temporary splints and implant provisionals. Content includes:* Treatment plan & manage an existing or future edentulous site ♦ Options to provisionalize an anterior edentulous site ♦ Manage soft tissue to yield the most esthetic result ♦ How the anatomy of underlying osseous landmarks determines the final outcome **Restoring Endodontically Treated Teeth - This segment offers a systematic approach to restore endodontically treated teeth, including minimally invasive concepts, preserving the bio-rim & determining when to use a post. Objectives include:** Evaluating what is remaining before & after endo ♦ Prevent coronal micro-leakage ♦ Options for post and cores ♦ Assessing marginal ridge fractures

**OSHA, Infection Control & the CA Dental Practice Act:** This course will not only entertain you and your staff but will enable attendees to meet license renewal requirements and state and federal requirements for OSHA Bloodborne Pathogen training, and Infection Control. The California Dental Practice Act segment will include: Basic requirements of the Dental Board (including, the new CA state mandated ethics content), how to avoid Dental Board problems AND Present actual case studies of dentists subjected to Board discipline.

**Smile Design - The Intricate Art of Designing Smiles:** *We will be showcasing how implementing these seven core principles can not only transform smiles but also pave the way for practice success and financial growth. Learning Objectives Include:* Learn the 7 deadly sins of your patient's smile ♦ Understand today's materials (direct & indirect) and how to maximize them ♦ Anterior aesthetic injection molding ♦ Ultra-conservative veneer preparation that delivers ♦ Convert your bread-and-butter patients to high end – high dollar dentist

**Building your practice with Aligner Orthodontics for Children and Adults:** *This course covers orthodontic principles & clear aligner therapies to enable a provider to begin aligner treatment for their patients. Live typodont demonstration (via video) will show bonding engagers and interproximal reduction, demonstrating the techniques they will need to utilize. It also covers business skills necessary to incorporate clear aligners into a practice & common treatment modalities. Objectives Include:* Understand basic principles of orthodontic tooth movement & clear aligner therapy ♦ Exposure records necessary to submit cases, deliver aligners & follow-up ♦ Understanding the normal eruption sequence of the adult dentition ♦ Conditions that benefit from early orthodontic treatment & potential complications if left untreated ♦ Early orthodontic treatment modalities ♦ How to discuss ortho treatment needs with patients & caregivers

**Introduction to Dental Sleep Medicine (not included in the series):** *Left untreated, sleep apnea can cause high blood pressure, stroke, heart conditions and diabetes. Dentists have a unique opportunity to detect and treat this debilitating condition. This course is based on real-life techniques that have led to successful results with OSA therapy, beyond just the science, implementing a system that actually works. Teaching four steps to successful implementation – Awareness, Diagnosis, Financials, Treatment. You will leave this seminar with confidence & understand:* Overview of sleep and sleep apnea ♦ Overview of health consequences of untreated sleep apnea ♦ Creating awareness in the hygiene department ♦ How to get a diagnosis from a sleep physician ♦ Fundamentals of analyzing a sleep study ♦ Overview of treatment options ♦ How an oral appliance works and oral appliance selection ♦ Appointment by appointment treatment workflow

# Adult Oral Sedation Certification COURSE

## "Adding oral sedation to my skill set transformed my practice."

This course changed everything, I am now treating phobic patients who have neglected their teeth for years and the new patient referrals keep coming."

— John Magnis DDS, Oxnard, CA

- Expand your practice/patient base by offering oral sedation for adults
- Preserve fearful adult patients and related productivity
- Perform dental work in fewer appointments
- Perform longer treatment sessions comfortably
- Will teach you SAFE guidelines for oral sedation for adults
- LIVE patient demonstration
- **California Dental Board approved course**
- **Course meets ADA guidelines; qualifies for most States for Oral (minimal) sedation permit\***

\*Check with your individual state for requirements for issuing an oral (minimal) sedation permit

### Periklis Proussaefs DDS, MS

is a prosthodontist and Associate Professor at Loma Linda University. Dr. Proussaefs has received formal training in all forms of sedation since 1997. He has been providing dental care under I.V. (moderate) or oral (minimal) sedation. His seminars focus on patient safety, airway management, monitoring,

and handling emergencies. The course involves lecturing, hands-on training on a manikin, and real patient experience.

"Dear Dr. Periklis Proussaefs, Thank you for the wonderful course. I was doing conscious sedation for many years and took several renewal courses. Yours was indubitably the best. Very informative. Extremely to the point. Clear and very captivating. I learned a lot this Sunday and started work on Monday refreshed, energetic, and eager to use all my new knowledge. I strongly recommend this course to doctors who are willing to introduce sedation to their practice or the ones who need renewal. Thank you."

—Anna Durkin DDS, general dentist, San Marcos, CA

"A definite must take class for any dentist to further your career. You will learn a lot." —Kevin Chou DDS, general dentist, Bakersfield.

# Autologous blood concentrates (PRP, PRF, i-PRF).

## LIVE PATIENT DEMONSTRATION and laboratory hands-on practice WORKSHOP

The Blood concentrates workshop involves:

- Lecturing on the biologic principles for implementing autologous blood concentrates
- Review current literature on PRP, APRF, I-PRF etc.
- Review of the advantages and limitations of using autologous blood concentrates
- Review of surgical solutions when using PRFS
- **LIVE PATIENT DEMONSTRATION**
- **LABORATORY HANDS-ON EXPERIENCE** drawing blood from a mannequin (and from each other-optional)

### Periklis Proussaefs DDS, MS

Dr. Proussaefs is a prosthodontist and Associate Professor at Loma Linda University. He is the founder of the California Institute of Dental Education. He has published over 55 peerreviewed articles related to implant dentistry. Most of his award-winning publications involve bone grafting and alveolar ridge augmentation techniques. Dr Proussaefs has been editorial board

member in several scientific journals with high impact factor. He is one of the first published authors back in 2001 in topics related to utilizing autologous blood concentrates in conjunction with bone grafting procedures. His seminars have an evidence-based approach enriched with his 20+ years of experience in advanced implant dentistry

## **MICHAEL KOWALSKI DDS JD**

Michael Kowalski is a practicing attorney with the Law Office of Michael Kowalski in Pleasanton, California representing dental professionals for over 25 years. Dr. Kowalski earned a B.A. in Psychology with a Minor in Chemistry. He then obtained his D.D.S. and Bachelor of Science in Dental Materials degrees from the University of California, San Francisco School of Dentistry. Dr. Kowalski obtained his J.D. degree from Santa Clara University School of Law. He has lectured and authored numerous peer reviewed professional journal articles and textbook chapters in the areas of business law, contracts, risk management, professional liability and dental licensing issues. This mandatory course will serve as a guide for dentists, registered dental hygienists and other dental health care providers concerning the rules and regulations that govern the safe and legal practice of dentistry in accordance with the California Dental Practice Act.

## **MARC R.LEFFLER DDS ESQ**

Dr. Marc Leffler received his D.D.S. degree from Columbia University, after which he completed residency training in oral and maxillofacial surgery at Bellevue Hospital Center/New York University, subsequently becoming board-certified in oral and maxillofacial surgery. Dr. Leffler then received his law degree from New York Law School, serving as a member and editor of the Law Review, and went on to practice trial law in New York, representing dentists and dental specialists in dental malpractice litigation, dental board disciplinary actions, and peer review proceedings. Outside of professional activities, he serves as a United States Coast Guard Auxiliary Flotilla Commander and a Flotilla Staff Officer. After representing MedPro's insureds as an attorney for years, he joined MedPro as an oral surgery and dental consultant prior to working in his current position as Dental Risk Solutions Lead. Dr. Leffler regularly provides closed malpractice case study articles, known as Malpractice Minutes, which discuss underlying case facts, the litigation events, and a series of risk management takeaways; these are sent to MedPro insureds, dental students, and specialty residents. Additionally, Dr. Leffler has provided risk management presentations to student groups and dental associations. He works closely with MedPro's dental risk team to serve the risk needs of insureds. Risk Solutions is an integral commitment of MedPro.

## **MANOLITA ABBY TEH DMD**

Dr The has more than 30 years' experience in the dental field. Dr Teh is teaching at Fullerton Dental Assistant School and Downey Unified School District (Downey Adult School) as instructor. Dr The is also BLS Instructor from American Heart Association. Currently member of ADAA (American Dental Assistant Association), CTA (California Teacher Association), table clinic judge in CDA and program director of Fullerton Dental Assistant for continuing education specializing on Infection Control and Dental Practice Act. Dr Teh is former Dental Consultant and Subject Matter Expert on Curriculum Evaluation for RDA Exam for the Dental Board of California. Infection Control Outline: Legal and ethical aspect of infection control procedures. Terms and protocols specified in the regulations of the board regarding the minimum standards for infection control. Sharp management, Waterline maintenance, Regulatory and non-regulatory waste management, California Code of Regulation, Title 16, Section 1005 will be covered in its entirety.
