SERIES, 35 CA APPROVED LIVE CES, FOR ONLY \$549
(THAT IS LESS THAN THE COST OF FOUR COURSES)!!**

COURSE TOPICS

Phenomenal Restorations - Managing Edentulous Sites in the Esthetic Zone: *This course will present options for the successful restoration of anterior edentulous sites, discussing step-by-step methods to fabricate resin bonded temporary splints and implant provisionals. Content includes:* Treatment plan & manage an existing or future edentulous site ♦ Options to provisionalize an anterior edentulous site ♦ Manage soft tissue to yield the most esthetic result ♦ How the anatomy of underlying osseous landmarks determines the final outcome **Restoring Endodontically Treated Teeth - This segment offers a systematic approach to restore endodontically treated teeth, including minimally invasive concepts, preserving the bio-rim & determining when to use a post. Objectives include:** Evaluating what is remaining before & after endo ♦ Prevent coronal micro-leakage ♦ Options for post and cores ♦ Assessing marginal ridge fractures

OSHA, Infection Control & the CA Dental Practice Act: This course will not only entertain you and your staff but will enable attendees to meet license renewal requirements and state and federal requirements for OSHA Bloodborne Pathogen training, and Infection Control. The California Dental Practice Act segment will include: Basic requirements of the Dental Board (including, the new CA state mandated ethics content), how to avoid Dental Board problems AND Present actual case studies of dentists subjected to Board discipline.

Smile Design - The Intricate Art of Designing Smiles: *We will be showcasing how implementing these seven core principles can not only transform smiles but also pave the way for practice success and financial growth. Learning Objectives Include:* Learn the 7 deadly sins of your patient's smile ♦ Understand today's materials (direct & indirect) and how to maximize them ♦ Anterior aesthetic injection molding ♦ Ultra-conservative veneer preparation that delivers ♦ Convert your bread-and-butter patients to high end – high dollar dentist

Building your practice with Aligner Orthodontics for Children and Adults: *This course covers orthodontic principles & clear aligner therapies to enable a provider to begin aligner treatment for their patients. Live typodont demonstration (via video) will show bonding engagers and interproximal reduction, demonstrating the techniques they will need to utilize. It also covers business skills necessary to incorporate clear aligners into a practice & common treatment modalities. Objectives Include:* Understand basic principles of orthodontic tooth movement & clear aligner therapy ♦ Exposure records necessary to submit cases, deliver aligners & follow-up ♦ Understanding the normal eruption sequence of the adult dentition ♦ Conditions that benefit from early orthodontic treatment & potential complications if left untreated ♦ Early orthodontic treatment modalities ♦ How to discuss ortho treatment needs with patients & caregivers

Introduction to Dental Sleep Medicine (included in the series): *Left untreated, sleep apnea can cause high blood pressure, stroke, heart conditions and diabetes. Dentists have a unique opportunity to detect and treat this debilitating condition. This course is based on real-life techniques that have led to successful results with OSA therapy, beyond just the science, implementing a system that actually works. Teaching four steps to successful implementation – Awareness, Diagnosis, Financials, Treatment. You will leave this seminar with confidence & understand:* Overview of sleep and sleep apnea ♦ Overview of health consequences of untreated sleep apnea ♦ Creating awareness in the hygiene department ♦ How to get a diagnosis from a sleep physician ♦ Fundamentals of analyzing a sleep study ♦ Overview of treatment options ♦ How an oral appliance works and oral appliance selection ♦ Appointment by appointment treatment workflow
