

A decorative border made of thick, yellow nautical rope with dark outlines, forming a rectangular frame around the central text. The rope is coiled and knotted at the top and bottom center.

XCEL SEMINARS

25th Annual Comprehensive Dental Skills Series

NOW as a LIVE WEBINAR Series w/LIVE CE Units

June 29, 2025: Redefining the Endodontic-Restorative Continuum

(Including Deep Margin Elevation, Treating Resorption Cases, Cracked Teeth and Many More BRAND New Cases and Techniques)! *Dr. Robert Salehrabi* is an

assistant clinical professor at the University of Colorado Dental School and GPR program, author of articles in the Journal of Endodontics and other peer-reviewed journals & the International Endodontic Federation Research Award recipient.

July 27: 3-D Radiographic Imaging in Dentistry Including CT-Guided Dental Implant Surgery *Dr. Jay Reznick* is a Diplomate of the American Board of Oral and Maxillofacial

Surgery & was the first specialist in the U.S. to integrate CBCT and CAD/CAM in his practice. He has published extensively & taught dentists about basic and advanced implant dentistry, surgery, and 3D digital technology for the last two decades.

**ALL LIVE WEBINARS ARE ON SUNDAYS, 8AM-3PM PACIFIC TIME
AND 7 LIVE CE UNITS - TUNE IN AND ENJOY OUR COURSES FROM ANYWHERE!**

**\$149 FOR THE JUNE LECTURE, \$299 FOR
THE JULY CBCT COURSE OR BOTH COURSES,
14 CA APPROVED LIVE CEs, FOR ONLY \$349**

COURSE TOPICS

Redefining the Endodontic-Restorative Continuum: *This course explores the very latest in evidence-based endodontic diagnosis & treatment, covering cutting-edge restorative procedures that enable clinicians to save compromised teeth and ensure a positive long-term prognosis. This case-based lecture will discuss many techniques to biomimetically create tooth structure to perform a root canal & avoid extraction. Objectives include:*

Understanding the deep margin elevation technique for deep carious lesions enabling you to save more teeth while eliminating the need for crown lengthening in many of these cases ♦ Learning Treatment of resorption cases ♦ Master vital pulp therapy ♦ Cover the restoration of most endo treated teeth without a post

3-D Radiographic Imaging in Dentistry Including CT-Guided Dental Implant Surgery (NOW Included in the Series): *Cone Beam technology has brought the power of 3D imaging into the dental office. This course will provide a comprehensive introduction to CT Scans, Cone Beam Volumetric Imaging & its dental applications, imaging systems in the US Market, and CT radiographic anatomy. CT-Guided dental implant planning and surgical techniques also provide a less invasive surgical procedure, awareness of anatomical challenges ahead of time, increased precision of implant placement, reduced surgical time, and enhanced patient recovery. Course Objectives include:* Be able to better interpret 3-D radiographic images of the oral and maxillofacial region. ♦ Know the applications for which CBCT is indicated. ♦ Be able to manipulate 3-D dental images on a PC computer. ♦ Understand how 3D technology is used to improve the accuracy and consistency of dental implant placement. ♦ Be able to discuss the work flow from diagnostic study models to surgery. ♦ Become familiar with 3D implant planning software. ♦ Understand why 3D CT-guided surgery is the future of implantology

TUITION	BOTH COURSES	EACH INDIVIDUAL COURSE
More than 14 days before an event	Dentist: \$349, Staff: \$249	Lecture Dentist: \$149, Staff: \$129 \$299 for CBCT Scanning & CT Guided Implants
Less than 14 days before an event	Dentist: \$369, Staff: \$269	Lecture Dentist: \$169, Staff: \$149 \$319 for CBCT Scanning & CT Guided Implants

Courses are 8AM-3PM Pacific Standard time and each course is 7 Live CE Units.

Adult Oral Sedation Certification COURSE

"Adding oral sedation to my skill set transformed my practice."

This course changed everything, I am now treating phobic patients who have neglected their teeth for years and the new patient referrals keep coming."

— John Magnis DDS, Oxnard, CA

- Expand your practice/patient base by offering oral sedation for adults
- Preserve fearful adult patients and related productivity
- Perform dental work in fewer appointments
- Perform longer treatment sessions comfortably
- Will teach you SAFE guidelines for oral sedation for adults
- LIVE patient demonstration
- **California Dental Board approved course**
- **Course meets ADA guidelines; qualifies for most States for Oral (minimal) sedation permit***

*Check with your individual state for requirements for issuing an oral (minimal) sedation permit

Periklis Proussaefs DDS, MS

is a prosthodontist and Associate Professor at Loma Linda University. Dr. Proussaefs has received formal training in all forms of sedation since 1997. He has been providing dental care under I.V. (moderate) or oral (minimal) sedation. His seminars focus on patient safety, airway management, monitoring,

and handling emergencies. The course involves lecturing, hands-on training on a manikin, and real patient experience.

"Dear Dr. Periklis Proussaefs, Thank you for the wonderful course. I was doing conscious sedation for many years and took several renewal courses. Yours was indubitably the best. Very informative. Extremely to the point. Clear and very captivating. I learned a lot this Sunday and started work on Monday refreshed, energetic, and eager to use all my new knowledge. I strongly recommend this course to doctors who are willing to introduce sedation to their practice or the ones who need renewal. Thank you."

—Anna Durkin DDS, general dentist, San Marcos, CA

"A definite must take class for any dentist to further your career.

You will learn a lot." —Kevin Chou DDS, general dentist, Bakersfield.

Autologous blood concentrates (PRP, PRF, i-PRF).

LIVE PATIENT DEMONSTRATION and laboratory hands-on practice WORKSHOP

The Blood concentrates workshop involves:

- Lecturing on the biologic principles for implementing autologous blood concentrates
- Review current literature on PRP, APRF, I-PRF etc.
- Review of the advantages and limitations of using autologous blood concentrates
- Review of surgical solutions when using PRFS
- **LIVE PATIENT DEMONSTRATION**
- **LABORATORY HANDS-ON EXPERIENCE** drawing blood from a mannequin (and from each other-optional)

Periklis Proussaefs DDS, MS

Dr. Proussaefs is a prosthodontist and Associate Professor at Loma Linda University. He is the founder of the California Institute of Dental Education. He has published over 55 peerreviewed articles related to implant dentistry. Most of his award-winning publications involve bone grafting and alveolar ridge augmentation techniques. Dr Proussaefs has been editorial board

member in several scientific journals with high impact factor. He is one of the first published authors back in 2001 in topics related to utilizing autologous blood concentrates in conjunction with bone grafting procedures. His seminars have an evidence-based approach enriched with his 20+ years of experience in advanced implant dentistry
