Can Working Too Long Hurt the Value of My Practice?

I frequently encounter dentists that have continued to work beyond the "traditional" retirement age, some out of necessity, others because they absolutely love what they do, that now want to sell for what their practice may have been worth at some point in the past. The most difficult concept to convey to them is that the value of the practice is not based on the gross income as much as it is on the net income. Buyers must be able to secure a loan for the practice to be sold and that is intimately tied to what bankers refer to as the debt coverage ratio and with higher interest rates the amount of debt increases. Let me clarify this concern for you. Here are two examples:

Buyer #1 is married and the spouse earns \$120,000/year. The practice being purchased has a net income (profit to the owner) of \$200,000/year and is being sold for \$500,000 with a loan at 5.50%. The buyer's school debt, car payments, living expenses and home mortgage are \$8,000/month or \$96,000/year. The practice loan will be \$65,112/year. The buyer's household income with the new practice is \$320,000 and the annual debt is \$161,112. The debt coverage ratio is 1.99. Considering the debt coverage ratio alone, every bank would make that loan.

For Buyer #2, everything about the practice is the same, however, now the buyer is married, but the spouse is not employed. Buyer #2's personal debt obligations are \$12,000/month and the interest rate on the practice loan is 8.00% or \$72,780/year. With the buyer's income of \$200,000/year and the buyer's debt, personal and practice loan, of \$216,780/year, the debt coverage ratio is 0.92 and no lender will make that loan.

The above examples may be extreme, but they demonstrate the impact that the buyer's income, personal debt and interest rates have on the ability of the buyer to secure financing to purchase a practice. As outside income declines and personal debt and interest rates rise, the loan amount that the buyer can borrow decreases. The same practice profit cannot cover all of the buyer's obligations.

It is complicated, but for a complete understanding of the financing requirements, call Kurt Skarin at Lee Skarin and Associates, Inc.

Serving the needs of dentists

We recently completed a dental practice sale with the help of Lee Maddox. We could not be happier. His professionalism, thoroughness, and attention to detail far surpassed what we were expecting. They promptly returned our emails and answered all of our questions. He and Jill turned one of life's most stressful and important events into an easy transition. What they may not know is that their services are easily worth three times what we paid them. I would be happy to talk with anyone considering them.

"Keating Dental Lab is the best laboratory that I have used in my 23 year career! Starting from the first case with Keating, I immediately noticed the professionalism of their staff and the promptness of their delivery schedule. The model work is clean and accurate, the prosthesis is delivered in a clear suspended jewel case, and the fit, occlusion and color match is exceptional. Keating lab stands heads and shoulders above every lab that I have used...a real winner!" -- Dr. Ronald Yee. Give us a try, visit keatingdentallab.com or call 800-433-9833

The simple fact is that at some point, when you list your office for sale, buyers for your practice will call for inquiries.

Your choice, the broker that you select to represent you, the person to whom you will have them speak to, will affect the buyer’s first impression and his ultimate decision, when the call will be over.
