

The image features a decorative banner with a rope border. The rope is yellow with a black outline and is arranged in a rectangular shape with rounded corners. Inside the rope border is a light yellow oval with a white outline. The text "XCEL SEMINARS" is written in a bold, black, sans-serif font across the center of the oval. The background of the entire image is a solid brown color.

XCEL SEMINARS

27th Annual Comprehensive Dental Skills Series

NOW as a LIVE WEBINAR Series w/LIVE CE Units

May 17, 2026: Maximizing Direct Restorative Possibilities: Crushing Class II Composites & Closing the Gaps- Optimal Treatment of the “Dreaded Black Triangle” Dr. David Clark Has served on the editorial board for several journals & lectured in twenty countries. He redefined the way we think about restorative dentistry by developing modern systems and methods for cavity preps, special matrices, wedges, separators & bonding, restorative and polishing materials and methods.

June 14: Introduction to Dental Sleep Medicine Dr. Erin Elliott is the past president and a diplomate of the American Sleep and Breathing Academy and has lectured extensively on Dental Sleep Medicine to help general dentists extend this life-saving service to their patients.

June 28: OSHA, Infection Control & the CA Dental Practice Act (can only be given by CA pre-approved CE providers) Leslie Canham, RDA, lectures nationwide using her unique humor and cutting-edge information to present tough subject matter in an interesting way.

MEDICINE OR ALL 3 COURSES (21 CA APPROVED
LIVE CEs) FOR ONLY \$399!**

COURSE TOPICS

Maximizing Direct Restorative Possibilities: Crush Your Next Class II Restoration & Closing the Gaps: Optimal Treatment of the 'Dreaded Black Triangle': Until now, composite went “in” the tooth. Now we can go “around” the tooth. Learn to master rock solid contacts, appropriate shapes and contours to make your patients and yourself happy. **Case-based examples and evidence-based insights will include:** Learn how injection molding is better, faster, and stronger than layering & whether injection molding or crowns are appropriate restorations ♦ How clear matrices are a game changer ♦ Why to use heated composite & selective caries removal is the new standard of care **Achieving seamless aesthetics in the anterior region is essential for patient satisfaction and clinical success.** This segment will explore advanced techniques for closing gaps, including diastemas, black triangles, and peg laterals. Participants will learn how to use anatomic tooth forms, optimize heated composite handling, and how to achieve natural contours that blend flawlessly with existing dentition. **Learn to:** Injection mold to treat black triangles, peg laterals, fractured teeth, and diastemas ♦ Achieve ultra glossy stain proof anterior restorations

Introduction to Dental Sleep Medicine (now included in the series): Left untreated, sleep apnea can cause high blood pressure, stroke, heart conditions and diabetes. This course is based on real-life techniques prioritizing results with OSA therapy, beyond just the science, implementing a system that actually works. **Teaching four steps to successful implementation – Awareness, Diagnosis, Financials & Treatment. Including:** Overview of sleep & sleep apnea ♦ Overview of health consequences of untreated sleep apnea ♦ Creating awareness in the hygiene department ♦ How to get a diagnosis from a sleep physician ♦ Fundamentals of analyzing a sleep study ♦ Overview of treatment options ♦ How an oral appliance works & appliance selection ♦ Appointment by appointment treatment workflow

OSHA, Infection Control and the CA Dental Practice Act: This course enables attendees to meet license renewal requirements and state and federal requirements for OSHA Bloodborne Pathogen training, & Infection Control. **The California Dental Practice Act segment will include:** Basic requirements of the Dental Board, how to avoid Dental Board problems AND Present actual case studies of dentists subjected to Board discipline.
