Friday, Sep. 13th (8:30AM-12:30PM, 4CE Units) for only $99!
Half Day: Innovations in Minimally Invasive Biomimetic Materials & Procedures, With Hands-on Demo! ***Dr. Robert Salehrabi*** *will educate you in the morning and then the rest of your weekend is free to enjoy all that Vegas has to offer! This course will be at the Hilton Garden Inn Las Vegas, which has a free shuttle to the nearby Vegas Strip.*

COURSE SERIES SPONSORED BY: BISCO, elevate ORAL CARE, KETTENBACH Simply intelligent, GC, Geistlich Biomaterials, GLIDEWELL DENTAL, SHOFU

COURSE TOPICS

Special 4CE Biomimetics Travel'n'Learn Course in Las Vegas (This course is not included in the series): This course will explore the characteristics of the biomimetic, minimally invasive treatment options and how they can be incorporated into daily practice. Clinical cases where deep caries or pulp exposures could be predictably treated without the need for endodontic treatment will be presented. Attendees will learn how to repair teeth and lessen sensitivity, use bioactive materials to strengthen teeth and reduce restorative failure and how to protect and prolong pulp vitality. A hands-on demonstration is included, giving you a chance to work with innovative products backed by scientific research with excellent outcomes

Simplified Dentures and Mini Dental Implants: ***As the demand for implant overdentures grows, it is more important than ever that general dentists become proficient in complete denture concepts and techniques. Dentists who can offer high quality implants and denture services in less time, in less traumatic fashion and at a reasonable cost will be better positioned to grow their practice. Topics include:*** Predictable and time-tested mini implant protocols for complete denture stabilization ♦ Case selection and case planning ♦ Simplified and practical denture concepts and techniques, easily incorporated into any practice ♦ New workflow that combines traditional procedures with digital tools for faster, better and more affordable denture fabrication

OSHA, Infection Control and the CA Dental Practice Act: ***This course will not only entertain you and your staff but will enable attendees to meet license renewal requirements and state and federal requirements for OSHA Bloodborne Pathogen training, and infection Control with Carrie Ibbetson. The California Dental Practice Act segment will include:*** Basic requirements of the Dental Board, how to avoid Dental Board problems AND Present actual case studies of dentists subjected to Board discipline. **PLUS a Bonus Course-Using Cutting Edge CAMBRA Protocols to Build Your Practice!**

Hands-on Pedo (this course IS INCLUDED in the series): This course will cover the common pulp therapy issues in primary teeth, current concepts in materials, minimally invasive dentistry (MID) and anesthesia break-throughs, in Pediatric Dentistry. The topic of pulp therapy will include Biodentine pulpotomies, indirect pulp caps with GIC and the restorative component will discuss new composites and their application in pulp therapy as well as in the slot prep and SDF used as part of the SMART technique. Learn how to minimize a child's disruptive behavior and your stress during anesthesia administration. ***Attendees will Perform Hands-on:*** Class I Biodentine pulpotomy restored with GIC ♦ Class II slot prep restored with GIC using a Matrix system ♦ Proper technique and placement of Silver Diamine Flouride ♦ On a propietary typodont, anesthetize a single tooth with efficacy, safety, and comfort, but without producing collateral numbness and possible injury to a child's lips or tongue

8 CE Dental Sleep Apnea: ***Dental Sleep Medicine is not impossible, it's achievable. Sleep disorders are recognized as a significant health issue in the United States. Now more than ever, dentists have a unique opportunity to screen patients and offer solutions to the potentially damaging and life-shortening consequences of undiagnosed obstructive sleep apnea (OSA). In this two-day program, clinicians will examine sleep, why it's important, and the dentist's role in overall health. Dr. Haley will cover screening and identifying snoring, bruxism, obstructive sleep apnea, as well as choosing the correct oral appliance. Attendees will participate in a hands-on demonstration and sleep test, and learn successful techniques for integrating dental sleep medicine into the general practice. Topics include:*** Learn how to recognize, identify and screen for obstructive sleep apnea (OSA) ♦ Learn how to choose the correct oral sleep appliance for treatment of OSA, snoring, and bruxism ♦ Learn how to build relationships to increase physician referrals ♦ Establish strategies for marketing dental sleep medicine in the general practice ♦ Understand how to bill medical insurance companies ♦ Learn the necessary steps to become a Medicare "DME" provider and the differences between being In and Out of network ♦ Establish the difference between a polysomnogram and a home sleep screening
