

The logo features the text "XCEL SEMINARS" in a bold, black, sans-serif font, centered within a yellow oval. This oval is framed by a thick, yellow rope with a black outline, which is knotted at the top and bottom. The entire design is set against a solid brown background.

XCEL SEMINARS

16th Annual Comprehensive Dental Skills Series

Knott's Berry Farm Resort Hotel

Oct. 6, 2019: Restorative Techniques and Materials to Increase Predictability and Productivity in Your Everyday Dentistry *Dr. Troy Schmedding* is one of only hundreds of dentists world wide accredited from the American Academy of Cosmetic Dentistry. He also maintains Diplomate status with the American Board of Cosmetic and Esthetic Dentistry and is a sought after restorative lecturer.

Nov. 3: CA Dental Practice Act, Infection Control & CAMBRA PLUS a BONUS COURSE: Becoming the "Go To" Dentist in your Community with these Seven Critical Steps! *Carrie Ibbetson, RDH*, lectures nationwide using her unique humor and cutting edge information to present tough subject matter in an interesting way. *Jim Richardson*, the CEO of Click-thru Consulting, LLC, understands the frustrations of dental practice owners. He is the Amazon best-selling author of "Word of Mouse Marketing for Dentists" and he works to help dentists refine their messages and drive new patients to their practices.

Dec. 15: Morphology and Occlusion: The Integral Link to Successful Restorative Dentistry *Dr. Bob Lowe* has authored numerous articles, contributions to textbooks and is consistently named a "Top 100 Clinician in Dentistry."

Jan 26, 2020: Silver Bullets: Simple and Magical Solutions to Pediatric Dentistry's Complicated Problems *Dr. Jarod Johnson* is a Pediatric Specialist and has received advanced training in behavior management, sedation, hospital dentistry, trauma, special health care needs, interceptive orthodontics & space maintenance.

Feb. 23: Oral Medicine for Dentists *Dr. Patrick Quaranta* is back by popular demand for a new subject (even if you have taken his previous courses you do NOT want to miss this one)! He is a former professor of Oral Medicine at UMDNJ-New Jersey Dental School.

March 29: Comprehensive Treatment Planning and Care: Preventive and Restorative Dentistry Working in Concert *Dr. Pamela M. Maragliano-Muniz* whose experience as a dental hygienist, clinical professor and prosthodontist, help her to give this informative and unique course, that addresses the whole continuum of care GPs provide to their patients.

Knott's Berry Farm Resort Hotel, 7675 Crescent Ave, Buena Park, CA
(Beach Blvd. exit of the 5, 405 & 91 Fwys)

ALL COURSES ARE ON SUNDAYS 7 CA & AGD CES EACH DAY

**\$149 FOR EACH LECTURE, OR
THE ENTIRE 6 COURSE SERIES
(42 CA & AGD CES) FOR ONLY \$499**

**BONUS
HANDS-ON
COURSE:
ONLY
\$299**

Nov. 17: Hands-on On Practical & Simple Orthodontics and Treating Trauma

Dr. Lance Kisby FASDC, FAGD, FAAPD, MAGD, has practiced & taught for 35 years, started two pedo residency programs and edited the Journal of Pediatric Dentistry.

COURSE SERIES

COURSE TOPICS

Restorative Techniques and Materials: Today, dentists are faced with many challenges when implementing adhesive dentistry into their day to day direct and indirect restorations. We will discuss the most recent information on bonding agents as well as predictable Bulk Fill materials. Investigate the use of ceramic based restorative materials and the proper usage and indications. Cementation (bonding) protocols of these non metal based indirect restorations will be discussed in great detail to help clarify the confusion that exists. Ultimately, bringing it all together to understand the advantages all these great materials provide us in achieving the ultimate goal : Minimally Invasive Dentistry. Topics Include: Demystifying the selection process of Bonding Agents ♦ Minimally Invasive Dentistry ♦ Air Abrasion in dentistry ♦ Bulk Fill products and best utilization ♦ Decision making strategies in ceramic restoratives ♦ Proper cement choice for final as well as provisional restorations.

OSHA, Infection Control and the CA Dental Practice Act: This course will not only entertain you and your staff but will enable attendees to meet license renewal requirements and state and federal requirements for OSHA Bloodborne Pathogen training, and infection Control with Carrie Ibbetson. The California Dental Practice Act segment will include: Basic requirements of the Dental Board, how to avoid Dental Board problems AND Present actual case studies of dentists subjected to Board discipline. PLUS In our bonus one-hour interactive workshop, we'll take each audience member through an interactive, personal exercise that will teach them how to create their unique compelling message. They will: Discover their marketing problems ♦ Follow a proven, seven-step process to record their unique message script ♦ Leave with more confidence about their compelling reason a new patient should choose them.

Hands-on Interceptive Ortho, including Treating Trauma: This courses addresses many common orthodontic problems with techniques that can be done in the office, including: How to do an orthodontic exam and using that information ♦ Primary vs permanent teeth ideal occlusion ♦ The preferred sequence of eruption of primary and permanent teeth ♦ Diagnosis and managing ankylosis of primary teeth and congenitally missing permanent teeth ♦ Diagnosing and early treatment of space management, anterior and posterior cross-bites, and thumb/tongue habits ♦ Indications and contraindications for simple appliances such as maxillary expansion appliances, correcting single tooth maxillary lingual cross-bites, habit breaking appliances, and space maintainers ♦ When to refer to the orthodontist ♦ The role of enlarged tonsils and airway issues in malocclusion ♦ Diagnosing and treating common eruption problems from multiple panorex ♦ The Hands-on portion will include: An interactive session of diagnosing and interpreting eruption problems from multiple panorex ♦ Placing bands and taking impressions for a space maintainer on a typodont and writing a prescription for each of the common interceptive appliances ♦ Quickly and easily treating a trauma with bioceramic pulp restorations.

Morphology and Occlusion: Every restoration placed has the potential to alter the occlusal relationship of the patients' dentition. Thus, understanding, visualizing, and reproducing proper dentate morphology following occlusal concepts regardless of the material used is the key to long-lasting dental restoration. In this lecture, Dr. Lowe will review in detail techniques to create dental restorations that show how the principles of morphology and occlusion can be maintained using today's modern dental materials to produce "world class" dental restorations, including: The Principles of Morphology in Direct and Indirect Dental Restorations – Reproducing nature's functional and aesthetic contours – A basis of occlusal understanding. ♦ The importance of "linguovision" in understanding occlusion. ♦ The "ABC" Porkorny Construct of Occlusal Contact: What do those "little dots" mean? ♦ Occlusal Adjustment or "Spheroiding": Maintaining morphologic shape and form when performing occlusal adjustment. ♦ The Art and Science of Provisionalization: A biologic and occlusal prototype for definitive reconstruction. ♦ Tissue Management During Master Impressions: "Tissue Mirrors Technique!" ♦ Definitive cementation protocols for conventional, bioactive, and resin cements: Occlusal adjustment during the cementation process. ♦ Combined Therapy and "Perio-by-the-Numbers" The perioprosthesis connection to restorative dentistry. ♦ Creative Treatment Options: Abstracting Reality! Solutions to aesthetic and functional dental problems you probably have not considered.

Silver Bullets in Pediatric Dentistry: This lecture course is designed to improve dentists' skills. Areas covered will include: Treating immature teeth impacted by trauma or carries ♦ Obtaining the correct pulpal and periapical diagnosis ♦ Current research on dental materials, treatment planning, and case selection ♦ Silver diamine fluoride and no drill silver crowns (stainless steel crowns placed using the Hall Technique).

Oral Medicine for GPs: This course gives dentists the tools to diagnose abnormal and pathological conditions within the mouth. Using clinical pictures and x-ray imaging and by teaching diagnostic process and differential diagnosis (DiffDx), the course addresses systemic health conditions manifesting as oral changes and also possible treatment of oral conditions, including: What a lesion looks like, the general concepts of diagnostics and value of patient histories ♦ Appropriate communication with other doctors ♦ Review common lesions including, candidiasis, frictional hyperkeratosis, lichen planus, autoimmune diseases manifested in the mouth, aphthous ulcers, hemangiomas, hematomas and ecchymosis, HSV 1, HPV and other viral lesions, oral cancers and radiographic lesions.

Comprehensive Treatment Planning and Care: This course will cover strategies to help you patients from prevention of dental caries to restorative strategies that offer long-term results. Clinical results and the profit potential of a caries management program alongside comprehensive restorative treatment planning and implementation will be covered. Cases will be discussed in depth and attendees will be able to participate in the evaluation of patients for caries risk, risk management, documentation and restorative treatment.

TUITION	6 COURSE SERIES	EACH INDIVIDUAL COURSE
More than 14 days before an event	Dentist: \$499, Staff: \$299 Add the Hand-on course for \$299	Lecture Dentist: \$149, Staff: \$129 \$399 for Hands-on Oral Surgery course
Less than 14 days before an event	Dentist: \$519, Staff: \$319 Add the Hand-on course for \$319	Lecture Dentist: \$169, Staff: \$149 \$419 for Hands-on Oral Surgery course

Fees include continental breakfast, CE credits and free hotel parking. Registration is at 7:30am, courses are 8am-3:30pm. It is an extra \$20 fee for all on-site and walk-in registrations.
