### ***NEW IMAGE CREATION***

11040 Santa Monica Blvd Suite # 480 Los Angeles, CA 90025

3901 Coconut Palm Drive Suite # 100 Tampa, FL 33619

**SEE YOU AT CDA – BOOTH # 767**

The logo features the word "DENTIMAX" in a bold, black, sans-serif font, centered within a horizontal yellow oval. This oval is surrounded by a thick, dark brown rope that forms a rectangular border with rounded corners. The rope has a detailed three-strand braid pattern and frayed ends at the top and bottom. The entire design is set against a solid dark brown background.

## *Unique Interior Designs*

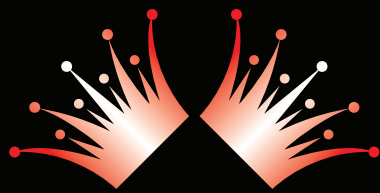

Visit us at *booth 588* and meet Ren'e and George Fedyna C.I.D. renowned Interior Designers specializing in dental office design and decorating. Their office designs have been published in several magazines including Dental Economics and Doctor of Dentistry. George and Ren'e are offering **FREE DENTAL OFFICE DESIGN AND DECORATING ADVISE** including:

- How to choose a new dental office location
- How much square footage do you really need
- What factors are important in designing an office that will function to your needs
- What decorating style is best for you
- How to color coordinate your office
- What are the most durable materials to use

The logo is set against a solid brown background. It features a thick, yellow rope with a black outline that forms a rectangular border with rounded corners. At the top center of this border, the rope is knotted. In the center of the rope border is a large, horizontal, yellow oval with a thin white outline. Inside this oval, the text "KING'S TWO DENTAL SUPPLY" is written in a bold, black, sans-serif font.

**KING'S TWO DENTAL SUPPLY**

## MIDMARK OPERATORY

The foundation of the Midmark Operatory is the Midmark Chair. Along with all the access, control and patient comfort of our stand-alone chair, we have added internally plumbed umbilicals for improved asepsis and aesthetics.

The Midmark Procenter Instrument Delivery System pivots on anti-friction needle bearings that are held in the post mounted console box. The console box provides a highly stable stationary mounting location for the Procenter, Midmark Light and optional vitreous china cuspidor along with the standard features of air & water quick connects, self contained water system and a city water / bottle water selector switch.

The Midmark Light mounts into the console to deliver the quality white light needed to properly identify shades, see details and diagnose tissue.

## MIDMARK LR OPERATORY

With sleek styling that complements the chair, the LR Procenter instrument delivery unit can be positioned almost anywhere around the chair providing unparalleled access to chair controls, hand pieces, and the patient.

Left/Right cuspidor, assistant instrument delivery system and operatory lighting complete this quality suite.

# Kings Two Dental Supply

**X-RAY SYSTEMS**

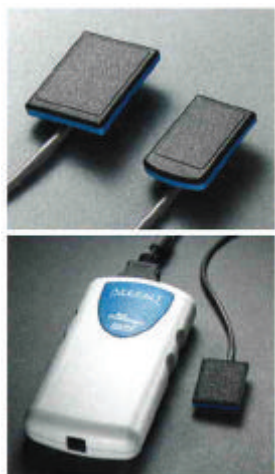

## AIR TECHNIQUES SCAN-X

The ScanX is an advanced digital imaging system that operates in a familiar way and works with your existing x-ray equipment. Just replace your standard x-ray film with a reusable phosphor plate. They feel and position just like film. Plus they expose, load, and process per your normal routine; only much faster.

## DENT-X EVA SENSOR

DENT-X has developed a new dental imaging technology with the EVA® (Enhanced Visual Assessment) digital "second generation" radiography system.

While many digital dental X-ray systems use a CCD imager to capture the X-ray data, the DENT-X system, utilizes "Active Column Sensor" CMOS technology. This technology reduces the complexity of the sensor while offering the following advantages over traditional CCD technology: Lower Power Requirements, More Compact, Larger Image Size and Quality Resolution

## AIR TECHNIQUES ACCENT SENSOR

Presenting Accent, the CCD Direct Digital Intraoral Sensor featuring Bluetooth technology. Accent offers you the benefits of a filmless radiographic system from a company you can trust. Using proven Charged-Coupled Device (CCD) technology, ACCENT produces detail-rich, low noise digital radiographs that are transmitted to your computer via USB or Bluetooth for immediate viewing.

**Full-Service Equipment Repair Available**

# Kings Two Dental Supply

X-RAY SYSTEMS

## AIR TECHNIQUES PROVECTA 70

- Microprocessor controlled.
- User selectable exposure time in seconds/pulses.
- 20 preset exposure times or manually selectable exposure times.
- Programmable Film and Digital setting.
- Stable positioning, designed for ease of installation and use.
- Built in tubehead simulator for training and testing the X-Ray Control operation

## BELMONT 096

- Provides crisp, high contrast radiographs
- Units feature profile and line-of-sight alignment 70 kVp output
- Microprocessor controlled exposure settings and a manual mode for personalized exposure settings
- Compatible with most digital radiographic systems
- Optional remote switch with exposure indicator

## BELMONT X-CALIBER PANORAMIC X-RAY (EX-1000/EX-2000)

- Panoramic, TMJ and cephalometric radiography
- 60-90 kVp output
- Three-light beam positioning system
- Adjustable rotation speeds and height to accommodate seated and standing patients
- A cephalometric attachment for right or left hand installation can be built into the unit (Model EX-2000)
- Optional free-standing base

We accept all major credit cards

# Kings Two Dental Supply

## AIR TECHNIQUES AT 2000

The A/T 2000 XR fully automatic film processor develops all sizes; panoramic, cephalometric, TMJ, occlusal and periapicals.

Processing time, chemistry temperature and chemistry replenishment are automatically monitored and adjusted. Archival quality films are processed in 5-1/2 minutes. Plus, there is an Endo Speed for quick-look films in only 2-1/2 minutes.

## AIR TECHNIQUES PERI-PRO

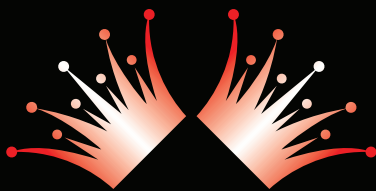

Peri-Pro has set the standard for intraoral film processing for over two decades. Peri-Pro models have been chosen by more dentists than any other processors. The Peri-Pro III automatically processes all film sizes, 0 through 4.

## DENT-X 810

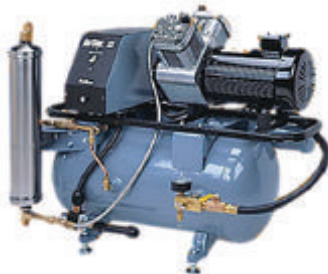

This automatic dental film processor that delivers consistent quality radiographs either in 4-1/2 minutes for archival film or 2 minutes for Endo wet readings. The maintenance is quick and easy as cleaning is a snap.

## MIDMARK

The M11, like the M9, features a door that opens automatically making sterilization a set-it-and-forget-it function. It's the newest, largest addition to the Midmark line of automatic autoclaves and in this case... biggest also means best.

M9

M11

## TUTTNAUER

### Simplicity at work.

The Manual Autoclave is an affordable sterilizer for private clinics that do not want to compromise on quality, safety and reliability. Tuttnauer manual autoclaves are an effortless Plug n' Play solution. After installation, the sterilizer is virtually maintenance free with reduced running costs.

2340M

2540M

1730MK

## SCI CAN

**The Statim 2000** is a reliable cassette sterilizer that's compact enough to fit in patient treatment areas and fast enough to sterilize expensive dental handpieces and instruments between procedures - it can complete an unwrapped sterilization cycle in just six minutes.\* The Statim 2000 is also fully automatic. Simply select one of the three sterilization programs and with a single touch of the keypad, begin the cycle.

STATIM 2000

**\$3,395**

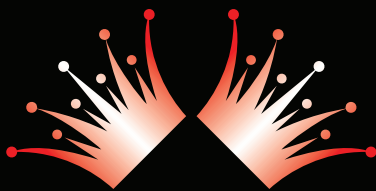

\* Cycle times do not include drying.

**The Statim 5000** - Larger than the 2000, the Statim 5000 has an additional sterilization cycle and a roomier cassette designed to process bulkier instruments and greater loads. It can complete an unwrapped sterilization cycle in just nine minutes and a wrapped cycle in just 17.5 minutes. The Statim 5000 is also fully automatic.

STATIM 5000

**\$4,595**

# Kings Two Dental Supply

## AIR TECHNIQUES ACCLAIM INTRAORAL CAMERA

Superior clarity, sharpness and true-to-life soft-tissue color will make Acclaim a truly indispensable instrument in your dental practice. The portable Acclaim intraoral camera is extremely easy to handle and can be pocketed from room to room using the quick-connect feature.

Single-hand operation eliminates fumbling and manual focusing. All objects - from 6mm to 50mm - snap automatically into sharp focus. Capture and save images with the touch of a button. The Acclaim intraoral camera can be connected via USB 2.0, S-Video or Composite Video and integrates into any practice with or without a computer.

## TPC ADVANCE-CAM INTRORAL CAMERA

- Small, compact components ensure the ease of portability between operatories
- Lightweight handpiece is extremely easy to maneuver
- Simple touch on handpiece button will capture and save the image
- Built-in docking station reduces number of components transported in multi-operator settings
- Three Viewing Modes: Live, Freeze and Quad Split Screen. Images may be printed, stored, or forwarded electronically
- Wireless transmitter allows user to share camera between operatories without connecting to docking station. Four channels available for wireless operation
- State-of-the art LED lights, optics, and electronics, optimized to provide exceptional image resolution
- Optical glass lens has tremendous depth of field. All objects from 5mm to 30mm are automatically in focus
- Fog-free due to LED technology
