Supra-gingival Dentistry:

Easy, Predictable Porcelain Veneers, Onlays, and Full Crowns

Join us in Los Angeles!

1 Day Lecture: Thursday May 20th, 2010 • 7-CE Units

2 Day Live Patient Demonstration & Workshop: Friday - Saturday May 21st-22nd, 2010 • 14-CE Units

Completing the 1 Day Supra-gingival Dentistry lecture is required for this course.

Holiday Inn Hotel Burbank-Media Center, 150 East Angeleno Avenue, Burbank, CA 91502

Limited Time (Expires April 22, 2010): 1 Day Lecture \$299 Dentists, \$99 Staff & 2 Workshop \$1290 Dentists

Supra-Gingival is here to stay!

For years Dr. Ruiz has been advocating the great benefits of supra-gingival dentistry and the profession is starting to listen as is evident by the cover interview on the March edition of Dentistry Today on that subject. Learn the great benefits these innovative techniques have for your patients and for you. It will truly revolutionize the way you do dentistry; it will make it easier, faster and more predictable.

In this course Dr. Ruiz will demonstrate how properly performed non-metal restorations make dentistry more predictable and trouble-free; as well as healthier for the patient than any traditional restoration has ever been. The improved esthetic results achieved with non-metal veneers, onlays and full crowns have resulted in increased use and enhanced patient acceptance and satisfaction. Nevertheless, clinicians often feel that these restorations are more difficult and less predictable than traditional dentistry. Placing supra-gingival margins ultimately allows clinicians to make porcelain restorations more predictable, stress free, and healthier for the gingival tissue. In this course, Dr. Ruiz will demonstrate material selection and a new paradigm in preparation and cementation. This course will touch on the importance and application of a simple and predictable system for performing comprehensive diagnosis, esthetic evaluation, and Occlusal diagnosis. These systems are indispensable for the success and longevity of each patient's esthetic restoration. Dr. Ruiz will show the step-by-step procedure for tooth preparation, temporization, and sensitivity-free easily bonded cementation using "Supra-gingival Dentistry."

In this practical 1 DAY LECTURE you will learn:

- ◇ A technique that will guarantee you will not have to retake an impression ever again
- ◇ A cementation technique for Onlays that is easy and without post-op sensitivity
- ◇ How to choose among all ceramic options for veneers, Onlays, and crowns
- ◇ How get veneer results that patients will love!

In this practical 2 DAY WORKSHOP you will learn:

- ◇ Understand and perform a simple, predictable impression techniques
- ◇ Participants choose which bonding systems and cements are most esthetically appropriate to achieve good margin blending and allow for Supra-gingival dentistry
- ◇ Understand and perform sensitive-free and easy cementation techniques specific to both anterior veneers and posterior onlays
