## COURSE TOPICS

**Restorative Success with Esthetic Composites and World Class Crown & Bridge (Lecture):** *Improve your direct and indirect restorations with these gems, including:* Step-by-step techniques to create lifelike and morphologically precise direct composite restorations ♦ The use of composite tints to create characterized restorations that rival those produced in the laboratory ♦ A review of indirect restorative materials and options in dental ceramics ♦ A review of prep design and tissue management for perfect impressions ♦ Provisionalization for full coverage and veneers ♦ No prep veneers: A realistic option? ♦ Prosthetic tooth repositioning and "orthodontic" tooth preparation ♦ Minor tooth movement with Essix appliances ♦ Computerized shade matching ♦ Digital impression making ♦ Cementation protocols for provisional cementation ♦ Cementation protocols for total etch and conventional cements: Which materials for which cement ♦ Occlusal adjustment during the cementation process

**Worn Dentition—Demystifying Full-Mouth Rehabilitation (Lecture):** *This course is designed for the progressive restorative dentist who wants to feel more confident in providing full-mouth rehabilitation. Well-documented cases will be covered from the initial workup to the post treatment follow-up, detailing all TMJ treatment, Perio, Surgery, Occlusal Management, Aesthetic considerations, and future risk mitigation. The participant will leave with a thorough understanding of the necessary steps to take a nervous patient with multiple dental issues and bring them to a state of dental health and self-esteem. Objectives include:* The proper examination, treatment planning and case protocols for full-mouth rehabilitation ♦ How to break difficult cases down to the 5 basic elements of dental health ♦ The tools (education and equipment) necessary to finish these cases predictably.

**Introduction to Dental Sleep Medicine:** *This course is intended to provide a comprehensive overview of diagnosis and treatment of sleep apnea cases for dentists interested in adding this growth area to their practices. Dr. Veis will cover all aspects diagnosis and the sleep study, deciding which appliances to use for treatment, measuring and fitting the appliances, interacting with the fabricating lab, and how to manage the billings to medical insurance, including:* Introduction to sleep stages, disorders and why there is a need for treatment? ♦ Sleep apnea signs/symptoms/clinical issues and treating sleep apnea via dental appliances ♦ Protocol review ♦ Services to do and read sleep tests ♦ Overview of Appliances - pro's and con's of all of the major sleep appliances ♦ Model analysis, Mixed dentition and how to take construction bites for making certain appliances ♦ Group work on an actual case and diagnosing appliance ♦ Services to fully take care of the medical billing for these services

**Restoring Your Confidence in Pediatric Care (Lecture):** *An extensive review of all procedures in pediatric restorative dentistry, including:* Diagnosis (Clinical and Radiographic), treatment planning (including cases that participants diagnose and treatment plan from bitewing x-rays), primary anterior and permanent posterior restorations, primary pulp therapy, stainless steel crowns, anterior strip crowns and preventive restorations with air abrasion technology. Become familiar with all forms of space maintainers and many simple active appliances.
