

Root Coverage Transformed:

No Incisions, No Sutures, No Grafting Ten Teeth in One Hour

Gingival Recession

Patented PST instruments Raising and advancing flap

Collagen placed with PST patented Chao pliers

Flap fixated with no sutures

Root coverage has been transformed by the advent of the Pinhole Surgical Technique (PST)™*

PST has been described as needing *no incisions*, *no sutures*, and *no grafting*.

PST is virtually painless and gives instantly pleasing results. Quick healing follows PST.

Any tooth can be treated with PST. **Ten or more teeth can be treated in one hour**. One Pinhole used for up to 6 teeth.

A 33-month study published in the *International Journal of Periodontics and Restorative Dentistry* concluded that "PST may be deemed a predictable, effective, minimally invasive, and time- and cost-effective alternative to FCTG [graft] techniques for obtaining optimal patient based outcomes." (*International Journal of Periodontics and Restorative Dentistry* 2012: 32: 521-531)

I invented, patented and published this method* and instruments** in *The International Journal of Periodontics and Restorative Dentistry*. I want to share the benefits of this breakthrough, peer reviewed method with you.

For abstract and further information, such as news clips, videos, and animation please visit me at: **www.PinholeSurgicalTechnique.com** PST has caught the attention of local and national media.

So far, 14 TV stations, including KABC, Los Angeles, have featured PST as a desirable alternative to traditional grafting methods. Many dentists from across the country will be attending these seminars which will be held at my office.

5th AnnualComprehensive **Dental Skills** Series

Crowne Plaza San Jose/Silicon Valley

Aug. 11: Comprehensive Overview of Pediatric Dentistry for GP's (including 25 Things That Have Changed the Way I Practice for the Better) (Lecture)

Dr. William Waggoner has held a full-time academic appointments, published extensively in peer-reviewed journals and authored a chapter in a popular pediatric dental textbook. He currently maintains a private pediatric practice.

Aug. 25: Hands-on Minor Ortho And Appliance Therapy Dr. Rob Veis has been practicing for almost 30 years, was a professor at USC for 12 years and lectures nationally on restorative dentistry and appliance therapy.

Oct. 6: Practical Endodontics: Treatment Planning, Techniques and Materials for GPs (Lecture) Dr. Robert Salehrabi is Associate Professor of Clinical Endodontics at USC and was a general practitioner for over 10 years before becoming an endodontist.

Oct. 20 & 27 (Consecutive Sundays): Intro to Dental Sleep Medicine (This Hands-on Course is two days and 14 total CEs)

Dr. Marty Lipsey teaches how to develop a patient and physician friendly dental sleep medicine practice, including all aspects of private pay and Medicare insurance billing.

Crowne Plaza S. Jose/Silicon Valley 777 Bellew Dr. Milpitas, CA 95035
Hotel is minutes from the 880, 680, 101 & 237 Fwys

\$329 EACH FOR THE HANDS-ON SLEEP AND
MINOR ORTHO COURSES, \$175 PER LECTURE OR
\$449 FOR BOTH LECTURES PLUS EITHER THE SLEEP MEDICINE
OR HANDS-ON MINOR ORTHO COURSE (3 COURSES TOTAL)

COURSE SERIES SPONSORED BY:

COURSE TOPICS

Minor Ortho and Appliance Therapy (Lecture): Dr. Veis will teach how to add interceptive orthodontics for children and appliance therapy minor tooth movement to your cosmetic cases, including: Helping children with simple space maintenance, anterior crossbites, posterior crossbites and eliminating bad habits from causing malocclusion • Recognize the stages of dental disease Techniques to fix anterior crowding Minor tooth movement and veneers An easy 6 month braces technique Keeping patients by making final retainers New proven to control periodontal disease

Modern Ceramic Restorations (Lecture): With the explosion in ceramic material choices in today's indirect restorative arena, practitioners often find themselves puzzled about what type of crown to prescribe for a given indication. Special emphasis will be placed on strategies and techniques that lead to optimal outcomes with regards to quality, while increasing speed and productivity. Real strategies will be provided to the audience to maximize the efficiencies in their crown and bridge practice while delivering long lasting and beautiful restorations that increase patient satisfaction! The course aims to demystify the selection criteria. The audience will learn: current ceramic classes * selection rubric * indications across anterior, posterior, single and multi-unit ♦ preparation design ♦ full-proof impression techniques ♦ cementation vs. bonding rational ♦ modern supportive armamentarium and gadgetry

Restoratives Update (Lecture): It is estimated that more than 80% of restorative failures are due to clinical error. This lecture course provides an overview of the restorative options and a comprehensive discussion of the ever-changing world of dentinal adhesives, guiding you through the collection of materials and techniques available for both direct and indirect restorations, including: The options available in adhesive systems including the new advancements in Glass Ionomers • Eliminating the frustration of post-operative sensitivity and restorative failure • The materials and techniques for Class I, II & V restorations • Techniques and materials for repairing porcelain fractures • Achieving predictable esthetic results with anterior implants • Techniques for the preparation, impressions, temporization, lab communication, material selection and cementation of indirect restorations.

Hands-on Pediatric Restorations: Today's parents demand the best restorations of their children and teen's teeth for function and esthetics. Discussions will include: Glass ionomers, resinomers, composites, and various types of crowns • Esthetic facings for stainless steel crowns and chairside/laboratory steps • Esthetic space maintainers and their easy fabrication • Enamel microabrasion, direct-bonded and porcelain veneers for teenage patients. Hands-on will include: Class I and II primary molar prep • Class I and II primar Pulpotomy prep and use of dentin replacement materials ♦ Stainless steel crown preparation ♦ NuSmile crown preparation-molar

Sleep Medicine (2-Day Hands-On Course): Dec. 8 Topics include: Introduction to sleep - sleep stages, disorders • Prevalence - why is there a need for treatment? • Sleep apnea signs/symptoms/clinical issues • Treating snoring and sleep apnea in a dental office - protocol review • Patient education; addressing key issues and getting a snoring patient to convert to a sleep apnea treatment case • Prepare Embletta X100 home sleep study for course attendee(s) **Dec. 15 Topics include:** Download previous week's Embletta X100 study, review study data and sleep report with class A Hands on with Pharyngometer A Rhinometer Working with popular oral appliances like the TAP, Respire, EMA and more! Appliance review - pro's and con's of all of the major sleep appliances Medicare and Dental Sleep Medicine. What's it all about and how can this be a benefit to my practice? Medical insurance bulling "From A to Pay" with a review of the latest codes, fees, procedures and recommendations, covering protocols for both private pay medical insurance and Medicare.

One-on-One Private Implant Dentistry Mentorship

The future of dentistry is in your hands! Make headway with Implant dentistry...

The One-on-One MentorshipTM Training in Implant Dentistry

The One-on-One Mentorship™ Program

One–on-One Dental Implant training program is design for clinicians with a minimal exposure and interested in advancing in the field of implant dentistry. The One-on-One mentorship program offers a team of qualified faculties for you to choose from. Along with the private mentor, the participating clinician will also have access to innovated lectures given by our GDIA directors and special guest lecturers throughout the year. This private mentor program training consists of 9 Modules and participants will receive 63 CE units from the California Dental Board at time of completion.

Detailed course description [9 full days of training]:

[1-2 Modules] All day lectures

[3-8 Modules] Total of 6 full-days of clinical case mentoring on: x-ray, treatment planning, case selection and hands-on live patient surgery.

[9 Modules] Lecture: "Incorporating dental implants to your everyday practice" all office staffs welcome!

**Participants of One-on-One Mentorship program are encouraged to charge patients for dental implants placed.

Benefits of Participants

- 1) Certificate of Completion from GDIA
- 2) Program Handbook & Study Guide
- 3) Textbook: Contemporary Implant Dentistry 3rd Ed. by Carl E. Mish (a \$187 value)
 - Dental Office Medical Emergencies 4th Ed. by Lexi-Comp (a \$67 value)
- 4) One year membership for International Congress of Oral Implantologists (ICOI a \$350 value)
- 5) One year membership for GDIA (a \$295 value)

This "One-on-One" advanced on-site implant training program offers 64 CE units from the California Dental Board. "One-on-One" training program is integrated with didactic, clinical observation, and hands-on surgery. This program consists of 9 days of hands-on implant training, where an on-site qualified GDIA mentor will guide and supervise live-implant surgery as needed. In addition, the participating office staffs will enhance knowledge in patient care implant procedure and implant equipment set-up and handling, giving you the essential skills and knowledge for a successful future in implant dentistry!

Course Outline

Module 1 & 2	2 full day sessions of didactic course
Module 3 - 8	6 full days of clinical case mentoring, including hands-on, live patient care (surgery and restorative sessions) with the GDIA Mentor
Module 9	1 day team session "incorporating dental implants to everyday practice"

14 CE

Course Description

The 'Hands-On Live Patient Surgery' course is an advance session that will cover Maxillary Sinus Augmentation, Guided Bone Regeneration (GBR), and Soft Tissues procedures. This program is open to clinicians with previous exposure to implant dentistry. Participants will receive 14 CE Units from the California Dental Board at time of completion. All hands-on cases are selected and pre-screened by GDIA faculty members before date of surgery. All surgical materials and instruments will be provided. Each participant is expected to see as many patients in the time allocated. This course will be held in Tijuana, Mexico and requires 3 nights stay. Participants are responsible for check-in at San Diego and transportation from San Diego to Tijuana will be provided. Lodging and meals will be provided in a safe and comfortable hotel facility.

Course Schedule

Day 1 Friday

5:00PM Meet at San Diego International Airport. Travel across the border to Tijuana via transportation provided by GDIA

7:00PM Check-in at hotel, and orientation begins after dinner

Day 2 Saturday

7:00AM - 8:00AM Breakfast

8:00AM - 9:00AM Introduction: Surgery Planning

9:00AM - 12:00AM Surgery 12:00PM - 1:00PM Lunch 1:00PM - 5:00PM Surgery 5:00PM - 6:00PM Back to hotel

6:00PM - 8:00PM Dinner & Surgery case review

Day 3 Sunday

7:00AM - 8:00AM Breakfast

8:00AM - 9:00AM Introduction: Surgery Planning

9:00AM - 12:00AM Surgery 12:00PM - 1:00PM Lunch 1:00PM - 5:00PM Surgery 5:00PM - 6:00PM Back to hotel

6:00PM - 8:00PM Dinner & Surgery case review

Day 4 Monday

7:00AM - 8:00AM Breakfast

8:00AM - 9:00AM Introduction: Surgery Planning

9:00AM - 12:00AM Surgery 12:00PM - 1:00PM Lunch 1:00PM - 4:00PM Surgery 4:00PM - 5:00PM Back to hotel

5:00PM - 7:00PM Dinner & Surgery case review

7:00PM - 9:30PM Back at San Diego International Airport

The 4th DENTIS Global Implant Symposium

Organized by ODIA

"Seeking Realistic Solutions, Together..."

September 14 & 15, 2013 (Saturday & Sunday)

> At Millennium Biltmore Hotel MILLENNIUM

Four Stimulating Session, 2 Full days (14CEU)

Session 1 (Saturday am)

Solutions for Long term Stability

- Professor Mohammad Ketabi, BDS, DDS, MSD Factors driving crestal bone loss
- Dr. Tony Daher, DDS, MSEd, FACP Prosthodontic Complications
- Dr. Roman Smucler, DDS, PhD Reliable Implant System as a Predictable Solution
- Dr. Alex Chung, Alex Chung, DDS- Occlusal tricks that make the difference
- Dr. Harel Simon, DMD

 The Loose Implant Syndrome

Session 2 (Saturday pm)

Solutions for Grafting

Speakers & Topics:

- Dr. Jason Yamada, DDS, MS Internal Sinus Manipulation
- Dr. Aldo Vicari, MSC, DDS Autogenous Grafting Solutions
- Dr. Joseph Choukroun, MD The Natural Solution
- Dr. Dong Seok Sohn, DDS, MSD, PhD The Graftless Solution
- Dr. Jin Y. Kim, DDS, MPH, MS, FACD Soft Tissue Solutions

Session 3 (Sunday am)

Solutions for Predictability

Speakers & Topics:

- Professor Charles Goodacre, DDS, MSD Understanding Complications in Implant Dentistry
- Dr. Cary Brown, DDS Digital Planning for Predictability
- Dr. Gianmarco O'Brien, DDS Laboratory Support for Predictibility
- Dr. Allen Honigman, DDS, MS Use of Nd:Yaq Laser in Managing Peri-Implantitis

Post-Symposium Session (Sunday pm)

Solutions for Teamwork

Bring your Whole Team for this Session!!!

Speakers & Topics:

- Dr. Cameron Torabi, DDS, FICOI, FCII Defining the Implant Dream Team
- Ms. Lucy Rohn, RDA Building the Dream Team
- Ms. Monalisa Meza, RDH The Team for Long Term Maintenance
- Dr. Jin Y. Kim, DDS, MPH, MS, FACD Seeking Solutions, as a Team
