Course Fee: \$5,000 • 14 CE Units for CA Licensees • 100 S. First Street, Alhambra, CA 91801 (Los Angeles)
There are 13 patented PST instruments per cassette. Each cassette sold separately at the seminar for \$4,000.

The logo consists of a thick, dark brown background. A yellow rope with a black outline is coiled into a rectangular shape with rounded corners, framing the central text. Inside this rope border is a yellow oval with a white outline. The text "XCEL SEMINARS" is centered within the oval in a bold, black, sans-serif font. The word "XCEL" is on the left and "SEMINARS" is on the right, with a space between them.

XCEL SEMINARS

7th Annual Comprehensive Dental Skills Series

Knott's Berry Farm Resort Hotel

Dec. 14, 2014: Secrets of Pediatric Dentistry—What You Weren't Taught in Dental School!

Dr. David Rothman is a Diplomate of the American Board of Pediatric Dentistry, has completed an Anesthesiology Residency, lectures extensively and has been published in the Journal of the American Dental Association.

Feb. 1, 2015: Clinical Endodontics for GPs

Dr. Reid Pullen was a general dentist in the Army before becoming an Endodontist and is uniquely suited to teach GPs about Endodontic care.

Feb. 15: Comprehensive Introduction to Dental Sleep Medicine

(8AM-5PM and 8 CE Units) *Dr. Rob Veis has been practicing for almost 30 years, was a professor at USC for 12 years and lectures nationally on restorative dentistry and appliance therapy.*

March 1: Achieving Long-term Composite Success

Dr. Lou Graham, is back by popular demand for another great topic! He is an expert in conservative dentistry and an exceptionally educational and entertaining speaker.

COURSE TOPICS

Pediatric Dentistry for GP's: *Are you overwhelmed with angst when you know children will be coming to your office? The presentation will address topics such as behavior management, anesthesia, sealants, esthetic restorative dentistry, pulp therapy and space maintenance generally without use of high tech and expensive gadgets. It will also include a segment on medical emergencies. Objectives include:* Understand and utilize esthetic and resin based materials in restorative techniques ♦ Treatment plan and utilize appropriate dental materials for maintenance of a devitalized primary tooth and immature permanent tooth ♦ Understand the importance and options for space maintenance in the primary and mixed dentition ♦ Identify medical and sedation emergencies in children ♦ Develop an appropriate emergency kit and emergency protocol ♦ Identify risk factors for pediatric patients based upon their unique anatomy, physiology and childhood diseases

Endo for GPs: *This course provides techniques, tips, and tricks to increase endodontic confidence and mastery, including:* Endodontic diagnosis and pulpal testing, case selection, and anesthetic associated with a "hot" tooth ♦ Irrigation protocols during negotiation, instrumentation, and prior to obturation ♦ Discuss in detail access, coronal negotiation, coronal flare, negotiation to working length, obtaining an accurate working length, and an open glide path ♦ Nickel-Titanium rotary and reciprocation files ♦ Sealer and obturation of the root canal system ♦ Post-op instructions and pain management

Intro to Dental Sleep Medicine (8 CE Units): *This course is intended to provide a comprehensive overview of diagnosis and treatment of sleep apnea cases for dentists interested in adding this growth area to their practices. Dr. Veis will cover all aspects diagnosis and the sleep study, deciding which appliances to use for treatment, measuring and fitting the appliances, interacting with the fabricating lab, and how to manage the billings to medical insurance, including:* Introduction to sleep stages, disorders and why there is a need for treatment? ♦ Sleep apnea signs/symptoms/clinical issues and treating sleep apnea via dental appliances ♦ Protocol review ♦ Services to do and read sleep tests ♦ Overview of Appliances - pro's and con's of all of the major sleep appliances ♦ Model analysis, Mixed dentition and how to take construction bites for making certain appliances ♦ Group work on an actual case and diagnosing appliance ♦ Services to fully take care of the medical billing for these services

Achieving Composite Success: *This course will review the very latest products and techniques that truly will allow you to take a refreshed look at composite procedures and ensure your long term success, including:* Understanding and solving the top three reasons why sensitivity does occur and how easy they are to resolve ♦ How lights, glass ionomers and composites all fit together to ensure long lasting asymptomatic restorations ♦ The very latest in caries removal, single tooth anesthesia, low shrink/stress composites and how these will all change your approach to composites ♦ Case-by-case examples of Class I, II, IV, V, composites and the very latest on sealants ♦ Anterior combination casework that combines direct and indirect approaches with lab communication tools, all with the philosophy of "Conservative Dentistry"

The Future of Dentistry Workshop

Advertising is Too Expensive

Stop Referring Your Production Away

Workshop Topics & Discussion

A Powerful 3-Hour Workshop

- Enhance the patient experience by providing continuity of care in the office environment they already know and trust.
- Help your patients save time by not having to commute to a foreign office, jeopardizing the relationship you have worked hard to build up.
- Stop referring your production away: How to bill insurances for specialist procedures performed at your location..
- A new patient referral system that brings advertising costs down.
- Your most powerful resource: YOU!
- Building your future: How to use your existing patient database to build your practice.
