

Southern California Academy of General Dentistry

Presents

The Scope of Direct Resin Restorations

For General and Restorative Dentists and their Staff

AGD and California Board Approved 8 hours of CE units. Sunday, March 9, 2008 8am to 4pm Registration 7:00 am to 8 am

Embassy Suites Hotel-Anaheim South 11767 Harbor Blvd., Garden Grove, CA 92840 Telephone: 714-539-3300

Carlos E. Chavez, DDS, M.S.

This useful lecture and demonstration program will provide you with a variety of clinical "pearls" that can be applied immediately into your practices. Dr. Chavez will discuss the different clinical applications of all composite resins based upon dental bonding, composite types, curing lights, cavity design, matrix techniques and other updates on materials and equipment used today in esthetic dentistry.

Dr. Chavez is an Associate Professor of Dentistry at Loma Linda University, School of Dentistry. In addition to his part-time teaching responsibilities he conducts a private practice in General Dentistry. Dr. Chavez is currently a Diplomat of the prestigious American Board of Operative Dentistry.

Table Clinic Presentation

The Treatment of Sleep Apnea with Oral Prostheses

William Langstaff, DDS, Villa Park, California
Synopsis: Sleep apnea has become a major concern for dentists and p
hysicians in that it can be life-threatening or fatal. Often patients are
unaware of its seriousness. Fortunately the treatment of this condition
is within the parameters of dental practice. Good results can produce
grateful loyal patients.

Participants will learn the following from Dr. Carlos E. Chavez

- How to prevent post-operative sensitivity with composite restorations
- How to choose the best curing light
- How to ensure maximum polymerization of your restorations
- The altering of preparation design as needed for esthetics
- The use of matrices to simplify resin placement
- Application of layering techniques to assure the best esthetics
- Management of procedural complications
