

A decorative graphic featuring a thick, braided rope border in a golden-yellow color against a dark brown background. The rope is arranged in a rectangular shape with rounded corners, with the ends of the rope crossing at the top center. Inside this rope border is a large, horizontal oval with a white outline and a golden-yellow fill. Centered within this oval is the text "AAFE" in a bold, black, stylized font. The letters are blocky and have a slightly irregular, hand-drawn appearance. The 'A's are tall and narrow, while the 'F' and 'E' are shorter and wider, with the 'E' having a distinct horizontal bar.

TERMS & CONDITIONS

Model Patients: It is recommended that each participant brings a model patient to treat and will need to purchase one vial of Botox® and one syringe of dermal filler material for the appropriate course from the course sponsors. Additional vials and syringes will be available for purchase at the course if participants would like additional practice.

Cancellation Policy: Fully refundable no later than 5pm same date one month before course minus \$775 handling fee. No refunds after same date one month before course. We reserve the right to cancel a course and cannot be responsible for hotel deposits or non-refundable airline tickets or any other associated fees. We take no responsibility regarding state board requirements. Participants are responsible for determining whether they are able to perform these procedures. Please refer to our website for complete policies.

California: CA dentists can now place Botox/Dermal Fillers as defined by the CA B. & P. Code section 1625. The American Academy of Facial Esthetics is a CE register provider #5032 by the Dental Board of California.

Frontline TMJ and Facial Pain Therapy

LIVE PATIENT TWO DAY COURSE

Many of your friends, family, and patients suffer from some form of headaches, migraines, stress, occlusion, and TMJ. This course is the missing link that will teach you how to comprehensively evaluate, diagnose, and treat those who suffer from TMJ syndrome and myofascial pain.

UPCOMING COURSE DATES

Feb 14-15Columbus, OH	Apr 18-19Denver (MDDS)
Mar 7-8Dallas	Apr 25-26.....San Diego
Mar 14-15.....New York	May 2-3Orlando
Apr 4-5Seattle	May 9-10.....Orange County

COURSE HIGHLIGHTS

- How to quickly identify and diagnose facial pain patients in your practice
- Learn why you should not spend a dollar on expensive equipment for facial pain diagnosis and treatment
- Learn the two most important free tools used to diagnose myofascial pain
- No more "occlusion confusion" when it comes to TMJ treatment
- Learn on live patients how to precisely identify and inject trigger points for instant and long term pain relief
- Understand when to use different chemotherapeutics for best short-term and long-term therapeutic outcomes
- Learn when to treat and when to refer myofascial pain patients what you must do and what you must not do for facial pain patients
- Understand the use of chemotherapeutics such as Botox for simple and effective pain management and differential diagnosis
- When bruxism appliances are essential and when they are detrimental
- One-on-one comprehensive mentored instruction
- Full Botox pain therapeutic and esthetic training on day two

HIOSSEN

Course Objective & Goals

This program will fulfill a doctor's desire to learn implant dentistry with practical, clinical information and techniques. Emphasis is placed on anatomic considerations, treatment planning and prosthetic techniques.

AIC
Education

Live Implant Surgery Hands-On Training Localized Programs

- Review of anatomic considerations significant in the surgical placement of dental implants
- Review of potential dental implant selection criteria
- Fabrication of radiographic and surgical stents
- Revision of basic surgical protocol for implant dentistry, including flap design, soft and hard tissue management and suturing techniques
- Demonstration of implant restoration using step-by-step and hands-on training in both the surgical and prosthetic phases
- Live implant surgery performed by participant under the supervision of course faculty
- Preparation of candidates for the next level of implantology

Testimonials

“

Dr. Viet Dang: Salinas, CA

The AIC implant course is very comprehensive. The experienced instructor stake you through every step of the implant placement and restoration process. At the end of the course, I was confident to place my own implants. Furthermore, Hiossen sales reps are very helpful. They are even there at my office to help me with some of my first few implant placement cases.

Dr. Vald Kamanin: San Francisco, CA

The Hiossen implant system is the highest quality implant system I have ever used. Not only is this implant system extremely easy to use and restore, but the cost of the system is very economical compared to other implant systems. Not to mention, the Hiossen branch is located in the Bay Area so I am confident my practice will never be without dependable customer service.

Dr. Ankur Parikh: San Bruno, CA

Simply the simplest and the best dental implants system, the instructor Dr. Chen is the best, the whole team from Hiossen is very helpful in every step of incorporating dental implants to my practice.

Dr. Francis Chung: San Francisco, CA

Since switching to the Hiossen implant system, I have been extremely impressed with the customer service. My referring doctors are the utmost importance to me, and because the Hiossen representatives are knowledgeable, I am confident they take great care of my referring doctors. In addition, my referring doctors and I are very satisfied with the cost of the implants and restorative components and when it comes to restoring the implant, the impression techniques are very easy to perform. The Hiossen implant system is making a significant impression in the United States and I predict this system becoming the standard in dental care.
