- ◆ A cementation technique for Onlays that is easy and without post-op sensitivity
- ◆ How to choose among all ceramic options for veneers, Onlays, and crowns
- ◆ How get veneer results that patients will love!

“Dr. Ruiz has done it again! In his Supra-gingival Dentistry course, he delivered timely, cutting-edge information in a dynamic format interactive with the participants.”

– Carolyn B. Wagoner DDS FAGD, Earlysville, Virginia

Synopsis

In this course Dr. Ruiz will demonstrate how properly performed non-metal restorations make dentistry more predictable and trouble-free; as well as healthier for the patient than any traditional restoration has ever been. The improved esthetic results achieved with non-metal veneers, onlays and full crowns have resulted in increased use and enhanced patient acceptance and satisfaction. Nevertheless, clinicians often feel that these restorations are more difficult and less predictable than traditional dentistry. Placing supra-gingival margins ultimately allows clinicians to make porcelain restorations more predictable, stress free, and healthier for the gingival tissue. In this course, Dr. Ruiz will demonstrate material selection and a new paradigm in preparation and cementation. This course will touch on the importance and application of a simple and predictable system for performing comprehensive diagnosis, esthetic evaluation, and Occlusal diagnosis. These systems are indispensable for the success and longevity of each patient's esthetic restoration. Dr. Ruiz will show the step-by-step procedure for tooth preparation, temporization, and sensitivity-free easily bonded cementation using “Supra-gingival Dentistry.”

Learning Objectives

- ◆ Learn the benefits of Supra-gingival dentistry while performing veneers, onlays and full crowns.
- ◆ Demonstrate how porcelain veneers, onlays and full crowns are healthier for patients and more predictable and enjoyable for the dentist.
- ◆ Learn simple predictable tooth preparation techniques specific to all porcelain veneers, metal-free crowns and onlays.
- ◆ Incredibly simple and predictable impression techniques.
- ◆ Learn how to choose the correct type of restorative material and translucency that will allow for supra-gingival dentistry.
- ◆ Choose which bonding systems and cements are most esthetically appropriate to achieve good marginal blends and allow for Supra-gingival dentistry.
- ◆ Describe sensitive-free and easy cementation techniques.
- ◆ Learn predictable temporization techniques.
- ◆ Learn the importance of diagnosis before we perform these procedures.
- ◆ And much more...

Creating hope and
new memories for the children
of our fallen military heroes.

Can you even
begin to imagine
the pain of a
5-year-old after
her hero dies?

Snowball Express is dedicated to helping the children of those who have made the ultimate sacrifice while serving in the U.S. Armed Forces since 9/11.

Each year, Snowball Express hosts over 2000 children and surviving spouses from all across America, for an all-expense paid holiday gathering none of them will ever forget.

American Airlines has stepped up to be The Official Airline of Snowball Express. It's a time of bonding, the creation of new memories during the difficult holiday season and America's chance to say thank you.

Now we're asking for your support.

If you're an individual, we need your dollars. One or a thousand. If you're a corporation, we'll take whatever you've got...products, services, monetary donations.

If you're an organization, we'll take your hearts to help mend those of the survivors back in their hometowns, in small towns and big cities all across America.

Dig deep. Please. The price of freedom for these families is paid every day with the loss of their loved ones.

Their heroes died as Americans. Let's step up as Americans and help their families. They deserve no less.
