COURSE SERIES
SPONSORED BY:

COURSE TOPICS

Pedo and Treating Trauma (lecture): *This course will explore the additional skills needed to provide dental care to the pediatric patient*

including tried and true procedures as outlined below: Effective use of stainless steel crowns ♦ Necessary and effective pulp therapy ♦ Benefits of bilateral and unilateral space maintainers ♦ How to successfully take an impression ♦ How to diagnose and provide treatment plans ♦ Determine appropriate X-Ray's for young patients ♦ Appropriate use of fluoride ♦ Current options for repairing anterior primary teeth ♦ Understanding of the healing process for trauma and a Step-by step evaluation approach ♦ Logical evaluation form that reviews extra and intra-oral soft tissues / facial and dental bones / periodontia and tooth structures ♦ Pre-packaged trauma supply list and a listing of the necessary radiographs, clinical tests, specialists referral list and at timetable for follow-up treatment

Endo for GPs (lecture): *This course provides techniques, tips, and tricks to increase endodontic confidence and mastery, including:* Endodontic

diagnosis and pulpal testing, case selection, and anesthetic associated with a "hot" tooth ♦ Irrigation protocols during negotiation, instrumentation, and prior to obturation ♦ Discuss in detail access, coronal negotiation, coronal flare, negotiation to working length, obtaining an accurate working length, and an open glide path ♦ Nickel-Titanium rotary and reciprocation files ♦ Sealer and obturation of the root canal system ♦ Post-op instructions and pain management

Hands-on Composite Restorations: *This program covers the basics to advanced concepts and techniques in composite placement.*

Time will be allotted to interact with Dr. Hakim and trouble-shoot the resin dentistry challenges attendees encounter daily. Topics include: Bonding/adhesive review and composite selection ♦ Trouble shooting sensitivity ♦ Anterior vs. posterior and minimally invasive strategies ♦ 3-D color development and shade selection ♦ Layering vs. bulk fill ♦ Contacts and contour ♦ Optimal armamentarium (curing lights, burs for both prep and finish, matrices, placement instruments and gadgetry to increase speed and efficiency) **Hands-On Will Include:** Building an anterior tooth, that replicates nature, through a layering technique ♦ Restore a class II restoration with ideal proximal contact and occlusal contour.
