## Dr David Little

Through the use of multimedia, computer generated morphing, un-enhanced digitized photographs and cutting-edge profiles of materials, Dr. Little will not only take the participant to a higher level of technical knowledge, he will excite and motivate the dentist and the team to achieve a new standard of care.

In his presentation, Dr. Little will discuss the exciting possibilities of direct and indirect restorative dentistry in your practice. A review of systems and treatment options will be offered including techniques that can be implemented immediately. Esthetic restorative material and techniques will be presented. Cases will be discussed involving detailed impression taking, wax-up requirements, preparation protocol, provisionalization, laboratory communications, and simplified cementation recommendations.

Participants will learn how to develop a team approach to implant dentistry. They will gain an understanding of the clinical and diagnostic requirements necessary for appropriate implant selection, placement and restoration. An overview of successful strategies for integrating the latest technologies such as digital photography, digital radiology, and laser therapy into your practice will be presented.

With more than 20 years of successful practice management experience, Dr. Little provides invaluable insight into successful private practice leadership methodology. He will outline successful relationship development techniques that will enhance your practice and strengthen your professional life. Discussion will include keys to case acceptance, developing self motivation and building total team motivation.

**AUDIENCE:** This course is for dentists and their teams who want to increase their revenues and aspire to enlarge their vision of service.

**BIOGRAPHY:** Dr. David Little is an accomplished national and international speaker, Professor, author and Researcher. He received his dental training at the UTHSCSA and his practice includes a multidiscipline state of the art facility. His clinical research in implants, laser surgery and dental materials offer patients dramatic results. Dr. Little is a consultant on emerging restorative techniques and materials. His leadership and experience in team motivation and vision are recognized worldwide. His latest project is a co-production of a morphing DVD, which depicts before and after dental cases. A detailed CV is available upon request.

The logo consists of a thick, yellow rope with a black outline, forming a rectangular border with rounded corners. At the top center, the rope is knotted. Inside this border is a yellow oval with a white outline. The text "SOUTHERN CALIFORNIA ACADEMY OF GENERAL DENTISTRY" is centered within the oval in a bold, black, sans-serif font.

Presents

## Analysis of Beauty in Aesthetic Dentistry

This Program is for GPs, Restorative Dentists and Periodontists  
AGD and California Board Approved 8 hours of CE units.

Sunday, August 26, 2007 8AM---5 PM ( Register 7:30 to 8 AM)

Embassy Suites Hotel-Anaheim South (Just south of Disneyland)  
11767 Harbor Blvd., Garden Grove, CA 92840 Tel: 714-539-3300

### Speaker: Hessam Nowzari, DDS, Ph.D

Since 1995 Dr. Hessam Nowzari has been the director of advanced periodontics at USC. He is a Diplomate of the American Board of Periodontology with an expertise in dental implantology and full-mouth reconstruction. Dr. Nowzari holds a Ph.D in biology and health sciences. He is the founder of the Taipei Academy of Reconstructive Dentistry in Taiwan, and one of only two American members of the Dniepropetrovsk State Academy of Medical Sciences in Ukraine. Since 2002 Dr. Nowzari has served as one of the selected scientific experts on an international panel charged with assessing and ranking research proposals for the Ministry of Education & Research, section of medical engineering in Italy. He was elected to the Italian Board of Experts for the Evaluation of medical products for patient safety and health integrity in 2004. Dr. Nowzari is the editor of one of the leading reference publications, *Aesthetic Periodontal Therapy: Periodontology 2000*.

# The Exciting World of General Dentistry

## Table Clinic Presentation: Minimally Invasive Correction of a “Gummy” Smile Ziv Simon, D.M.D., M.S.c., Beverly Hills, California

Dr. Simon is a diplomate of the American Board of Periodontology and a Fellow of the Royal College of Dentists of Canada. He publishes and lectures nationally and internationally on advanced tissue reconstruction, implant dentistry and esthetic periodontal surgery. He is the founder of the Beverly Hills Multidisciplinary Study Group and taught as a clinical assistant professor at USC School of Dentistry.

**Synopsis:** We have all seen patients with attractive facial features that often can be diminished by the display of excessive maxillary gingival tissue. Dr. Simon will demonstrate how this excessive gingival display can be reduced and a beautiful smile produced by utilizing minor soft tissue vestibular surgery, performed using only local anesthesia.

### Attendees will learn from Dr. Hessam Nowzari:

- The definition of dental “beauty” measured against the risks in therapy.
- Reliable current clinical techniques to restore bone and soft tissue.
- Comparison of different implant designs related to the aesthetics of anterior adjacent implants.

## SECOND QUARTER PROMOTIONS

April - June, 2007

At Kings Two Dental, helping you choose the Equipment that will achieve greater levels of success in your practice is our goal.

Call us at **(800) 715-5464** and let our Equipment Specialists show you how, with our financing options, a high-end **Midmark Operatory Package** is well within your budget.

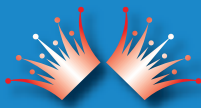

### MidMark Operatory Package

- The Midmark Procenter Instrument Delivery System pivots on anti-friction needle bearings that are held in the post mounted console box. The console box provides a highly stable stationary mounting location for the Procenter, Midmark Light and optional vitreous china cuspidor.
- The Midmark Light mounts into the console to deliver the quality white light needed to properly identify shades, see details and diagnose tissue.
- The Assistant's Instrument Delivery System is available in your choice of two mounting configurations: a left/right rear chair hub mount or a console mount.

### MidMark LR Operatory Package

- The Midmark LR uses a simple pivot mechanism and graceful curved arms to position instruments virtually anywhere around the chair.
- The LR Operatory lighting accommodates virtually infinite positions while providing exceptional quality of lighting.
- The Assistant Delivery System, like every other component of the Midmark LR can be positioned almost anywhere when required. It features integrated chair controls, precision syringe controls and an integrated vacuum solids collector.
