

The logo consists of a dark brown background. A thick, yellow rope with a black outline is coiled into a rectangular shape with rounded corners, framing the central text. In the center of this rope frame is a horizontal oval with a white border and a yellow fill. Inside the oval, the words "XCEL SEMINARS" are written in a bold, black, sans-serif font. The rope has frayed ends at the top and bottom, suggesting it is a lasso or a similar tool.

XCEL SEMINARS

5th Annual Comprehensive Dental Skills Series

Crowne Plaza San Jose/Silicon Valley

June 23, 2013: The Absolute Latest Info on What's Hot and Getting Hotter in Dentistry! (Lecture) *Dr. Howard Glazer is Past President of the Academy of General Dentistry and he reviews new products and materials on a regular basis for his "What's Hot and Getting Hotter" monthly column for AGD Impact magazine.*

COURSE TOPICS

What's Hot and Getting Hotter: This course includes tons of reviews of new products and materials based on Dr. Glazer's monthly column by the same title for AGD Impact magazine, and if you've attended his course before, don't worry it is chock full of new products and info! Topics will include: Curing lights ♦ Desensitization & Adhesives...a sticky subject made simple ♦ Composites for esthetic fillings not just white ones ICON Infiltration technique..for minimally invasive procedures ♦ Impression materials, Provisional materials..provisionals should look great and cements ♦ Burs and Lasers..simple, easy and quick w/ great results ♦ Endodontic instruments and dentine replacement materials ♦ Tissue retraction and fluid control ♦ Reducing Sensitivity with topical paste application & Fluoride varnishes ♦ Matrix bands for perfect, predictable contacts ♦ Whitening systems..that work ♦ Easy to use Thermoplastics ♦ Patient communication...high-tech and really cool! ♦ Going Digital..simple, easy and soon to be a must! ♦ Loupes, instruments, equipment and more...

Rejuvenating Worn Dentition: One problem for restorative dentists is that when teeth wear, they move. Understanding this concept, being able to recognize the different types of wear, and knowing the treatment options are instrumental in obtaining the desired results. This lecture includes not only the etiologies and distinguishing characteristics of tooth wear, but presents a systematic approach to diagnosis and restoration illustrated with clinical cases. Multidisciplinary coordination and lab communication are key elements to successful treatment and will also be discussed.

Pediatric Dentistry for GP's: Dr. Wagoner presents many issues in pediatric restorative dentistry and reviews both his successes and failures with various techniques and materials. He also discusses twenty-five ideas that have changed his ways of practicing for the better. Additional topics include: restorations of primary incisors, including, diagnostic and treatment techniques specific to the preparation and placement of cosmetic restorations of primary incisors ♦ the unique technique and handling characteristics of pre-veneered stainless steel crowns ♦ Making evidence based decisions during product selection ♦ Lit Review of amalgam and its health effects including its use compared to that of composites and stainless steel crowns.

Hands-On Minor Ortho and Appliance Therapy: (An additional fee is required for this course): Dr. Veis will teach how to add interceptive orthodontics for children and appliance therapy minor tooth movement to your cosmetic cases, including: Helping children with simple space maintenance, anterior crossbites, posterior crossbites and eliminating bad habits from causing malocclusion ♦ Techniques to fix anterior crowding ♦ Minor tooth movement and veneers ♦ An easy 6 month braces technique ♦ Keeping patients by making final retainers. Hands-on includes: Typodont exercises for creating esthetic appliances and space maintainers with easy fabrication ♦ Chair side band and loop space maintainer procedures

Practical Endodontics: This seminar will discuss the latest practical information regarding endodontic diagnosis, treatments, new game-changing materials and files and a plethora of new cases that attendees will discuss in an interactive format, including: What is affecting treatment outcomes? ♦ Rational, evidence-based case selection ♦ Endo-perio interrelationship ♦ Procedural errors and their prevention ♦ Dentine replacement materials and its many applications in complex cases ♦ Restoring endodontically treated teeth with bonded core composites ♦ Diagnosis of cracked teeth & treatment options ♦ Endodontic retreatment vs. implants—when, where & how to decide

Frontline TMJ, Headache and Facial Pain Therapy

LIVE PATIENT TWO DAY COURSE

Many of your friends, family, and patients suffer from some form of headaches, migraines, stress, occlusion, and TMJ. This course is the missing link that will teach you how to comprehensively evaluate, diagnose, and treat those who suffer from TMJ syndrome and myofascial pain.

UPCOMING COURSE DATES

June 13-14.....Cleveland	August 1-2.....Orange County
June 13-14.....Scottsdale	August 1-2.....Boston
June 20-21.....Atlanta (w/ GDA)	August 8-9.....Chicago
July 11-12.....Portland, OR	August 15-16.....New York City
July 11-12.....New Orleans	August 15-16..... NEW! Honolulu, HI
July 18-19.....Indianapolis	September 19-20.....Atlanta (w/ GDA)
July 25-26.....Houston	

COURSE HIGHLIGHTS

- How to quickly identify and diagnose headache and facial pain patients in your practice
- Learn why you should not initially spend a dollar on expensive equipment for facial pain diagnosis and treatment
- Learn the two most important free tools used to diagnose myofascial pain
- No more "occlusion confusion" when it comes to TMJ treatment
- Learn on live patients how to precisely identify and inject trigger points for instant and long term pain relief
- Understand when to use different chemotherapeutics for best short-term and long-term therapeutic outcomes
- Learn when to treat and when to refer myofascial pain patients
- Understand the use of chemotherapeutics such as Botox for simple and effective pain management and differential diagnosis
- One-on-one comprehensive mentored instruction

TESTIMONIALS

The AAFE course is one of the most comprehensive and fantastic courses I have ever taken. We learned so much about proper techniques. I can't believe how much information they packed into two days. The best part of the course was the live patient hands-on. I feel so comfortable going back to my office and starting right away.

— **Kathrynne Dryke, DDS**

"I'm so glad to have attended this course! In just one day of learning I feel as if I can confidently & competently treat the many TMJ and facial pain sufferers in my practice. It's exciting to know that without a doubt I can bring them relief from their pain. Let me at 'em!"

— **Kelly Edward, DDS**

TERMS & CONDITIONS

Model Patients: It is recommended that each participant brings a model patient to treat and will need to purchase one vial of Botox® and one syringe of dermal filler material for the appropriate course from the course sponsors. Additional vials and syringes will be available for purchase at the course if participants would like additional practice.

Cancellation Policy: Fully refundable no later than 5pm same date one month before course minus \$775 handling fee. No refunds after same date one month before course. We reserve the right to cancel a course and cannot be responsible for hotel deposits or non-refundable airline tickets or any other associated fees. We take no responsibility regarding state board requirements. Participants are responsible for determining whether they are able to perform these procedures. Please refer to our website for complete policies.

California: CA dentists can now place Botox/Dermal Fillers as defined by the CA B. & P. Code section 1625. The American Academy of Facial Esthetics is a CE register provider #5032 by the Dental Board of California.

NJ & GA: 21 Hour AAFE Board Approved Courses in NJ and GA additional \$300 tuition.

The logo consists of a thick, dark brown rope forming a rectangular border with rounded corners. Inside this border is a light brown oval with a thin white outline. GLOBAL MINI IMPLANTS

One-on-One Private Implant Dentistry Mentorship

The future of dentistry is in your hands!
Make headway with Implant dentistry...

63 CE

The One-on-One Mentorship™ Training in Implant Dentistry

The One-on-One Mentorship™ Program

One-on-One Dental Implant training program is design for clinicians with a minimal exposure and interested in advancing in the field of implant dentistry. The One-on-One mentorship program offers a team of qualified faculties for you to choose from. Along with the private mentor, the participating clinician will also have access to innovated lectures given by our GDIA directors and special guest lecturers throughout the year. This private mentor program training consists of 9 Modules and participants will receive 63 CE units from the California Dental Board at time of completion.

Detailed course description [9 full days of training]:

[1-2 Modules] All day lectures

[3-8 Modules] Total of 6 full-days of clinical case mentoring on: x-ray, treatment planning, case selection and hands-on live patient surgery.

[9 Modules] Lecture: "Incorporating dental implants to your everyday practice" all office staffs welcome!

**Participants of One-on-One Mentorship program are encouraged to charge patients for dental implants placed.

Benefits of Participants

- 1) Certificate of Completion from GDIA
- 2) Program Handbook & Study Guide
- 3) Textbook:
 - Contemporary Implant Dentistry 3rd Ed. by Carl E. Mish (a \$187 value)
 - Dental Office Medical Emergencies 4th Ed. by Lexi-Comp (a \$67 value)
- 4) One year membership for International Congress of Oral Implantologists (ICOI - a \$350 value)
- 5) One year membership for GDIA (a \$295 value)

The One-on-One Mentorship™ Program

This "One-on-One" advanced on-site implant training program offers 64 CE units from the California Dental Board. "One-on-One" training program is integrated with didactic, clinical observation, and hands-on surgery. This program consists of 9 days of hands-on implant training, where an on-site qualified GDIA mentor will guide and supervise live-implant surgery as needed. In addition, the participating office staffs will enhance knowledge in patient care implant procedure and implant equipment set-up and handling, giving you the essential skills and knowledge for a successful future in implant dentistry!

Course Outline

Module 1 & 2	2 full day sessions of didactic course
Module 3 - 8	6 full days of clinical case mentoring, including hands-on, live patient care (surgery and restorative sessions) with the GDIA Mentor
Module 9	1 day team session "incorporating dental implants to everyday practice"
