

The logo features the word "DENTOX" in a bold, black, sans-serif font, centered within a light yellow oval. This oval is surrounded by a thick, dark brown rope that forms a rectangular border with rounded corners. The rope has a detailed braided texture and ends in small tassels at the top and bottom. The entire design is set against a solid dark brown background.

**ADD DENTAL SPA
THERAPIES TO YOUR
PRACTICE WITHOUT
WASTING YOUR HARD
EARNED DOLLARS ON
UNDER-USED EQUIPMENT**

Master these highly effective, non-invasive, non-aggressive and low risk treatments, and then implement them immediately into your practice on Monday morning - without investing in any new equipment!

Learn from the world expert on his patented dentofacial protocols for Botulinum toxins and injectable fillers.

Dr Katz's techniques have been taught to 1000's of dentists and physicians internationally. He and his team will personally instruct injection techniques and intensive hands-on sessions on your own patients (or you be a patient).

Learn how to quickly and perfectly deliver these highly effective treatments in less than an hour. Observe numerous colleagues treating numerous other patients and conditions.

**7 hours of CE credits per program
6 hours lecture and demonstration
1 hour hands on**

These are the only AGD accredited dentofacial courses of this type in the USA

Two incredible courses on injectible dento- facial therapeutics

I. ADVANCED BOTULINUM TOXIN (BOTOX®) TRAINING FOR DENTO-FACIAL CONDITIONS

Cost: \$1250 including a complete treatment kit + up to 15 units BTX to be used at the meeting only.

Learn how to use Botox® as a pharmaceutical splint for parafunctional clenching and pain, and associated effects on facial esthetics. Botox® combined with Disclusal splints and with Kinesio Taping® for dentofacial conditions will be discussed. www.dentox.com

2. ADVANCED TRAINING USING INJECTIBLE FILLERS FOR IDEAL LIP ESTHETICS - Cost \$1250 excl. filler materials. All other materials provided

Learn how to use most injectible fillers (incl. Restylane®, Juvaderm®, Hylaform Plus® etc) to augment lip size, shape and support to match the face, occlusion and dental/smile esthetics. Create beautiful lips - avoid "duck beaks" or "fish lips."

Improve lip esthetics after dentures or dental implants. www.lipfillers.com

The cost for both programs is \$2500.

Course Format

Registration begins at 8.30am and the course begins promptly at 9am. The morning lecture session is given live by Dr Katz. This will be with PowerPoint slides, videos or live patient demonstrations. After lunch attendees will have the opportunity to inject a patient under the supervision of highly experienced trainers. All patients will be anesthetized by attendees. **New super effective topical**, and injectible local anesthetic in disposable syringes will be provided. Bring your own anesthetic and syringes should you prefer this. Your patient treatment time is less than one hour. You will have the opportunity to observe the diagnosis, treatment planning and treatment of numerous patients co-treated by other training staff and attendees. The injectible filler material usually used for teaching is Hylaform Plus. This ultra safe material should last 2-3 months with correct technique. Only materials sold at the program may be used. Typically each patient uses 2-3 syringes (1ml of material per syringe). The material costs \$235 per syringe.

What you will learn at these fun courses:

- Perfect technique and unique devices to enhance your treatments
- Which techniques and materials to use and which to avoid.
- Diagnosis of multiple patient types
- New topical anesthetic (strong enough to numb a tooth!)

This hands-on course is both educational and enjoyable. Many past attendees claim that these two hands on courses are the best dental courses that they have ever attended!

**Registration is limited – courses sell out !!
Fax this page with your active license to
Ann Katz (contact person) now at
(858) 550-9533 to register.**

Please circle your selections carefully in black ink.
1 = Botox course; 2 = lip filler course

Cancellation policy: Refundable until 30 days before meeting minus \$175 handling fee - thereafter fee transferred to another date for an additional \$175. Course fees will be **fully refunded** only if course is cancelled by organizers. There is no refund for not attending without canceling. There shall be no refund for course related expenses under any circumstances. Cancellations are valid **only** with written receipt from course organizers. California dentists may attend and observe all live procedures but may not inject at the program. According to the recently passed Section 1638.1 of the Business and Professions Code of California, dentists may not perform augmentation procedure on the lips including those that affect dental esthetics. Dental practices should have a medical director before any other healthcare professional performs non-dental procedures in their offices. (This enormous opportunity for your practice and for dentistry will be discussed in detail at the program.)
