

The logo consists of a thick, dark brown background. A yellow rope with a black outline is coiled into a rectangular shape with rounded corners, framing the central text. Inside this rope border is a yellow oval with a white outline. The text "XCEL SEMINARS" is written in a bold, black, sans-serif font across the center of the oval. The word "XCEL" is on the left and "SEMINARS" is on the right, with a space between them.

## 3rd Annual Comprehensive Dental Skills Series

The Knott's Berry Farm Resort Hotel

### MARCH 18, 2012:

#### **Pediatric Dentistry For GP's (Lecture)**

*Dr. Fred Margolis is a pediatric dentist, an expert on pediatric care, lectures internationally and has been named a "Top Clinician in Continuing Education" by Dentistry Today Magazine.*

### APRIL 15, 2012:

#### **Predictable Implant Esthetics (Lecture)**

*Dr. Paresh Shah is an Executive Board Member of the Canadian Academy for Esthetic Dentistry and specializes in implants, esthetics and complex restorative treatments.*

#### **THE KNOTT'S BERRY FARM RESORT HOTEL**

**(Beach Blvd Exit off 5, 405 & 91 Fwys) - 7675 Crescent Avenue, Buena Park CA**

**All Courses are 8AM-4PM on Sundays & 7 CA CEs each**

**\$139 PER COURSE OR  
BOTH COURSES FOR ONLY \$229  
(14 CA AND AGD CES)**

COURSE SERIES SPONSORED BY:

## COURSE TOPICS

**Pediatric Dentistry for GP's:** Today's parents demand the best restorations of their children and teen's teeth for function and esthetics. Discussions will include: Glass ionomers, resinomers, composites, and various types of crowns

- ◆ Esthetic facings for stainless steel crowns and chairside/lab steps
- ◆ When space maintainers are indicated and the easy fabrication of removable and fixed appliances, including a reference chart of when space maintainers are indicated for each development stage
- ◆ Enamel microabrasion, direct-bonded and porcelain veneers for teenage patients
- ◆ Laser Dentistry – learn how to “numb” a tooth in 30 seconds, perform gingivectomies, frenectomies, fibroma excisions, crown lengthening and troughing for crowns and bridge with no shots
- ◆ Review of traumatic injuries and their treatments, including pulp therapies
- ◆ Intrusions, dislocations, avulsions and the Ellis Classification of injuries
- ◆ Radiographic techniques for hard and soft tissue injuries
- ◆ The protocol for reimplantation of permanent incisors, including splinting mechanisms
- ◆ The dark primary incisor and treatment of trauma to primary teeth.

**Predictable Implant Esthetics:** Implant, abutment and final restoration selection all play a vital role to the success of implant treatment. This seminar will provide easy techniques to implement in your practice, covering:

- ◆ Proper impressioning techniques and lab communication
- ◆ Abutment selection
- ◆ Provisionalization, tissue management and prosthetic design

## REGISTRATION

TUITION	BOTH COURSES	EACH INDIVIDUAL COURSE
<b>More than 14 days before an event</b>	<b>Dentist: \$229, Staff: \$179</b>	<b>Dentist: \$139, Staff: \$119</b>
<b>Less than 14 days (Onsite Add \$20 fee)</b>	<b>Dentist: \$229, Staff: \$179</b>	<b>Dentist: \$159, Staff: \$139</b>

## **MIKE MALONE, DDS, FAGD**

Dr. Mike Malone graduated with a Master's degree from Louisiana Tech University and received his dental degree from the LSU School of Dentistry in 1976. Dr. Malone's commitment to excellence in restorative and cosmetic dentistry started early with extensive continuing education with his primary mentors: L. D. Pankey, Pete Dawson, Alvin Fillastre, and Mike Schuster. Dr. Malone maintains a full-time dental practice limited to cosmetic and reconstructive dentistry in Lafayette, LA.

### **HOW TO ACHIEVE PREDICTABLE EXCELLENCE IN COSMETIC DENTISTRY**

#### **Part 1: GETTING YOUR PATIENTS TO SAY YES TO COSMETIC AND RESTORATIVE DENTISTRY**

Dr. Malone developed a highly successful cosmetic-oriented, fee-for-service practice in a blue-collar, middle-class community. He will discuss techniques he uses to get most patients to schedule, to look forward to, and to rave about their comprehensive new patient examination. He will go over his step-by-step process (utilizing advanced digital photography and presentations) for achieving predictable case acceptance for optimum dentistry. He will also present his Dental Health Program, a preventive periodontal program that produces predictable results in any size practice.

#### **Part 2: SMILE DESIGN AND ADVANCED PROVISIONAL FABRICATION**

High quality provisional restorations are essential in a dental practice dedicated to comprehensive restorative dentistry. Cosmetic reconstruction is much more predictable when using superbly made provisionals to serve as a blueprint for the final restoration. This presentation will provide the details of a technique used to fabricate multilayered composite provisional restorations for porcelain veneers and complex full-arch cases.

#### **Part 3: PREDICTABLE COSMETIC AND RESTORATIVE DENTISTRY**

Dentists often find that crown and bridge insertion appointments turn into "try-in" appointments. When the margin is open, the occlusion is high, or the bridge will not seat, who is responsible, the dentist or the technician? With the growing popularity of all ceramic veneers, crowns and bridges, predictability becomes even more important. This presentation will review techniques designed to reduce the stress of cosmetic and restorative dentistry in a general practice. After completion of this course the participant will be able to:

##### **Learning Objectives:**

- Comprehensive examination protocol
- Achieving predictable case acceptance at any level
- Using a periodontal program to initiate patient care
- Principles of smile design to be used to develop an ideal diagnostic wax-up.
- How to transfer the information in the diagnostic wax-up into a completed provisional that rivals the final restoration.
- Systems to help communicate the results of the completed prototype to your technician so you can deliver a predictably ideal restoration.
- Complete the preparation phase faster and with more control
- Manage soft tissue and take ideal impressions every time
- Complete and seat finished restorations with predictability
