and Medical Billing

FACIALESTHETICS.ORG | 1.800.952.0521

President's Message

The secret to success in any profession is investing in yourself and learning new skills to expand your practice. Having been involved in private practice and as a clinical educator for nearly 35 years, there has never been a more exciting time and more opportunity for every practice.

The fastest growing areas of dentistry are frontline TMJ/orofacial pain therapy, dental sleep medicine, medical insurance billing, and Botox and dermal fillers for esthetic and therapeutic uses. The American Academy of Facial Esthetics (AAFE), with its close to 8000 members, is the leader in dental sleep medicine, orofacial pain treatment, and dental and facial esthetics live patient training and has trained more dental and medical professionals than any other educational institution in the world.

Professionals choose AAFE courses because the outstanding training is equal to and most often exceeds the education taught in academic communities and medical and dental residencies. One of the many reasons the AAFE is so special is our world renowned faculty, who are all practicing clinicians, offer post course support to our members through online forums and have created the most supportive and positive online community in dentistry and medicine. We are here to help you expand your practice and change your patient's lives forever.

Kindest regards,

Dr. Louis Malcmacher, DDS
AAFE President

AAFE Botox Live Patient Training at the 2013 ADA Annual Session

About Us

HOW ARE WE DIFFERENT?

The American Academy of Facial Esthetics (AAFE) is the premier live patient training organization for Botox and dermal fillers training, frontline TMJ and orofacial pain therapy, dental sleep medicine and medical billing for every practice. The AAFE provides the most comprehensive training to achieve the best esthetic and therapeutic outcomes within the scope of state dental practice acts. Our outstanding post-course support will ensure successful procedure integration into your practice and is only available through the AAFE.

The formal continuing education programs of this program provider are accepted by AGD for Fellowship, Mastership and membership maintenance credit. Approval does not imply acceptance by a 4/1/2014 to 3/31/2016. Provider ID# 321332

Frontline TMJ, Headache, and Orofacial Pain Therapy

ONE ON ONE MENTORED LIVE PATIENT TRAINING COURSE

Many of your friends, family, and patients suffer from some form of headaches, migraines, stress, occlusion, and TMJ. This course is the missing link that will teach you how to comprehensively and systematically evaluate, diagnose, and treat those who suffer from TMJ syndrome, headaches, and myofascial pain.

Upcoming Course Dates

JUNE 12 / HACKENSACK, NJ*

**21 hour GA and NJ Board approved course*

COURSE HIGHLIGHTS

- ≡ How to quickly identify and diagnose headache and facial pain patients in your practice
- ≡ Learn why you should not initially spend a dollar on expensive equipment for facial pain diagnosis and treatment
- ≡ Understand the anatomy and pain pathways that will immediately give you the best patient outcomes
- ≡ No more "occlusion confusion" when it comes to TMJ treatment
- ≡ Learn on live patients how to precisely identify and inject trigger points for instant and long term pain relief
- ≡ Learn when to treat and when to refer myofascial pain patients
- ≡ Understand the use of chemotherapeutics such as ethyl chloride, lidocaine and Botox for simple and effective pain management and differential diagnosis
- ≡ Change your patient's lives with a systematic and effective protocol for treating myofascial pain
- ≡ This course is most often taken together with Botox training. Most participants attend all 3 days together.

Botulinum Toxin (Botox®) Training for Every Practice

THE #1 BOTOX® LIVE TRAINING COURSE!

The use of Botox in dentistry has been around for over 20 years in the treatment of TMD and myofascial pain and is well known for its esthetic uses in the oral and maxillofacial areas. Nearly everyone knows the benefits of Botox – it is about time your office offers these highly desired patient services – your office team will want them too! The course objective is to enable dental professionals to offer practical concepts, techniques and new dental services, and be proficient with the materials, techniques, and instrumentation of Botox treatment.

Upcoming Course Dates

MAR 14 / LOUISVILLE (W/ KYDA)

MAR 14 / DALLAS

MAR 21 / NEW YORK (LEVELS I, II & III)

JUNE 13 / HACKENSACK, NJ*

**21 hour GA and NJ Board approved course*

COURSE HIGHLIGHTS

- ≡ In depth instruction of anatomy, neurophysiology, and musculature of the oral and maxillofacial areas for the best patient outcomes
- ≡ Learn the physiology and pharmacology of oral and maxillofacial injectable treatment
- ≡ Detailed patient evaluation for the best esthetic and therapeutic treatment possible
- ≡ Live patient hands-on training including diagnosis, treatment planning, and proper dosing and delivery of botulinum neurotoxin
- ≡ Learn the AAFE protocols and treatment techniques including anatomical muscle sites, muscle depths, proper preparation and dilution for the best oral and maxillofacial esthetic outcomes
- ≡ Proper fee structures for Botox treatment
- ≡ All the customizable office forms and informed consent needed to begin treating patients immediately
- ≡ One on one comprehensive mentored instruction as you treat your patients
- ≡ This course is most often taken together with the Frontline TMJ/Facial Pain course and the dermal filler course

Dermal Filler Training for Every Practice

THE BEST COMPREHENSIVE LIVE PATIENT TRAINING AVAILABLE

Dermal fillers are used to correct soft tissue volume deficiencies in the oral and peri-oral areas and are now considered essential to every anterior dentistry case. A great looking smile involves the teeth and all the surrounding soft tissue which can be volumized with dermal fillers. The course objective is to enable dental professionals to offer practical concepts, techniques and new dental services, and be proficient with the materials, techniques, and instrumentation of dermal filler treatment.

COURSE HIGHLIGHTS

- ≡ Volumizing the midface and lower face using AAFE specific protocols for a more esthetic and youthful appearance
- ≡ Treat lower face folds to create and support proper lip and smile lines
- ≡ Beautiful lip enhancements as part of every esthetic dental case
- ≡ Learn how to treat deficient lip and peri-oral volume for therapeutic cases such as angular cheilitis
- ≡ Detailed patient evaluation for best dento-facial esthetic outcomes
- ≡ Live patient hands-on training including diagnosis, treatment planning, and proper dosing and delivery of dermal fillers
- ≡ Proper fee structures for dermal filler treatment
- ≡ One on one comprehensive mentored instruction as you treat your patients
- ≡ This course is usually taken together with the Botox course on the previous page with most attendees taking all 3 course days together.

NEW! Frontline Dental Sleep Medicine, Bruxism Therapy and Medical Insurance for Every Practice

INTEGRATE THIS IMMEDIATELY INTO YOUR PRACTICE

In this hands-on course, you will learn the bottom line about frontline dental sleep medicine, obstructive sleep apnea and bruxism treatment and the successful billing of medical insurance in the dental office. These topics represent the biggest missed opportunities for dental practices. This course will clearly explain how to successfully incorporate these areas into your office in a step by step easy to understand way as only the American Academy of Facial Esthetics (AAFE) and Dr. Louis Malcmacher can teach.

Upcoming Course Dates

- | | |
|-------------------------|-------------------------|
| MAR 12-13 / CHICAGO | MAY 1-2 / NEW YORK CITY |
| APRIL 3-4 / LOS ANGELES | MAY 7-8 / ATLANTA |

COURSE HIGHLIGHTS

- ≡ The complete dependence and interrelationship between OSA/bruxism/orofacial pain that you must know before you make any oral or bruxism appliance for a patient – this is the missing link only taught at this AAFE course!
- ≡ Learn how to read sleep studies that will also test for bruxism and clenching
- ≡ The AAFE protocols for choosing the right oral appliances for each patient whether it is for clenching, bruxism, occlusal disease, restorative dentistry, or sleep apnea
- ≡ Use chemotherapeutics (lidocaine / Botox) for effective pain management and allowing patients to adapt to sleep apnea oral appliance therapy.
- ≡ Learn to properly document and bill medical insurance for every dental practice
- ≡ Understand OSA fee structures for oral appliance therapy and follow up treatments
- ≡ And much more!

Testimonials

"These courses are one of the most user-friendly, fun, relevant, hands-on courses I've been to in 30+ years of dentistry. It gives a new lease on life to your dental career!" - Dr. Richard L. Lepard

"Excellent course! I would highly recommend this to any clinician desiring to improve their knowledge and skills in treating TMJ/Orofacial pain. I participated as both a clinician and patient and I feel prepared to treat my patients!" - Dr. Paul Child

"I'm so glad to have attended these courses! In just one day of learning I feel as if I can confidently & competently treat the many TMJ and orofacial pain sufferers in my practice. It's exciting to know that without a doubt I can bring them relief from their pain. Let me at 'em!" - Dr. Kelly Elward

COURSE TOPICS

OSHA, Infection Control and the CA Dental Practice Act (Lecture): This course will not only entertain you and your staff but will enable attendees to meet license renewal requirements and state and federal requirements for OSHA Bloodborne Pathogen training, the California Dental Practice Act and Infection Control.

Restorative Success with Esthetic Composites and World Class Crown & Bridge (Lecture): *Improve your direct and indirect restorations with these gems, including:* Step-by-step techniques to create lifelike and morphologically precise direct composite restorations ♦ The use of composite tints to create characterized restorations that rival those produced in the laboratory ♦ A review of indirect restorative materials and options in dental ceramics ♦ A review of prep design and tissue management for perfect impressions ♦ Provisionalization for full coverage and veneers ♦ No prep veneers: A realistic option? ♦ Prosthetic tooth repositioning and "orthodontic" tooth preparation ♦ Minor tooth movement with Essix appliances ♦ Computerized shade matching ♦ Digital impression making ♦ Cementation protocols for provisional cementation ♦ Cementation protocols for total etch and conventional cements: Which materials for which cement ♦ Occlusal adjustment during the cementation process

Worn Dentition—Demystifying Full-Mouth Rehabilitation (Lecture): *This course is designed for the progressive restorative dentist who wants to feel more confident in providing full-mouth rehabilitation. Well-documented cases will be covered from the initial workup to the post treatment follow-up, detailing all TMJ treatment, Perio, Surgery, Occlusal Management, Aesthetic considerations, and future risk mitigation. The participant will leave with a thorough understanding of the necessary steps to take a nervous patient with multiple dental issues and bring them to a state of dental health and self-esteem. Objectives include:* The proper examination, treatment planning and case protocols for full-mouth rehabilitation ♦ How to break difficult cases down to the 5 basic elements of dental health ♦ The tools (education and equipment) necessary to finish these cases predictably.

Restoring Your Confidence in Pediatric Care (Lecture): *An extensive review of all procedures in pediatric restorative dentistry, including:* Diagnosis (Clinical and Radiographic), treatment planning (including cases that participants diagnose and treatment plan from bitewing x-rays), primary anterior and permanent posterior restorations, primary pulp therapy, stainless steel crowns, anterior strip crowns and preventive restorations with air abrasion technology. Become familiar with all forms of space maintainers and many simple active appliances.

Combination of Tilted & Axial Implants for Immediate Loading of Patients With Atrophic Jaws

Friday & Saturday • June 6-7, 2014

• 9am - 5pm • \$695 • 14 CE Credits • Hands-On •

Dr. Homa Zadeh

A variety of treatment options are available for the treatment of patients with atrophic jaws. These often require augmentation of the alveolar bone, maxillary sinus, nerve repositioning, etc.

An alternative treatment option has been proposed which involves application of tilted implants in the posterior region in combination with axially positioned implants in the anterior area.

Upon completion of this course participants will:

- Biomechanical consideration of tilted and axial implants.
- Treatment planning and patient case selection criteria.
- Surgical protocol for placement of tilted implants into native bone.
- Prosthetic protocol for immediate loading of tilted/axial implants.

Dr. John Sorensen

All On 4 Continuum By: Dr. John Sorensen

Date & Tuition TBA • Estimate 28 CE Credits

- Day 1 Lecture & Clinical - patient workup for impressions, treatment planning, prosthesis design. Hands-on exercise of conversion of the prosthesis.
- Day 2 Lecture - Clinical- surgery with extractions, implant placement, prosthodontic conversion of prosthesis, laboratory processing, delivery of temporary screw-retained prosthesis.
- Day 3 Lecture & Clinical- impressions of implants, jaw relations, prosthesis design,
- Day 4 Lecture - delivery, prosthesis design, maintenance and trouble shooting.

Enhancing Your Restorative Results With Crown Lengthening Surgery

Dr. James Kohner

Friday, March 21, 2014

• 9am - 5pm • \$649 • 7 CE Credits • Hands-On •

- Planning esthetic restorations in the anterior when facing uneven tissue, or a "Gummy Smile?" - Evidence Based solutions
- Confirm that you are current in your treatment planning choices.
- In-depth concepts & practical applications for Clinical Crown Lengthening
- learn how to enhance predictability for your restorations and impressions.
- Practice these procedures on pig jaws & anatomical models.
- Techniques are discussed for both Functional & Esthetic Crown Lengthening. Benefits of these procedures and how they create happy patients.

Dr. Edward McLaren

Current Ceramic & Adhesive Update

Plus: Elements of Smile Analysis and Digital Design

Tuesday, June 3, 2014

• 5:30PM - 9:30PM • 3 CE Credits • Tuition: \$199

Accelerate Your Practice • Sandy Pardue

Friday, June 27th

9am - 5pm • 7 CE • Tuition \$399

Sandy Pardue

Learning Outcomes:

- Understand objections & have the tools to help overcome them
- Have more control over practice production and collections
- Recognize missed opportunities within their own four walls

This course will teach:

- Reactivation Project- get the "gold" out of your files
- Tools to increase new patients without additional marketing
- Unique financial options that will increase case acceptance

This lecture is recommended for doctor and all members of the team
