Special faculty: Michael Sesemann, DDS, FAACD

DENTISTRY AS A PROFESSION IS EXTREMELY CHALLENGING. WE MUST PROVIDE THE BEST POSSIBLE CARE IN A MANNER THAT IS SAFE, EXPEDIENT, AND COST-EFFECTIVE. THAT'S A PRETTY TALL ORDER. TO HELP YOU FACE THESE CHALLENGES, I'LL BE FACILITATING THE FOLLOWING ADVANCED SKILLS WORKSHOP.

Michael Sesemann,  
DDS, FAACD

# OCCLUSION FOR EVERY DAY PRACTICE

June 27<sup>th</sup>-29<sup>th</sup>, 2014

Brian LeSage,  
DDS, FAACD

## Objective

Learn the basic principles of occlusion and how they fit into all clinical practices.

## Overview

Build on the occlusal principles you have learned thus far, but more importantly debunk myths that lead to confusion and lack of confidence in treating more complex cases.

Treat challenging wear cases. Bring models of a case you have been wondering how to treat and be shown the thought process to take from start to finish (One such case pays for the price of this course).

By understanding the signs of occlusal pathology, from wear to mobility to TMD symptoms, each clinician will learn the value of occlusion to long-term dental health and success of your cosmetic cases. Emphasis will be placed on diagnosis, which will help guide the appropriate management of occlusal forces in your simple restorative cases to full mouth reconstruction.

## COURSE TOPICS

**Worn Dentition—Demystifying Full-Mouth Rehabilitation (Lecture):** *This course is designed for the progressive restorative dentist who wants to feel more confident in providing full-mouth rehabilitation. Well-documented cases will be covered from the initial workup to the post treatment follow-up, detailing all TMJ treatment, Perio, Surgery, Occlusal Management, Aesthetic considerations, and future risk mitigation. The participant will leave with a thorough understanding of the necessary steps to take a nervous patient with multiple dental issues and bring them to a state of dental health and self-esteem. Objectives include:* The proper examination, treatment planning and case protocols for full-mouth rehabilitation ♦ How to break difficult cases down to the 5 basic elements of dental health ♦ The tools (education and equipment) necessary to finish these cases predictably.

**Introduction to Dental Sleep Medicince:** *This course is intended to provide a comprehensive overview of diagnosis and treatment of sleep apnea cases for dentists interested in adding this growth area to their practices. Dr. Veis will cover all aspects diagnosis and the sleep study, deciding which appliances to use for treatment, measuring and fitting the appliances, interacting with the fabricating lab, and how to manage the billings to medical insurance, including:* Introduction to sleep stages, disorders and why there is a need for treatment? ♦ Sleep apnea signs/symptoms/clinical issues and treating sleep apnea via dental appliances ♦ Protocol review ♦ Services to do and read sleep tests ♦ Overview of Appliances - pro's and con's of all of the major sleep appliances ♦ Model analysis, Mixed dentition and how to take construction bites for making certain appliances ♦ Group work on an actual case and diagnosing appliance ♦ Services to fully take care of the medical billing for these services

**Restoring Your Confidence in Pediatric Care (Lecture):** *An extensive review of all procedures in pediatric restorative dentistry, including:* Diagnosis (Clinical and Radiographic), treatment planning (including cases that participants diagnose and treatment plan from bitewing x-rays), primary anterior and permanent posterior restorations, primary pulp therapy, stainless steel crowns, anterior strip crowns and preventive restorations with air abrasion technology. Become familiar with all forms of space maintainers and many simple active appliances.

# CLINICAL FUNDAMENTALS OF OCCLUSION

INSTRUCTOR: MARTIN N. GORMAN, DDS.

DATE: SUNDAY, JUNE 8TH, 2014

REGISTRATION: 7AM-8AM

Please Fax-in the Registration Form on the other side of this page

For questions phone SCAGD at 310- 471-4916

TIME: 8AM-5PM

**(EARN 8 C.E. CREDITS)**

How much restorative failure is the result of occlusal issues? Doctors and patients are unaware of these issues. The aim of this comprehensive course is to understand the relevance of occlusion to the outcome of restorative procedures, despite patient's chief complaints. The presentation will review the techniques and instruments used to analyze occlusion, as well as the importance and usefulness of a diagnostic wax-up.

**A 40-page instructional syllabus covering this will be given to all attendees.**

Dr. Martin N. Gorman is a highly trained Bioesthetic dental practitioner in the treatment of Temporomandibular Joint-Dysfunction (TMD), Sleep Apnea and Epigenetic Orthodontics. His approach involves a comprehensive evaluation of the entire chewing system. It regards the teeth, jaw joints, bones, nerves, muscles, lips, tongue, mouth and the face as a collective system rather than individual parts. Equilibrium between all these oral structures provides a lifetime of optimal comfort, function and beauty.

**PACE**  
Program Approval for  
Continuing Education

Approved PACE Program Provider  
FAGD/MAGD Credit Approval  
does not imply acceptance by a  
state or provincial board of  
dentistry or AGD endorsement  
11/2/2011 to 10/31/2015

THE ENTIRE DENTAL OFFICE TEAM  
SHOULD ATTEND THIS PROGRAM IN  
ORDER TO IMPROVE THEIR  
COMMUNICATIVE SKILLS WITH PATIENTS.

**At the end of this course participants should be able to understand:**

- Dentistry and the law in California. (*Liability issues regarding diagnosis and patient consent*)
- Occlusion in everyday dentistry. (*optimal biologic dental model*)
- Diagnosing and educating patients about occlusal disease.  
(*standard of care for recognizing this highly destructive problem*)
- Anterior guidance, the occlusal plane, and stable condylar position/proprioceptive guidance.  
(*fundamental to creating occlusal stability and comfort*).
- Know the importance of "organic atraumatic occlusion" and how to achieve it.
- Identify occlusal red flags. (*recognize occlusal dysfunction and make a correct primary diagnosis*).
- Effectively communicate diagnoses and treatment plans to motivate patients.
