**DR LARRY LOPEZ**

Dr. Lopez is the original developer of the bonded resin techniques and materials applied to endodontics. Working with polymer chemists he developed the Innoendo and Fibrefill systems and their component parts. At the University of North Carolina at Chapel Hill he participated in the early studies on bacterial leakage of resin Endodontic obturation systems.

**Publishing**

Dr. Lopez has written numerous articles on adhesive Endodontics and the restoration of pulpless teeth. He has authored a chapter on Prosthodontics in a dental textbook.

**Lecturing**

Dr. Lopez has lectured to numerous major dental societies and study clubs in the United States on the subjects of fixed prosthodontics, adhesive endodontics and the restoration of endodontically treated teeth

**Dr WEINSTEIN**

Dr Weinstein did his post graduation in Endodontics from University of Pennsylvania in 1969 (Mentor: Dr Louis Grossman). He is past president of Canadian Academy of Endodontics, British Columbia Society of Endodontics, Interspecialty Society of British Columbia and of International Fedration of Endodontics Association (IFEA). He is chairman of international Federation of Endodontics Association world congress Aug 22-27 2007. Dr Weinstein is assistant professor at University of British Columbia.

**This seminar will cover:**

The full day seminar will introduce the participants on how to create proper coronal and radicular access preparations, achieve accurate length control before and during instrumentation by using state of the art electronic foramen locators and to safely and effectively incorporate NiTi rotary instrumentation system into their Endodontic instrumentation protocol. A new system that incorporate fiberpost technology and a new thermoplastic resin bonding material with all the properties of gutta percha but with vastly superior sealing abilities as a root canal filling material and with root strengthening properties will also be presented.

At conclusion, participants should be able to understand

- The dynamics of endodontic therapy.
- How your treatment protocol affects your prognosis.
- The principles and techniques of canal disinfection.
- Indications and contraindications of different filling materials
- Management of post operative complications

**Seminars In 2007**

Presents
Advanced Restorative Techniques

Taught By Prosthodontists
This Program is for General Dentists, Dental Assistants and Lab Technicians
AGD and California Board Approved 8 hours of CE units.
Sunday, October 15, 2006. 8AM – 5 PM (Reg.7:30AM – 8 AM)
Sheraton Cerritos Hotel. 12725 Center Court Dr. Cerritos, CA.

Speakers

MORNING SESSION

Comprehensive Restorative Dentistry- Clinical Steps
Dr. Saj Jivraj completed his dental degree at the University of Manchester in England in 1993 and his advanced Prosthodontic training at the University of Southern California. He also completed a Masters in Science Education with a specialty in Medical Education at the Rossier School of Education, University of Southern California. Currently he holds a faculty position as Assistant Professor at the USC School of Dentistry where he is the Chairman Section of Fixed Prosthodontics and Operative Dentistry. He has published on aspects of implants, esthetics and reconstructive dentistry in peer reviewed journals and has presented on aspects of implantology and advanced Prosthodontic procedures both nationally and internationally.

Afternoon Session

Clinical pearls in Prosthodontic Techniques
Dr. Seibert graduated with a DDS from the University of California at San Francisco in 1975. He practiced General Dentistry in Clovis, CA until 1982. From 1983-85 he pursued Advanced Prosthodontic Education with a certificate degree in Prosthodontics from the University of Southern California. Currently he is the Director of the Stuart Gnathological Study Group of Los Angeles. He has a private Prosthodontic practice in Laguna Niguel, California with a full service, in-house dental laboratory. He performs all restorative laboratory procedures himself.

This great learning experience is only $89 for member dentists, $59 for dental assistants, and $69 for lab technicians.
