

## 3rd Annual Comprehensive Dental Skills Series

The Knott's Berry Farm Resort Hotel

### DEC. 18, 2011: HANDS-ON IMPRESSION, PROVISIONAL AND ARTIFICIAL DENTINE WORKSHOP PLUS RESTORATIVES REVIEW

**Dr. Howard Glazer** is Past President of the Academy of General Dentistry. He was named a "Top Clinician in Continuing Education" by Dentistry Today.

## JAN. 29, 2012: THE ULTIMATE MATERIALS COURSE- ADHESIVES, COMPOSITES, LASERS AND MORE (LECTURE, INCLUDES A LASER DEMO)

**Dr. George Freedman** is Past President of the American Academy of Cosmetic Dentistry and a columnist on the latest dental materials for Dentistry Today Magazine.

### MARCH 18, 2012: PEDIATRIC DENTISTRY FOR GP'S (LECTURE)

**Dr. Fred Margolis** is a pediatric dentist, an expert on pediatric care, lectures internationally and has been named a "Top Clinician in Continuing Education" by Dentistry Today Magazine.

### APRIL 15, 2012: PREDICTABLE IMPLANT AESTHETICS (LECTURE)

**Dr. Paresh Shah** is an Executive Board Member of the Canadian Academy for Esthetic Dentistry and specializes in implants, esthetics and complex restorative treatments.

#### THE KNOTT'S BERRY FARM RESORT HOTEL

(Beach Blvd Exit off 5, 405 & 91 Fwys) - 7675 Crescent Avenue, Buena Park CA All Courses are 8AM-4PM on Sundays & 7 CA CEs each

\$139 Per Lecture, \$229 Per Hands-On Course or THE ENTIRE 4 COURSE SERIES (28 CA & ADG CEs) FOR ONLY \$399

COURSE SERIES SPONSORED BY:

#### **COURSE TOPICS**

Hands-on Impression Taking, Provisional and Dentine Replacement Workshop: This hands-on presentation is designed to familiarize the participants (both doctors and their staff) with the latest methodology, advantages and techniques for proper impressions and fabrication of temporaries or provisional restorations, as well as use of dentin replacement materials in restorations ◆ With simple and easy techniques, participants will utilize models to practice various techniques, using a variety of impression materials, composite resins, the latest bis-acryl resin technology and dentin replacement materials ◆ Light and self-curing composite materials will be demonstrated for ease of use in creating aesthetic temporaries for porcelain laminated veneers, inlay/onlays, crowns and bridges.

The Ultimate Materials Course: Dr. Freedman will discuss the latest dental techniques and materials, including how dental sensitivity can be totally eliminated and prevented: 7th and 5th generation adhesive materials, innovations in composites and matrix systems, and single step etch, bond and desesensitization ◆ Minimally-invasive Fissurotomy burs − an anesthetic-free approach to caries restoration and repair ◆ Indirect procedures are simplified by easier to use, impression materials and one-step resin cements ◆ One-step post cementation and core build-up techniques ◆ Innovative carbide crown and bridge preparation (GW Ultra) with constant torque high speed electric handpieces. ◆ Predictable digital shade matching ◆ Photo-Activated Disinfection technology offers caries control and remineralization. ◆ Soft tissue lasers (demonstrated on hotdogs)

Pediatric Dentistry for GP's: Today's parents demand the best restorations of their children and teen's teeth for function and esthetics. Discussions will include: Glass ionomers, resinomers, composites, and various types of crowns ◆ Esthetic facings for stainless steel crowns and chairside/lab steps ◆ When space maintainers are indicated and the easy fabrication of removable and fixed appliances, including a reference chart of when space maintainers are indicated for each development stage ◆ Enamel microabrasion, direct-bonded and porcelain veneers for teenage patients ◆ Laser Dentistry − learn how to "numb" a tooth in 30 seconds, perform gingivectomies, frenectomies, fibroma excisions, crown lengthening and troughing for crowns and bridge with no shots ◆ Review of traumatic injuries and their treatments, including pulp therapies ◆ Invulsions, dislocations, avulsions and the Ellis Classification of injuries ◆ Radiographic techniques for hard and soft tissue injuries ◆ The protocol for reimplantation of permanent incisors, including splinting mechanisms ◆ The dark primary incisor and treatment of trauma to primary teeth.

**Predictable Implant Aesthetics:** Implant, abutment and final restoration selection all play a vital role to the success of implant treatment. This course covers proper impressioning techniques, lab communication, abutment selection, provisionalization, tissue management and prosthetic design ◆ Learn easy techniques to implement in your practice

## Southern California Academy of General Dentistry

#### MASTERING THE MISSING LINK

Simple, Surefire Orthodontic Techniques For The General Dentist

Come to this Lecture and Learn How Easy This Can Be And How Grateful Your Patients Will Be That You Did

Speaker-Instructor: Rob Veis, DDS

Sunday, December 4, 2011 Registration 7:00 am to 8 am Program 8:00 am to 5:00 pm Lunch 12:00 to 1:00 pm

Election of SCAGD Officers & Directors for 2012 12:50 to 1:00 pm

Embassy Suites Hotel-Anaheim South, 11767 Harbor Blvd., Garden Grove, CA 92840

Phone: 714-539-3300

8 CE Units

Free Parking, Continental Breakfast and A Fabulous Buffet Lunch Included

Author, educator and practicing general dentist, Dr. Rob W. Veis is an internationally renowned authority on orthodontics for general practices, sleep medicine and appliance therapy. He is also the CEO of The Appliance Therapy Group, the world's leading manufacturer/provider of orthodontic dental appliances and products. Dr. Veis is a former clinical instructor at USC and faculty member of the Las Vegas Institute for Advanced Dental Studies. Dr. Veis practices general dentistry in Los Angeles.

Before

After

Before

After

There are many instances where minor tooth movement can greatly improve the outcome of restorative and esthetic dental treatments. Often these conditions present themselves during the restorative phase of treatment when referral to an orthodontist could be counter-productive or impractical. Dr. Veis will show us how minor tooth movement with fixed and/or removable appliances can easily be done in a profitable and effective manner and earn the gratitude of many of our patients. Also included will be splint therapy, sports dentistry, sleep apnea and the making of tooth position retention appliances.

The Registration Form and Additional Information is on the Other Side

Dr. Carla Cohn

Kids Dental 128 - 2025 Corydon Ave. Winnipeg Manitoba R3P 0N5 Phone (204) 222-5437, Fax (204) 489-1785 Cell (204) 291-2791

Dr. Cohn graduated from the Faculty of Dentistry at the University of Manitoba in 1991 and completed a post graduate internship in Children's Dentistry at Health Science Centre Children's Hospital. Dr. Cohn entered into private practice and was alarmed at the rampant tooth decay she encountered in very young children, despite all of the knowledge and education available on preventing tooth decay. Today Dr. Cohn focuses on prevention using pro-active and ground breaking methods. Employing a system that will allow dentists to eradicate cavities and treat caries by risk assessment. Change can only occur through education. Dr. Cohn's goals for the future are to help educate the community, dental professionals and medical professionals on prevention of tooth decay. Her hope is to help create a new generation of cavity free children, one in which a child has never experienced an injection of local anesthetic or the dental drill.

Dr. Cohn holds appointments at the University of Manitoba, Faculty of Dentistry, and the Dean's Advisory Board at the University of Manitoba. She has surgical privileges as a shareholder at Western Surgery Centre - a private surgical clinic. Dr. Cohn is a member of the following organizations: Canadian Dental Association, Manitoba Dental Association, Manitoba Dental Alumni Association, Winnipeg Dental Society, Women's Dental Group, American Academy of Paediatric Dentistry and the Canadian Dental Institute. She lectures nationally and internationally on risk assessment, prevention, behavior management and restorative treatment options. She speaks as a clinician who has observed first hand and dealt directly with everything presented in her courses.

#### Practical Pediatric Dentistry for the General Practitioner and their Assistants (½ day)

Kids make up an integral part of the practice of general practitioners. They can be the most rewarding or the most dreaded part of our day. It all depends upon our ability to manage behavior - both ours and our patients. Learn how to make treating kids the best part of your day. In this course, Dr. Cohn shares her daily practices and provides instruction on behavior management and restorative options. Many of the "everyday questions" that are asked by parents will be reviewed and answered. Dentists and their assistants can become an ace at managing kids. Never shy away from your little patients again after this course. Learn How to:

- complete an examination for infant, toddler and school aged children
- effectively manage kid's and parental behavior
- deal with many of the common concerns of parents

#### Make Risk Assessment and Prevention Your Key to Building a Successful Practice (1/2Day)

What's new in children's dentistry? Risk assessment for caries management is the new buzz word in kid's dentistry. For too long dentistry has been a drill and fill approach. Learn how to treat your patients with a medical approach rather than a surgical approach. This course will provide you with everything you need to know about risk assessments for your patients - including patient questionnaires, clinical testing, and oral examinations. Learn how to do a proper infant examination. This course will also discuss a "tool box" of preventative strategies, to use with your patients to keep them cavity free. This is the future of dentistry. This course is not to be missed! Learn How to:

- · treat caries as an infectious disease
- complete a risk assessment
- manage caries based upon risk categories
- provide a wide range of preventative therapies
